Quality Seed Growers
RANDOLPH, WIS.

JUNG'S FREE SEED SPECIALTIES

The splendid vegetables and flowers offered below are special selections and are something we know will delight our customers. Many seedsmen charge 10c to 15c per pkt. for such seeds but as a special offer to our customers you may select 1 pkt. free for each 25c worth of seeds or plants ordered but not more than 6 pkts. to a customer. This offer does not apply on Farm Seeds or Collections on which our profit is very small. Free Seeds must be selected from varieties offered on this page only.

Disease-Resistant Tomato "Marglobe"

When a tomato is only disease or wilt resistant it is a great improvement, but when in addition we also have earliness, large and uniform fruits and productiveness there is not much more to be desired, however "Marglobes" combines all these qualities.

"Marglobe" is a beautiful scarlet, globe shaped tomato and has proved to be more disease-resistant than any other variety. Fruits are very smooth and of large size, often weigh one lb. each.

Marglobe Tomato

Longfellow Cucumber

This we consider the ideal cucumber as it will produce a larger crop of long, slim uniform dark green fruits than any other variety. The cukes are 12 to 16 inches long, slender, very uniform in shape and contain very few seeds. Sure to become popular as it will be very profitable to grow for fancy trade.

Longfellow Cucumber

Early Honey Cream Sweet Corn

After once tasting this splendid sweet corn you will say that it is the most delicious corn you have ever tasted, it is well named for it tastes like "honey and cream." It is very early, stalks are dwarf and may be planted close together. Ears are 5 to 6 inches long and well filled with delicious snowy white kernels.

Early Honey Cream Sweet Corn

Canary Bird Flower or Vine

A dainty vine that blossoms freely throughout the summer and fall. The flowers are a rich golden yellow, very bright and attractive with their fringed petals. Flowers much resemble a canary bird with open wings.

Velvet Flower or Salpiglossis

Splendid annuals that produce orchid-like flowers from early summer to late fall. Flowers are rich and velvety in various shades and veined with golden markings. Easily grown, fine for cutting as well as showy in beds.

"Mastadon" Snapdragons

These wonderful Snapdragons surpass anything you have ever tried. They produce great spikes of flowers on stems 2 to 3 feet long and come in the most glorious colors imaginable.

Early Spencer Sweet Peas

By using this select early strain you can have giant flowered ruffled sweet peas in flower fully two weeks earlier than from the regular strain. Our mixture contains all the finest colors of the large ruffled strains.

"How to Grow Fine Vegetables and Beautiful Flowers"

We are not satisfied to only sell you good seeds, we also want to see you have the finest garden in your neighborhood as that is the best "ad" we can have. At considerable expense we have gotten up complete cultural instructions for both Vegetables and Flowers which we send free when requested with every order. You will get much valuable information from these instructions.

"The Products of Jung's Seeds are Unexcelled"

Randolph, Wis., Jan. 1, 1928

To Our Friends and Customers:

The time will soon be at hand when you will be planning your garden and home surroundings for 1928. No doubt you will have many catalogs to select from, each claiming to have the best seeds, plants, etc. We do not claim to be the only reliable seedsmen as most seed houses today are conducted on honest principles but we do claim to have as good stocks as it is possible to produce.

For twenty-one years we have been growing and improving our stocks and the steady increase of our business from year to year is the best evidence we can offer that our seeds are giving satisfaction. The past season, as usual, again showed

a large increase in business over the previous year; this is not due only to sending out the highest quality seeds but also to the kindness of our customers who recommend us to their friends and neighbors and have them plant our seeds, bulbs, and plants.

We would enjoy meeting each one of you and thank you for your kindness but as this is not possible we can but say "Thank you" here and assure you such favors are highly appreciated.

Our stocks of Seeds, Plants and Bulbs which we will supply on your orders for 1928 we honestly believe are the best we have ever had and we await your orders which will have our most careful attention.

It's Easy to Order Jung's Seeds

With each catalog we enclose an order sheet and self-addressed envelope. Be sure to write your name and address on order sheet. After writing down the list of articles wanted place same, together with remittance in the envelope. Remittance may be made by Money Order, Bank Draft or Check, amounts of 50c or less may be sent in clean postage stamps. You will be surprised how easy it is to make out your order and how soon the seeds will reach you after the order is sent in.

We Prepay Delivery Charges as Follows:

Except where noted we pay the postage on all seeds offered by the packet, ounce, quarter-pound, pound, half-pint, pint, and quart, also on all bulbs and plants offered in quantities up to 1,000. On plants in lots of 1,000 or more purchaser pays charges. On seeds offered on wholesale page, also farm seeds and potatoes in quantities of over 3 pounds we do not pay charges.

We Guarantee Safe Delivery

If any parcel of seeds, plants or bulbs reaches you in bad condition advise us at once and we will refill the order free of charge or refund your money. Also if any goods you receive from us are not satisfactory in every way they may be returned and your money will be refunded.

Orders are Filled Promptly

We usually fill orders the day they are received. This applies to orders for seeds that can be sent at any time during the winter. If the order includes potatoes, onion sets, plants etc., which cannot be safely sent in cold weather, we are obligated to hold the order until it is safe to ship.

Disclaimer

The J. W. Jung Seed Co. gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants it sells and will not be responsible for the crop.

Our Responsibility

You are absolutely safe in sending your order to us. Any seeds that are not satisfactory upon arrival may be returned and your money will be promptly refunded.

We refer you to any commercial agency, the Randolph State Bank and the postmaster at Randolph, Wisconsin.

Although Reduced Our List is Complete

We have spent much time and gone to considerable expense in getting out a catalog that will contain but a limited number of varieties and still be complete. You will find that our list will meet every requirement as each item has been selected for its superior qualities.

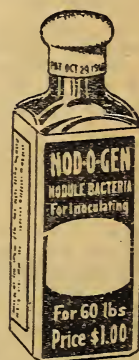

Errors or Mistakes

We are only human and will make errors, however, when a mistake does occur we are glad to have our customers write us so that it may be corrected. Always keep a copy of your order to check over the goods when you receive them; often people will write us that they ordered some items which they did not receive but upon looking up their orders we find that the items claimed to be short were not ordered.

"NOD-O-GEN"

Will Increase Your Crops of Peas, Beans and Sweet Peas

This is a compound which when applied to the seed before planting promotes stronger healthier growth, hastens maturity, increases the crop, improves the quality and also enriches the soil. It is for legume plants such as Beans, Garden Peas and Sweet Peas. In the case of Sweet Peas larger and finer flowers will be had, and in Garden Peas and Beans your crop will be much heavier and of finer quality and you can pick more pods from each plant. NOD-O-GEN is easy to apply, full instructions on each bottle which contains sufficient compound to treat 5 to 10 lbs. of seed. Each 20c.; 3 for 50c.; bu. size or garden beans or peas \$1.00. State for what crop wanted.

M-G-K EVER GREEN NON-POISONOUS INSECTICIDE

A wonderful insecticide that kills cucumber, melon and squash bugs, cabbage worms and plant lice and insects of all kinds. It is sure death to insects but is not poisonous to people and cannot injure the most tender plants. It is easy to apply by simply mixing with water or soapsuds and spraying on the plants. Instructions on each bottle.

1½ oz. bottle 35c
10 oz. bottles \$2.00

6 oz. bottles \$1.00
32 oz. bottles \$3.85

Plant Food for House Plants, Lawn & Garden PLANT PEP Makes 'em Grow

This is a highly concentrated and well balanced fertilizer for pot or house plants, roses, ferns and also for outdoor flowers and shrubs. It increases the foliage and improves the color and size of blossoms. Odorless and harmless. PLANT PEP is sure to bring forth healthy plants and lots of flowers. 2 oz. pkt. makes 5 gal. 15c.; 8 oz. can makes 20 gal. 50c.

Jung's Wholesale Prices on Garden Seeds

As is the custom with most seedsmen we make special prices to market gardeners or those planters requiring seeds in large quantities. These seeds are of the highest quality being grown by us or growers who have made a specialty of producing high grade pedigreed seeds. Quality considered we believe you will find our prices very reasonable. Remember it costs more to produce good seed but they are also worth more when the resulting crop is taken into consideration. Without good seed the best land and cultivation cannot yield you a profitable crop.

At the prices quoted on this page we do not pay shipping charges, please state on your order whether we should ship by freight or express.

NOTE—We cannot fill any order at these prices unless it amounts to \$3.00 or more.

NOTE—Half bushels may be ordered at bushel rates, half lbs. at lb. rates.

J. Stokes, La Salle, N. Y.—I must say your seeds were so good last year that I cannot help recommending them to everyone else.

Gustav Schneider, Merrill, Wis.—Your prices are considerably lower than any other seed house I have dealt with and do not lack in quality.

Solomon Levy, Bradford, Ohio.—Have been using your seeds for several years and like them fine.

Henry Daymon, Carey, Ohio.—We were well pleased with our seed and do not hesitate to recommend them to others; many from around here will plant your Wayahead Tomatoes this year as we were so far ahead last year.

W. J. Nash, Howell, Mich.—We used your seeds last year and they were wonderful.

Al Preller, Joliet, Ill.—The seed I bought from you was excellent, the Wayahead Tomatoes cannot be beat.

JUNG QUALITY Garden Seeds

In the following pages you will find a complete but carefully selected list of both new and standard varieties of seeds, varieties which have been carefully tested and which we can fully recommend. All of these seeds are grown from carefully selected stocks and great care has been used to keep them pure; all have been carefully tested for germination. We make quality the first consideration for we know that without good seeds you cannot raise a good crop. Quality considered you will find our prices very reasonable.

GIANT STRINGLESS GREEN POD

EXTRA EARLY RED VALENTINE

The Seed Beans we offer are practically all of our own growing. They were produced from select stock seed, were thoroughly rogued and hand picked. You will find that our Northern Grown Beans will be ready to use earlier and also bear heavier crops of pods than the ordinary commercial stocks.

Jung's
Packets are
Liberal Size

BUSH BEANS

Giant Stringless Green Pod

Here is an absolutely stringless, giant podded bush bean. It combines extreme earliness, unusual hardness and great productiveness. The handsome pods are 6 to 7 inches long, very brittle and stringless even when fully matured, deep green in color and of the finest quality. One of the best varieties for either market or the home garden. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Extra Early Red Valentine

One of the most popular green-podded sorts for either home use or market, many prefer it to the wax or butter beans. Pods are four to five inches long, medium green in color, round and very fleshy, crisp and tender. Under adverse weather conditions we know of no other variety that is more sure to produce a crop. Our strain is extra select and far superior to the stock usually offered. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

Jung's Fairfield Wonder Wax

Without a doubt the finest Wax or Butter Bean ever introduced. It is with pleasure that we offer our customers this grand new Butter Bean, as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10c.; ½ pt. 25c.; pt. 40c.; qt. 70c.

JUNG'S FAIRFIELD WONDER WAX

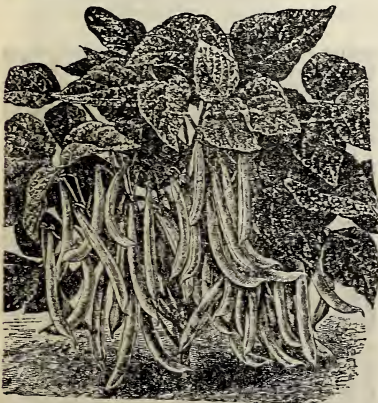

Thomas Perrin, West Duxbury, Mass.
I have always found your seeds the best yet.

Jung's Extra Early Wax

A splendid variety which combines extreme earliness, fine quality and hardness. Bushes grow to good size and will produce a fine crop of pods under conditions that would ruin most other varieties. Pods are flat, 5 to 6 inches long, very fleshy and stringless. You will be delighted with this splendid bean. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

Rust-Prorr Golden Wax

One of the Earliest and Most Prolific Wax Bush Beans. The bushes are strong, vigorous growers and bear an immense load of long, flat meaty pods which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and of a most delicious flavor. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

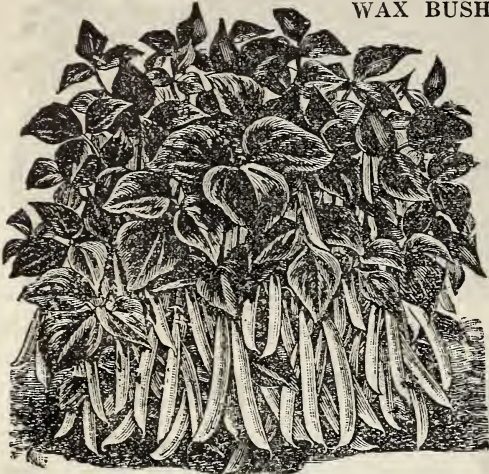

JUNG'S EXTRA EARLY WAX

RUST PROOF GOLDEN WAX

WAX BUSH BEANS—Continued

PENCIL POD WAX

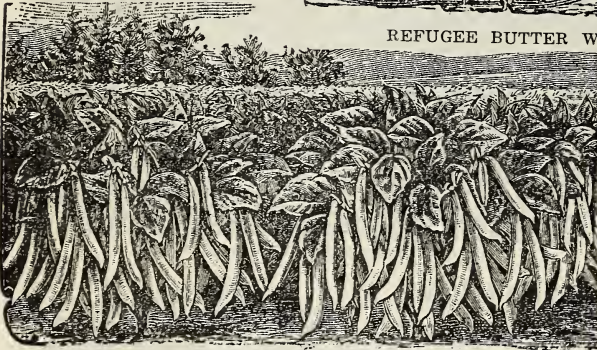

BRITTLE WAX

Pencil Pod Wax

We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth. 15 inches high with abundant foliage. The magnificent pods are from 5 to 7 inches long. Pkt. 5c.; $\frac{1}{2}$ pt. 25c. pt. 35c.; qt. 60c.

REFUGEE BUTTER WAX

UNRIVALED BUTTER WAX

Unrivalled Wax Butter Bush Bean

The Earliest of all Wax or Butter Beans Creamy Golden Pods, Free from Rust. Handsome Appearance. Enormous Yielder.

In our opinion this should be placed at the head of the list; we consider it to be unexcelled for earliness, quality and yield. The plant is to be unexcelled for earliness, quality and yield. The plant is a strong grower and well supplied with large, almost smooth, lustrous green leaves. They bear enormous crops of beautiful transparent pale yellow pods; this color is maintained clear to the tip with no sign of green. Pods are 6 to 8 in. long, very tender and entirely stringless. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

FIELD BEANS—Snowflake or 1200 to 1

Ripens Early. Immense Yielder. Handsome Appearance. Unequalled for Soups or Baking. We again sent out many hundred packets of this wonderful bean the past season and are delighted to hear of the excellent results our customers are having with it. This is decidedly one of the best Pea Beans to grow for either market or home use both on account of its great yield and handsome appearance. Its cooking and baking qualities are unsurpassed. Vine are very healthy, dwarf or bushy in growth and bear an immense number of pods which are well filled with the pearly white beans. Get at least a pint of these wonderful beans and grow enough for your winter use. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

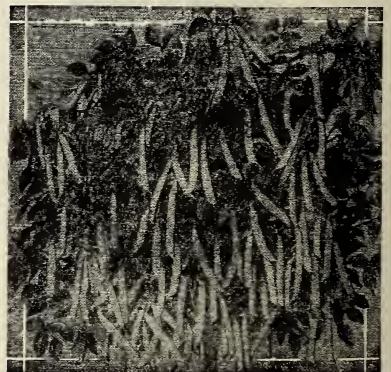

Brittle Wax

The Earliest of all BUSH BEANS. Of such excellent quality that it might well be termed "best of all." The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long, straight round and very solid pods, from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snapshots, having white seeds showing only a black dot at the eye. Any pods allowed to ripen will be readily saleable as winter beans. Include this great bean in your order. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Refugee Butter Wax

One of the heaviest yielding wax Bush Beans, also one of the surest croppers. Many times when all other varieties were a failure, Refugee yielded a heavy crop. It is a very hardy variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle and it has no strings whatever. Plant it once and you will want it every year. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

Mrs. J. E. Gravois, Hohen Solms, La.—Everybody here is asking me for your seeds and want none other, they are all delighted with the fine vegetables and flowers raised from them.

SNOWFLAKE OR 1200 TO 1

Henderson's or "Baby" BUSH LIMA BEAN

The earliest of all Lima Beans, by planting this variety gardeners in the northern States can enjoy Limas from their own gardens. It is at least two weeks earlier than any of the climbing Limas and can be had ready for use by July 20, from then until frost; they will yield enormous crops of pods. Bushes grow about 18 inches high and require no stalks, so productive that a small patch will keep a family supplied throughout the season. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

HENDERSON'S BUSH LIMA

Paul A. Sieg, Wallingford, Conn.—Have always had very good luck with your seeds.

WONDER BUSH LIMA

Wonder Bush Lima Bean

A great improvement on Burpee's Bush Lima as it is earlier and more productive, the pods are borne more to the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 15 to 24 inches tall and require no stakes or poles. Pods are truly mammoth in size and borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

INOCULATE
THIS SEED WITH
NOD-O-GEN

See page 1

IMP. KEN. WONDER

POLE BEANS

Improved Kentucky Wonder

One of the earliest and best green-podded pole beans. Its wide popularity is well deserved as it is enormously productive the pods hanging in great clusters from top to bottom of poles. Pods are 9 to 10 inches long, entirely stringless and cook up rich and buttery. A very sure cropper and may be planted with corn. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with a solid mass of pods, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Henderson's Early Leviathan Pole Lima

This is the very earliest. It will not only give pods earlier than any other strain but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 7c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 60c.

Special Offer No. 1

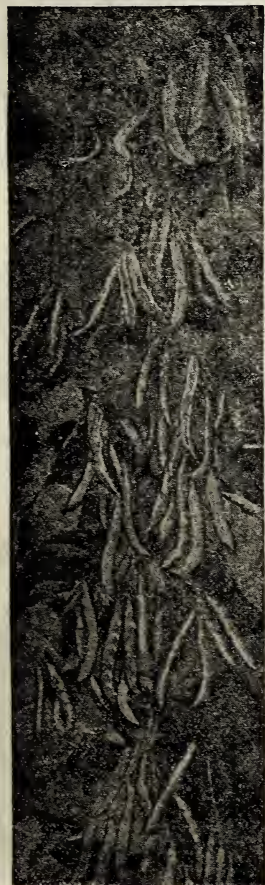

You can assure yourself a continuous supply of crisp and tender beans by planting the following:

Fairfield Wonder Wax
Unrivalled Butter Wax
1 Pkt. of each for 25c.
 $\frac{1}{2}$ Pt. of each for 85c.

Extra Early Valentine
Imp. Kentucky Wonder
1 Pint of each for \$1.40
1 Qt. of each for \$2.50

Mrs. Alfred Bowers, New Butler, Wis.—Have always found your seeds very satisfactory and have the nicest garden I have seen this year all planted with your seeds.

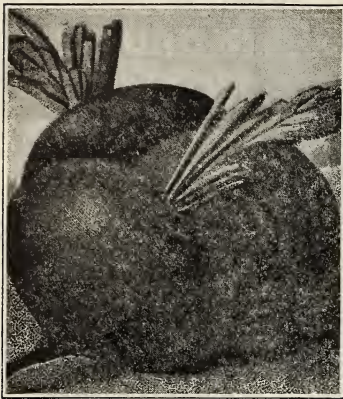

Mrs. Chas. Smith, Kuttawa, Ky.—Was very much pleased with your seeds, the Tomatoes from your Wayahead seed ripened two weeks ahead of my neighbors and the Pole Beans were the finest I have ever tasted.

HENDERSON'S LEVIATHAN

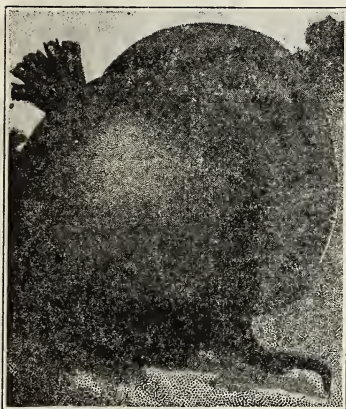

KY. WONDER WAX

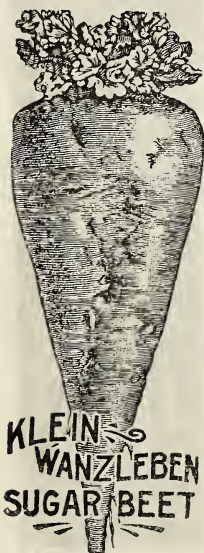

IMP. BLOOD TURNIP

Improved Blood Turnip

Extremely Early, Deep Red, Tender and Sweet. A wonderful Beet for the home or market garden. Roots are remarkably uniform, very dark red; flesh deep purplish red with little tendency towards zoning. Tops are small which permits close planting and makes it very desirable for bunching. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c

FIREBALL

KLEIN
WANZLEBEN
SUGAR BEET

GARDEN BEETS

DETROIT DARK RED

Select Detroit Dark Red

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian and greatly surpasses that variety in flavor. The color is rich, dark red and the shape is globular. It is fine grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop or for use in winter as it is a good keeper. It cooks sweet, tender and crisp and it is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

Early Model

This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and of finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of Early Model are of good shape and run uniformly perfect; almost round, with small, dark crimson-colored leaves and a slim tap-root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice quality and freedom from woodiness until the Beets have reached their full size. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

Fireball

Excellent for the Home Garden or Canning. This early globe-shaped beet of excellent quality is especially esteemed on account of its dark red color, which extends entirely through the beet and without the light colored ring seen in some varieties. The medium sized beets are smooth and handsome and are now being largely used for canning as well as for the home garden or market. It retains its good quality even after it gets large, and is an excellent variety on this account for fall use as well as for spring. Matures in about 50 days. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

SUGAR BEET-Klein Wanzleben

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analysis showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons per acre but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. Pkt. 5c.; oz. 8c.; $\frac{1}{4}$ lb. 25c.

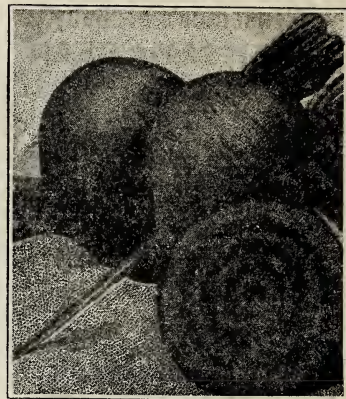

MANGELS

Mammoth Long Red

The heaviest cropper. This mangel is enormously, wonderfully productive. The flesh is red, of very fine texture and quality containing less water and more sugar than any other Mangel, except it be the Half Long Sugar making it the most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to others. Oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 65c.

Golden Tankard

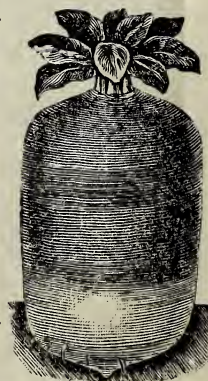

A smooth, yellow-fleshed Mangel; roots are of large diameter, tapering quickly to the bottom which is quite broad with only a small taproot. It grows largely above the soil and is easily harvested. It yields an enormous crop on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels. Oz. 8c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

EARLY MODEL

MAMMOTH LONG RED

GOLDEN TANKARD

CARROTS

Jung's First of All

A remarkable handsome Carrot that is ready for use before any other variety. Roots grow 3 to 4 inches long and present a fine appearance when bunched for market. Flesh is deep orange colored, tender and sweet, fine grained and never coarse or woody. Does well in almost any kind of soil. Pkt. 7c.; oz. 15c.; ¼ lb. 40c; lb. \$1.25.

Jung's Early Market

A handsome half-long variety the shape of which is well shown in the illustration. They average 6 inches in length by 1½ inches in diameter and are ready for use quite early. The skin is very smooth and clean and of rich orange color. The flesh is of fine texture, free from all stringiness while the core is very small, having no pithy or woody fibre. Our sales of this grand Carrot are increasing every year. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.; lb. \$1.10.

JUNG'S FIRST OF ALL

Chantenay

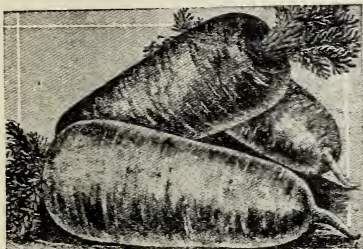

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture. For table use it is considered to be the best of all, both on account of shape and quality. It is a heavy and of a beautiful orange color, cropper and undoubtedly one of the best for both the market and private garden while its great productiveness makes it very desirable as a field sort. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.; lb. \$1.25.

CHANTENAY

Danvers Half Long

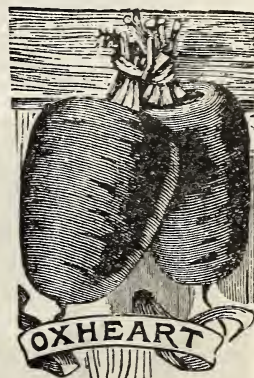

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump rooted, often attaining a weight of 5 pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially for hard or stiff soils where longer varieties will not thrive. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.; lb. \$1.10.

DANVERS HALF LONG

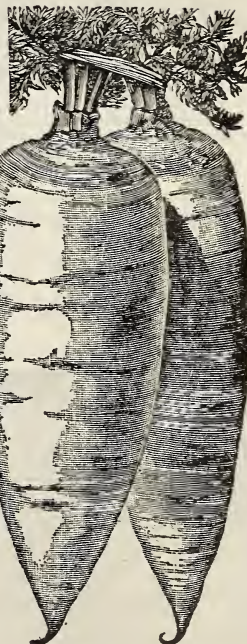

Oxheart

A handsome half-long cylindrical stump-rooted carrot of good size and of a rich orange color. It grows to a large size, is smooth and the flesh is very close in texture with little core and a small taproot. It is a good carrot for all soils and under good cultivation it has yielded 20 to 25 tons per acre. It is very easily harvested. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.; lb. \$1.00.

STOCK CARROT-Large White Belgian

This is the largest yielding stock carrot grown. Nearly half its length grows above the ground, making them very easy to harvest. Carrots are often 18 inches long and 4 to 5 inches in diameter. Yields of 15 tons per acre are nothing unusual. Excellent for either cows or horses. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 70c.

LARGE WHITE BELGIAN

EGG PLANT

Black Beauty

The earliest and best of all large fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruits, which weigh from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt. 8c.; ½ oz. 25c.; oz. 40c.

CRESS-Fine Curled

An annual, making a good salad. Leaves are finely cut and feathery like a good parsley. It is dwarf and compact in growth. Very ornamental, of quick growth, crisp and refreshing. Pkt. 5c.; oz. 10c.

Geo. W. Gillidette, Wichita, Kans.—I like to plant JUNG'S seeds for they sure bring results. I had the wonder garden of the neighborhood, everything did remarkable well.

Ernest Edmonds, Middleton, Mich.—Was very well satisfied with all the seed ordered from you.

Mrs. Winfield Paulson, Manton, Mich.—I was well satisfied with your seeds.

SELECT FLAT DUTCH

Select Flat Dutch

It makes a large, round, firm head, uniform in shape and color which seldom bursts or rots. Sureness in heading and regularity in growth has made this one of the most popular standard sort for winter keeping. The quality, either for slicing, for kraut or for general table use is superb. It is a very fine strain of late cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use giving unbounded satisfaction. Pkt. 5c.; ½ oz. 12c.; oz. 20c.; ¼ lb. 65c.

CABBAGE

Extra Early Express

POSITIVELY THE EARLIEST CABBAGE ON EARTH. There are few loose leaves and it forms a head of good size and fine quality. It can be planted close, always yields a large crop. A fine variety for shipping, as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedmen. Pkt. 8c.; ½ oz. 20c.; oz. 30c.; ¼ lb. 90c.

EXTRA EARLY EXPRESS

Red Drumhead

This is the hardest heading and best all-round SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the solid heads. It is very sweet and crisp and always tender. The heads are beautifully blancheted and of the finest flavor. Pkt. 5c.; oz. 30c.; ¼ lb. 60c.

Perfection Savoy

This is the well known Standard Cabbage. Heads are of large size, slightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt. 5c.; oz. 20c.; ¼ lb. 70c.

PERFECTION SAVOY

Frost Proof Cabbage Plants

These hardy Cabbage plants are grown in the South from select seed and can be shipped anytime from Feb. 15th to May 30th. By using these plants you can have cabbage ready for market 2 to 3 weeks sooner than by using home grown plants. These plants are very hardy and will withstand severe frosts, they can be set out as early in the spring as the soil can be worked. The plants may look somewhat wilted when they reach you but regardless of appearance they will produce the earliest crops. We can supply the following: Early Jersey Wakefield, Early Flat Dutch and Danish Ballhead at 55c per 100; 500 for \$1.75; 1000 for \$2.95, Golden Acre 75c per 100; 500 for \$2.50; 1000 for \$4.25. All prices postpaid; no order filled for less than 100 of a variety.

Be sure to state when you wish plants shipped.

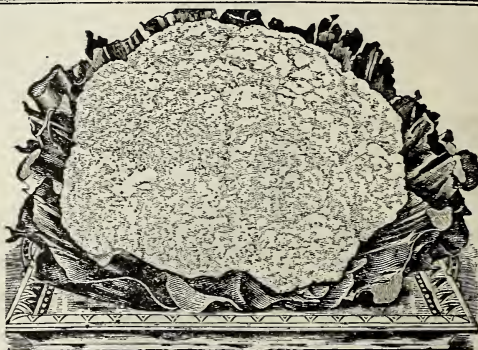

FROST PROOF CABBAGE PLANTS

COLLARDS-True Georgia

A tall loose form of Cabbage grown in the South as a substitute for cabbage and extensively used here for stock feeding. It continues in growth and is usable all winter. Hardier, easier to grow and can be grown in poorer soil than cabbage. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.

"How to Grow the Finest Vegetables and Flowers"

is the title of a booklet containing complete and simple instructions on growing all the different vegetables and flowers. These instructions were written by J. W. Jung from experience gained by actually growing vegetables and flowers. You will get much valuable information therein. A copy will be sent free, if requested with every order of 25c or more.

AUTUMN GIANT

ENDIVE Green Curled

Mostly sown in June or July for fall use; plant in rows about one foot apart, thin out to 8 inches apart and when well along blanch by tying the tops together. Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c.; oz. 15c.; 2 oz. 25c.

CAULIFLOWER

Autumn Giant

This is a large variety with fine, well proportioned heads and is suitable for late planting or fall crop. The heads are well protected by foliage and will remain fit for use a long time. Pkt. 10c.; ½ oz. 40c.; oz. 75c.

For more varieties of Cauliflower see page 25.

ENDIVE

CELERY

Golden Self Blanching

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor which is not surpassed by any other variety while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

New Celery "Emperor"

An excellent celery for fall and winter use, of true dwarf growth, having a very large heart, solid and of finest nut flavor. Being of dwarf growth. 15 to 18 inches tall, it is much easier to blanch than the taller varieties. The stalks are smooth, very thick, round and crisp, blanching to a light golden color. An especially good keeper. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.; $\frac{1}{4}$ lb. \$1.50.

EMPEROR

Easy Blanching

A new celery of special merit. Strong and stocky in growth with light green foliage, showing a yellowish hue. The stalks are large and heavy, solid, crisp, tender and of a most delicious nut-like flavor. The creamy-yellow hearts are exceptionally large and firm and of handsome appearance. It is easily and quickly blanched. Due to the solidity of the stalks it is an excellent keeper and may therefore be grown for fall and winter use. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 40c.

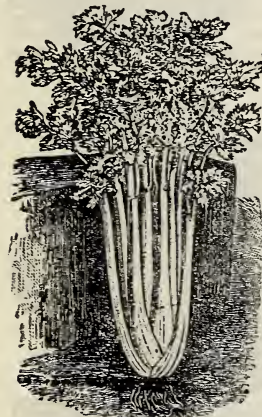

WHITE PLUME

Mrs. Fred Sutton, Wright, Minn.—From your seed last year I had the finest garden I ever raised and that is saying something as gardening is one of my hobbies. have raised gardens for 25 years.

Ferd. H. Hoelseher, Union, Mo.—We have been very much pleased with the cabbage plants and seeds received from you.

J. H. Baker, Newton, N. H.—Was more than pleased with your seeds last year so am sending a big order.

EASY BLANCHING

W. W. Gordon, Burlington, Vt.—I use your seeds which I find true to name and find that you give a square deal.

A Well Kept Garden Pays Big Dividends

Few things will pay greater returns on time and money invested than a well kept garden. The cost of the seeds is not great compared and there is no comparison between vegetables fresh from your own garden and those bought on the market. Some flowers among your vegetables will add cheer to your garden and give you flowers for your table from summer until hard frosts.

GROUND CHERRY-True Yellow

These plants are low and spreading and produce their luscious fruits in great abundance. Excellent for pies and makes delicious preserves as the fruit has a strawberry flavor. May also be dried in sugar like raisins and figs. Of easy culture and will succeed in most any garden. Pkt. 5c.; 3 pkts. 10c.

VINE PEACH

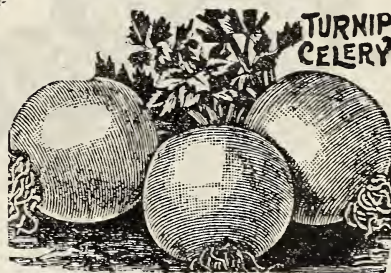

Grows on a vine the same as a melon. The fruit has the size, shape and color of an orange. The flesh is snow white and makes excellent preserves or sweet pickles, may also be sliced and fried like egg plant. Vines are quite hardy and productive. Fruit will keep a long time after picking. Pkt. 5c.; 3 pkts. 10c.

GOLDEN SELF BLANCHING

White Plume

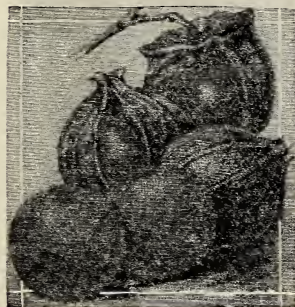

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up; but stalks should be gathered together and earthed up as in the other varieties so as to produce close, attractive bunches. As for succulence, crispness and quality the White Plume is unequalled. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.

TURNIP CELERY

Turnip Celery

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or sliced and used as a salad. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 20c.

GROUND CHERRY

EVERBEARING

Japanese Climbing

A fine cucumber for small gardens as you can grow them on a trellis or fence; also an excellent variety to grow like other varieties. Comes into bearing quickly and is very prolific, as many as 40 fruits having been grown on a single vine. Full grown fruits will measure 12 to 16 inches long. Flesh is pure white, tender and of delicate flavor. When young the fruits make very attractive pickles. Pkt. 7c.; oz. 15c.; ¼ lb. 40c.

See page 28 for more of our splendid Cucumbers

To fight Cucumber bugs use "Evergreen Insecticide"—See page 1

Mrs. Joseph McCain, Petersburg, Ind.—The seeds I got from you last year were fine, those White Cucumbers are a wonder.

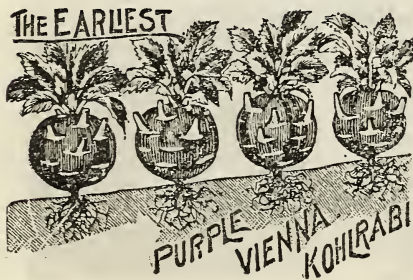

SWISS CHARD

Mrs. Jos Fencil Rice Lake, Wis.—I have used your seeds 4 years and am always satisfied.

SWISS CHARD—Lucullus

Plants grow two feet high and consist when fully developed of about a dozen, creamy white, attractive curled leaves. The leaves are carried on broad, thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spinach. Pkt. 5c.; oz. 10c.

THE EARLIEST

PURPLE VIENNA KOHLRABI

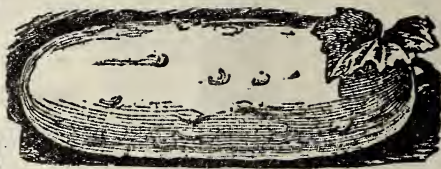

Mrs. F. S. Brown, Cleveland, Ohio.—Have bought many things from you and always get great results from them.

CUCUMBERS

Everbearing

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits of a rich, dark green color, average 4 to 5 inches in length. Owing to its productiveness it is a fine variety to plant for producing small pickles. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

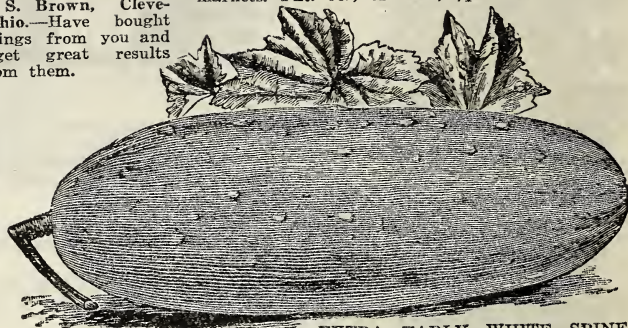

WHITE WONDER

White Wonder

A wonderfully good slicing cucumber. In color it is a beautiful pure snow white. Grows to good size, usually 8 to 10 inches long and is very uniform. In season almost the same as White Spine but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor is just right for slicing or in salads. WHITE WONDER furnishes you Quantity and Quality. A packet of seed yields Cucumbers in abundance for canning, pickling and slicing. Pkt. 5c.; oz. 15c.; ¼ lb. 50c.

Extra Early White Spine

A dark green handsome Cucumber, often attaining a length of 12 inches and straight and attractive in shape. It makes a hard, brittle pickle when small and a grand table variety when large. Excels in earliness, often ready for slicing when other crops are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early markets. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.

EXTRA EARLY WHITE SPINE

There's Pleasure and Profit

in growing vegetables for your own use or to sell. There is no comparison in quality between vegetables fresh from the garden and those that have been on the market for several days.

KOHL RABI

Early Purple Vienna

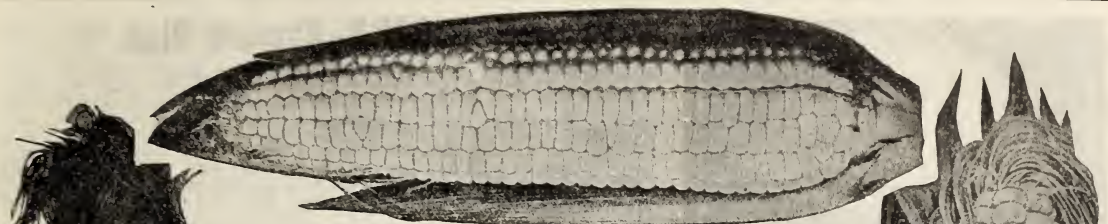

This vegetable is grown for its turnip-shaped bulb which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early and of fine shape and delicate flavor. Pkt. 5c.; oz. 20c.

White Vienna

This variety is very early with distinct small tops. The bulbs are of medium size and very light green or almost white in color and are of the finest quality if used when about two inches in diameter. Pkt. 5c.; oz. 20c.

WHITE VIENNA

JUNG'S EXTRA EARLY FORTUNE

Jung's Northern Grown Sweet Corn

Our stocks of Sweet Corn are mostly of our own growing, and is of extra fancy quality and high germination. You will find that for earliness and sweetness our northern grown seed is way ahead of western grown seed. If you want to be the first on the market with Sweet Corn of quality plant some of this seed.

Jung's Extra Early Fortune

This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn ready for use before the summer has really commenced. On account of its extreme earliness, Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 65c.

Jung's Extra Early Golden Bantam

The Best, the Largest of all Early Sweet Corns. Retaining Its Delicate Tenderness Even When a Little Old. This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. The stalks are dwarf in growth averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the richest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. The seed we offer is a special stock of our own growing and for earliness, yield and sweetness is unexcelled. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

GOLDEN BANTAM

Mrs. A. M. Stenson, Manitowoc, Wis.—Your Sweet Corn was the best we have ever eaten.

Howling Mob

The largest eared, sweetest flavored early variety in cultivation. This variety is of exceptional hardness and productivity. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

Bantam Evergreen

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities have been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 inches long, well filled with deep kernels of rich yellow corn. It comes just right in season to follow the first early sorts. The larger ears and prolonged season make it the favorite both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

White Evergreen

The Leading Late Variety of Sweet Corn. The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowell's. It retains all the most desirable features with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from 6 to 7 feet high and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

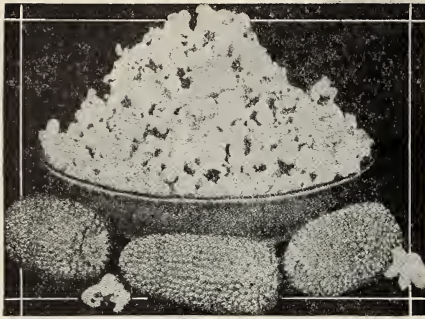

Special Offer No. 4

The 5 splendid varieties of Sweet Corn listed above will supply your table with tender and delicious sweet corn throughout the season.

1 Pkt. of each variety for 30c. $\frac{1}{2}$ Pint of each for 90c.
1 Pint of each for \$1.50. 1 Quart of each for \$2.75.

WHITE EVERGREEN

BANTAM EVERGREEN

BANTAM RICE

POP CORN-Bantam Rice

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strains of White Rice only they are longer and slimmer and pearly white in color. Its greatest merit, however lies in its superior popping qualities, there being hardly any hull or shell when popped. It is most tender and delicious as it fairly melts in your mouth. It combines both quality and quantity being a heavy yielder and superior to any other in quality. Try it once and you will not be without it again. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c.

LETTUCE

May King

May King is not in the least affected by wet or cold weather but produces large, solid heads 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter with the outer leaves folding closely forming the plant into a solid head. The outer leaves are light green slightly tinged with brown; the inner leaves are light yellow and of a fine rich buttery flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

MAY KING

DEACON

Deacon

This magnificent lettuce stands hot weather better than any of the rich butter varieties. Plants make firm heads nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream yellow and of a delicious rich buttery flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

N. Y. or WONDERFUL

New York or Wonderful

Recommended by critical market gardeners as the very best solid heading variety for Spring or summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender. Produces immense heads as solid as a Cabbage. It blanches beautifully. Crisp, Tender and Delicious. Absolutely Free from Bitterness. The Largest Heading Lettuce of All. It frequently weighs two or three pounds. The head is very solid, of pleasing light green color. As an example of its "standing" properties perfect Lettuces were cut from the same bed for upwards of seven weeks. It is pronounced the finest in cultivation for exhibition purposes and for an outdoor all season variety it stands unrivaled. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 80c.

Two Fine Melons for Small Gardens

Henderson's Bush Musk Melon

The Melon for Small Gardens. Require Little Space. The vineless character of growth or "bush habit" of this fine melon is a distinct advantage as it can be grown even in small gardens where room is limited. The plants are very sturdy and vigorous, growing 18 to 24 inches long. The fruits average 4 to 5 inches in diameter and are produced in abundance. The flesh is very deep, edible to the rind, light green in color, lusciously sweet and juicy and of most gratifying flavor. Pkt. 10c.; 3 pkts. 25c.

A. B. Gilbert, Minneapolis, Minn.—Was well pleased with the seeds from you last year, the climbing Water Melon was a most agreeable surprise to me.

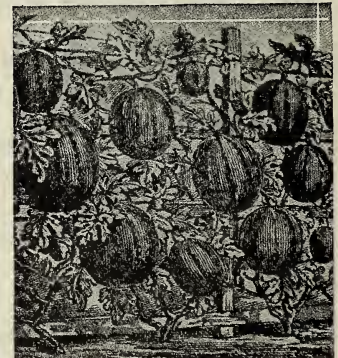

HENDERSON'S BUSH

Baby Delight or "Climbing Water Melon"

Persons having small gardens may have watermelons of their own growing this melon will climb up a trellis or fence but may also be grown like other varieties. The vines are very vigorous in growth, the heavy foliage nearly concealing the fruit. The first melons ripen very early and the healthy vines keep on bearing heavily until end of the season. The melons weigh from 4 to 6 pounds, there are no misshapen melons on the vine, all running uniform and marketable. The rich carmine red flesh is always solid and of exceptionally sweet flavor. Pkt. 10c.; 3 pkts. 20c.; oz. 30c.; $\frac{1}{4}$ lb. \$1.00.

SPECIAL OFFER—1 Pkt. of each of the above fine Melons for 15c.

BABY DELIGHT

Alice Rupno, Chili, Wis.—Your seed to me are the best that money can buy. William Foster, Claremore, Okla.—I must have JUNG'S garden seeds; they are sure to come up and grow.

A. L. Bellore, Ironwood, Mich.—Have used your seeds for 4 years and would rather have them than any others I have tried; I have the best garden around here.

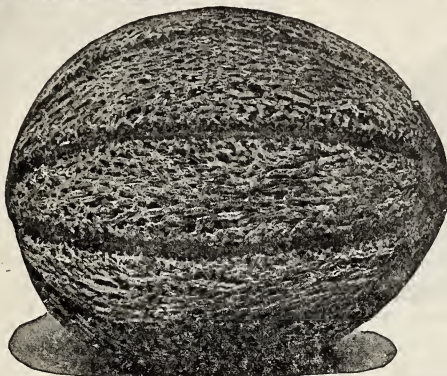

HEARTS OF GOLD

Extra Early Knight

Positively the earliest green-fleshed musk melon ever grown. Of medium size, weighing from 2½ to 4 pounds. The skin is green ribbed and netted, the flesh deep and thick and light green in color, inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all muskmelons. We recommend it particularly to all whose profit depends upon being first in market and their uniform size and shape combined with their delicious flavor, sell rapidly at high prices. solid melon and the first on the market

Pkt. 7c.; oz. 15c.; ¼ lb. 45c.

EXTRA EARLY KNIGHT

If you want a firm, plant **EARLY KNIGHT**.

Jung's Select Extra Early Osage

An excellent main crop, medium to large, oval salmon-fleshed melon. The vines are vigorous and productive. The fruits are slightly oval, dark green slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored. Of vigorous growth, the foliage is of such firm texture that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small there is no tendency towards cracking open at the blossom end. **Extra Select Seed:** Pkt. 7c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.50.

LAKE CHAMPLAIN

Jung's Big Profit

Market gardeners who grow melons for profit will find this to be the best to be had in a melon of large size and superior quality. As shown in the illustration the melons are oval shape, skin light green with coarse netting. The flesh is deep orange colored, very thick, deliciously sweet and of superb flavor. The melons are large in size, averaging about 10 lbs. and ripen medium early for so large a melon. A valuable thing about this melon is that they will keep in good condition and improve in flavor for five or six days after picking. Pkt. 8c.; oz. 25c.; ¼ lb. 60c.; lb. \$2.00.

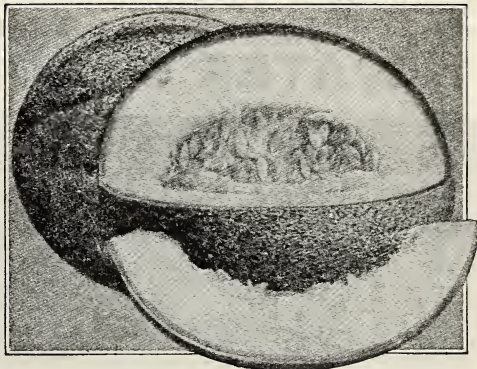

Mrs. Leo Pankratz, Springfield, Minn.—Sure am well pleased with your seed and want to thank you for the excellent water melon seed last year, it grew just fine and 1 packet seed produced 28 sound, large, crisp and juicy melons, one weighing 30 pounds.

MUSK MELONS

Hearts of Gold

This is a melon of the highest quality, the deep golden salmon flesh is so sweet it will make your mouth water. It is an ideal shipping melon as it has a tough rind, also very desirable for the home garden. The melons are of medium size averaging 5 to 6 inches in diameter yet they are very heavy because of the thick flesh and small seed cavity. The netting is heavy and dense extending practically over the entire melon. The vines are vigorous, blight resisting and very productive. Ripens early. Our seed is extra select being saved only from the very best melons. Pkt. 10c.; oz. 25c.; ¼ lb. 50c.; lb. \$1.85.

Mrs. E. G. Willott, Epping N. Dak.—Your seed last year was fine, especially Asters and Tomatoes.

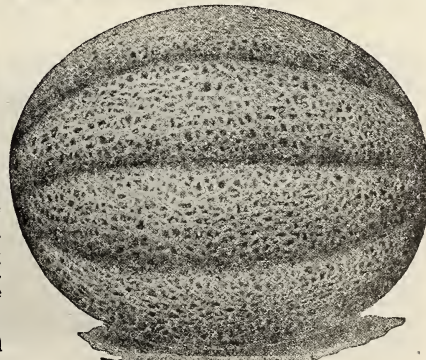

EXTRA EARLY OSAGE

Extra Early Lake Champlain

The Earliest Salmon-fleshed Melon

By far the earliest salmon-fleshed musk melon in fact one of the earliest melons grown and can be planted in our most Northern states. Combined with its earliness is a flavor and quality that is unsurpassed. Melons medium in size and well netted, flesh very deep, deliciously sweet and deep golden yellow. This melon combines earliness, productiveness and quality. Very desirable for either home gardens or nearby markets. Pkt. 10c.; oz. 25c.; ¼ lb. 75c.; lb. \$2.50.

JUNG'S BIG PROFIT

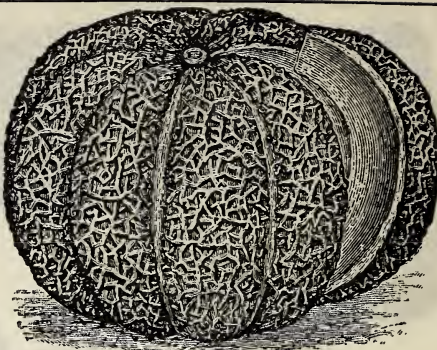

New Fordhook Early Musk Melon

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to the Emerald Gem in flavor. So firm is the rough netted skin and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. The rind, although thin, is unusually firm so that the fruits carry well to market. It is most vigorous in growth. Very early and extremely prolific. Each vine sets from five to nine melons around the stem and frequently touch one another. The melons are very even in size, weighing from $1\frac{1}{4}$ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality it is unexcelled. Be sure to give NEW FORDHOOK a trial. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

RUST PROOF ROCKY FORD

J. R. Kubuc, Marinette, Wis.—I have praised your seeds to my neighbors and they are ordering from you; the Early Sweet corn was the first on the market. we can depend on what we order will be just like the description in your catalog.

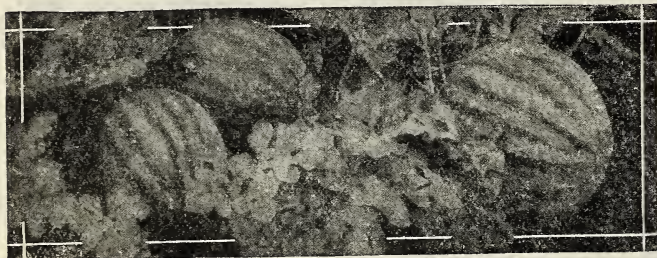

NEW EARLY FORDHOOK

Rust-Proof Rocky Ford

SELECT STOCK

One of the most popular green flesh Musk Melons. In the hands of Rocky Ford growers it has made Colorado famous in eastern markets for melons of UNEQUALED QUALITY. The vines are exceedingly healthy and vigorous, bearing an enormous quantity of fruits during the entire season. The color of the skin is a rich greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting. It is very sweet and luscious in flavor. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

WATER MELONS

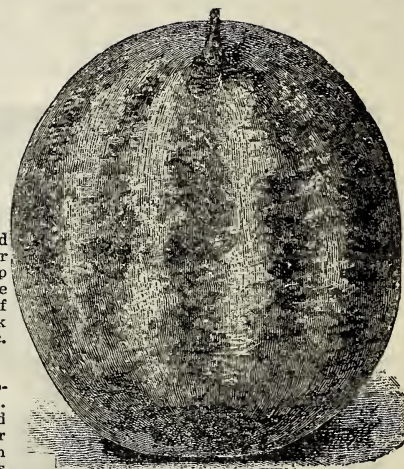

FORDHOOK EARLY

Fordhook Early This is an extra early watermelon that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright, red, crisp sweet and of splendid quality and continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong vigorous growth setting large melons in good numbers. Skin is dark green with occasional faint stripes of light green. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

Harris Earliest

The Best Shipper in the Early Class

This is the sweetest early melon and the best shipping early melon. It is slightly oblong, broadly striped light and dark green. Flesh is bright red, sweet and crisp; seed black. The vines are vigorous and productive growing melons that weigh 15 to 20 pounds. Plant this strain for home gardens, ready for use before other melons begin to ripen. Maturing in 60 to 70 days it is just the kind for northern latitudes. Harris Earliest beats all competitors for early shipping and is first on the market. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

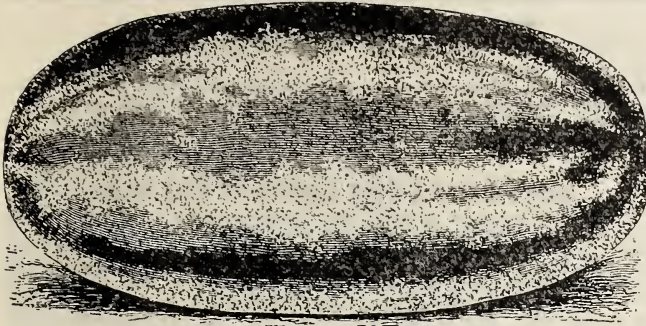

HARRIS EARLIEST

Halbert Honey

The very finest melon in cultivation for home use or nearby markets. A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear, glossy deep green. The flesh is a beautiful crimson, extending to within half an inch of the rind which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

HALBERT HONEY

JUNG'S IMPROVED PEERLESS

Special Offer No. 6

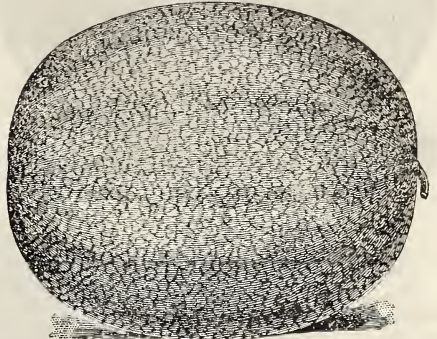

If you wish to raise a fine lot of choice melons plant the following:

**SELECT EARLY OSAGE
FORDHOOK EARLY
JUNG'S BIG PROFIT
HALBERT HONEY
KING WATERMELON**

1 Pkt of each for 25c.
1 Ounce of each for 65c.

Sweet Heart

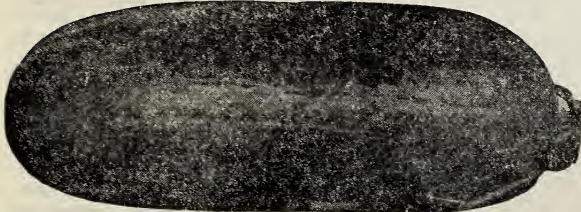

A large Melon nearly globular in shape but a little longer than thick. Fruits are large and skin a very pale green with distinct netted lines of a rich deep green, flesh crisp and melting. Its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. The handsome fruits bear shipping well. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.

SWEET HEART.

Improved Kleckley Sweets

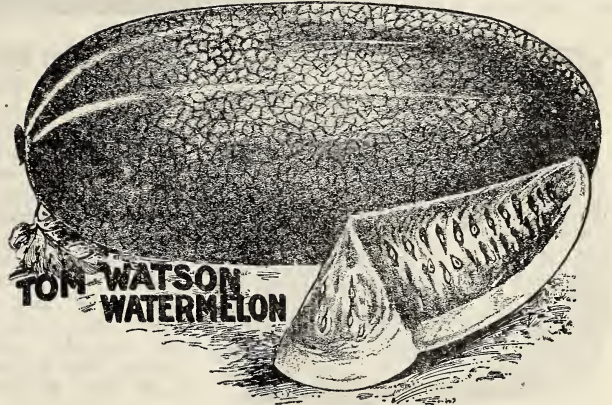

There probably is no watermelon superior in quality to a good strain of Kleckley Sweets. The bright red flesh is the ideal of watermelon quality—firm, crisp entirely free from stringiness and sweet as sugar. The melons are oblong in shape, about 20 inches long by 10 to 12 inches in diameter. The rind is dark green, thin, brittle and for this reason is not a good shipper for distances over 100 miles but for home use or close markets is in a class by itself. Our seed is an extra select strain. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. 85c.

IMPROVED KLECKLEY SWEETS

Tom Watson

Best Quality! Best Shape! Best Shipper! Best Size and Best Appearance! The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious flesh is "sweet as honey", melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measures about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough but thin and easily withstands shipping to far distant markets. The heart is large, with no sign of core. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

**TOM WATSON
WATERMELON****Citron or Preserving Melon**

A large fruited variety, pure white flesh and thin rind. This is expensive when bought, yet can be grown and preserved by any energetic housewife who will then know it to be absolutely pure and good. It is planted like watermelon. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

KING WINTER MELON

King Winter Melon

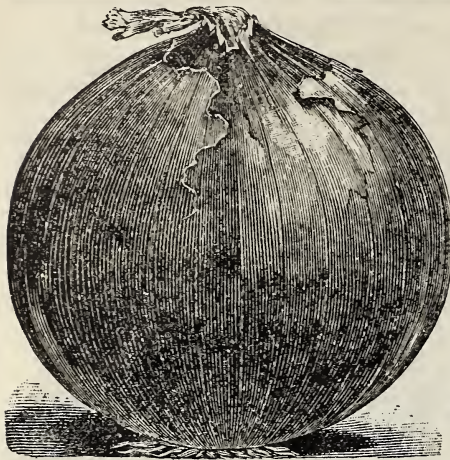

By planting this variety you can have watermelon for your Christmas dinner as they are remarkable keepers. The melons are round, have a thin hard rind and are very solid; they are from 8 to 12 inches in diameter and sell well at all seasons. Flesh is bright red and very sweet. Vines are very vigorous growers, very productive and will ripen quite early. Pkt. 10c.; oz. 25c.; $\frac{1}{4}$ lb. 50c.

PEANUTS—Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect and seed planted early in May will ripen a crop in September and for this reason can be grown in the north. Let the boys and girls try them; it will give them lots of fun and provide peanuts for the winter. Full culture instructions on every package. Pkt. 5c.; pt. 25c.; qt. 45c.

WATER MELONS—Continued

SOUTHPORT RED GLOBE

Jung's Extra Select Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm and juicy. The small necks enable the onion to ripen down evenly insuring good keeping qualities. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 70c.; lb. \$2.10.

Prizetaker

The King of All Yellow Globe Onions

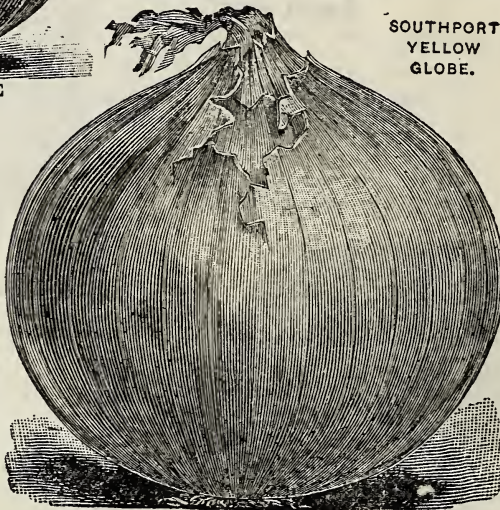

This is one of the largest Onions in cultivation. It is a large beautiful Spanish variety so often seen in the fruit stores and markets of the large cities. Bulbs are nearly globe shaped with a bright straw-colored skin growing to an immense size the first season from seed. They ripen up without stiff necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference and with rich soil and under special cultivation specimens have been raised weighing five pounds each. In markets they sell rapidly at good prices. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 70c.; lb. \$2.25.

Three True Globe Onions

The Southport Globe Onions have increased wonderfully in public favor during the past few years and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

Jung's Extra Select Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color; the flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 1000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color and typical globe shape with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 75c.; lb. \$2.25.

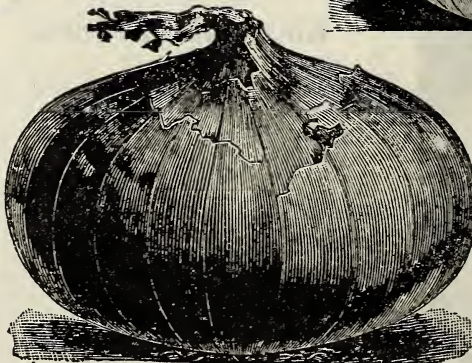

SOUTHPORT
YELLOW
GLOBE.

Select Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin like skin forming a perfect silver ball. It grows to a large size, averaging 7 to 9 inches in circumference and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper and for the family garden as well as for market it is a valuable onion. Pkt. 10c.; oz. 30c.; $\frac{1}{4}$ lb. 95c.

Australian Brown

Long Keeping, Fine Quality. This sort is distinct from all other Onions. Is uniform in size and shape, wonderfully hard, solid and heavy and will keep almost indefinitely. Ripens extremely early and never makes scallions. It is of medium size, round, with skin of a deep amber-brown; flesh white, mild and agreeable. A sure cropper. Pkt. 5c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.; lb. \$1.75.

AUSTRALIAN BROWN

Silverskin

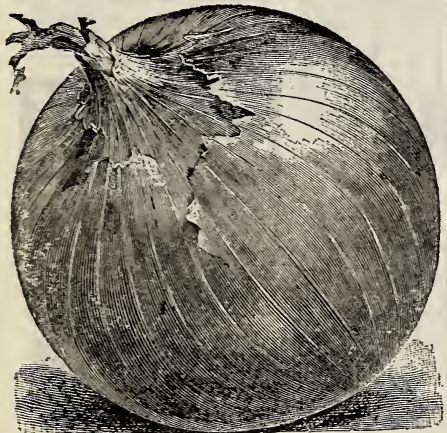

A leading white, flat onion. The bulbs attain a good size, ripen evenly and the color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual and is also extensively sown for sets. For the family garden it is one of the best. Pkt. 10c.; oz. 25c.; $\frac{1}{4}$ lb. 80c.; lb. \$3.00.

AILSA CRAIG

Select Yellow Globe Danvers

This is a standard yellow Onion and is more largely grown than any other variety. The bulbs grow to about 2½ inches in diameter, are nearly globe shape and of a light yellow color. The flesh is pure white; the bulb is extremely hard and solid and its handsome appearance has placed **YELLOW GLOBE DANVERS** among the leading varieties for the home and market garden. It forms a bulb very early in the season so that it may be used almost all summer and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt. 8c.; oz. 20c.; ¼ lb. 60c.; lb. \$2.10.

YELLOW GLOBE DANVERS

MUSTARD

Jung's Select Onion Seed

We make a specialty of **HIGH GRADE ONION SEED**. It is better to plant no Onions at all than to sow seed of poor quality. Our Onion seed is all grown from carefully selected true-to-type bulbs. Such seed may cost a little more but will be by far the cheapest when you compare the resulting crop.

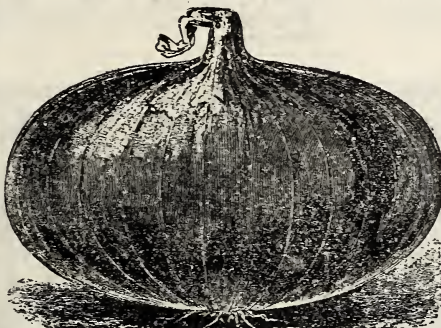

Ailsa Craig

The Giant Among Onions. Always Gets First Prize.

We offer a very choice strain of this popular Onion which on account of its large size is in great demand. Specimens have been grown weighing two pounds or more. It is globe shaped and has a very small neck, a sure indication of fine quality. The skin is a beautiful straw color; flesh pure white, tender and of mild delicate flavor; for eating raw it has no equal. It is a good keeper for such a large onion. If you want to grow big onions plant **Ailsa Craig**. Pkt. 10c.; oz. 25c.; ¼ lb. 75c.; lb. \$2.50.

Large Red Wethersfield

The most popular red variety. It is very productive, having yielded over 1000 bushels per acre. It is an early ripening sort but continues in growth throughout the season and consequently makes a very large onion; the bulbs are large, though somewhat flattened as shown in the illustration.

LARGE RED WETHERSFIELD

The outer skin is a deep, purplish red, with white flesh slightly tinged with rose. It is a fine keeper, suitable for later markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soil. You will make no mistake by giving this variety a trial. Pkt. 8c.; oz. 20c.; ¼ lb. 60c.; lb. \$2.00.

Lester Weaver, Canton, Ill.—Get best results from using your seeds especially with Musk Melons and Onions, also Golden Bantam corn is the best I can find on any market.

E. K. Hadwin, Ft. Benton, Mont. — I thought you might be pleased to know that I took first prize on onions raised from your Japanese Sets at Benton Fair and 2nd prize at Mont. State Fair.

C. S. Rexroad, Brandonville, W. Va. — The Japanese onion sets from you are grand and raised the finest onions.

Mrs Emery Bartels Eastman, Wis. — I have used your Japanese onion sets 2 years and like them so well we are planting them altogether instead of seed. They are so much milder flavor, grow larger, keep well and are easy to raise.

JAPANESE ONION SETS

Japanese Onion Sets

The finest thing ever offered in Onion sets and will no doubt displace all other sets. The common sets when grown during the summer often run to seed, these sets instead of running to seed will mature a large handsome bulb of yellow or golden color, very solid and excellent keeper. Those who have used the sets before are now planting them entirely. We guarantee them to give satisfaction or will refund your money. Pkt. 25c.; qt. 40c.; 4 qts. \$1.35, pospaid. Not prepaid: Pk: \$1.35; bu. \$4.25.

MUSTARD-Gigantic Thick Leaved

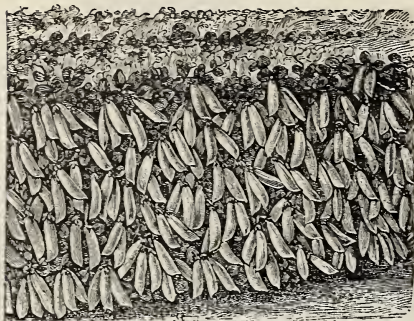

The leaves are large, light green with a tint of yellow, much crimped and frilled at edges. The plant is upright, or slightly spreading in growth. This variety is highly esteemed in the South for the market as well as the home garden on account of its vigorous growth, hardness and good quality. Pkt. 5c.; oz. 10c.

OKRA-White Velvet

The long slender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it can be boiled and served like other vegetables. The pods should be gathered while young as they are then very tender. Pkt. 5c.; oz. 10c.

OKRA

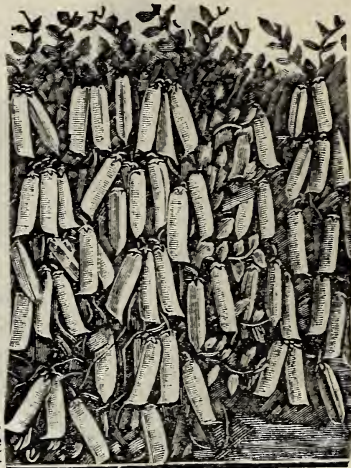

BLUE BANTAM

GARDEN PEAS

Blue Bantam

A splendid new pea of sturdy, dwarf growth, one of the best of the large podded early dwarf peas. The vines grow 14 to 16 inches tall, are dark green in color and wonderfully productive, bearing a profusion of handsome dark green pods which measure 4 to 4½ in. long and contain from 8 to 10 very large dark green peas of superb quality. They mature a little earlier than Gradus with pods fully as large; they require no brush or support. You will plant this variety every year after once trying them out. Pkt. 10c.; ½ pt. 25c.; pt. 40c.; qt. 70c.

EVERBEARING

Calvin Warner, Trucksville, Pa.—JUNG'S Dwarf Telephone Peas as raised from your seed were most wonderful crop and the admiration of the whole neighborhood.

Mrs. A. Glenn Weaver North Spencer, N. Y.—Have used your seeds for 4 years, and no other; the Blue Bantam Peas are the best I ever ate.

Mrs. Paul Replogle, Woodbury, Pa.—We were so well pleased with your seeds and wish to compliment you on your seed peas, they surely were wonderful.

Mrs. Nina Eldridge, Portville, N. Y.—Have tried your seeds and find them the very best I have used.

BRITISH WONDER

British Wonder

The Sweetest Pea in Cultivation. Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy except the foliage is a darker green and the pods are not as sharply pointed. It is however, much more reliable and it is a SURE CROPPER. The vines are very stocky, 18 to 24 inches high and are well supplied with dark green foliage. Pods are produced in the greatest profusion, measuring about 4 inches in length and contain from 8 to 10 dark green peas each, which are of a most luscious flavor. Pkt. 7c.; ½ pt. 25c.; pt. 35c.; qt. 65c., postpaid.

Jung's Dwarf Telephone

Another new pea of superlative merit. The well-known Telephone Pea has a large pod but also a long vine. This Pea has all the excellent qualities of the old Telephone but is dwarf in habit, bears stronger pods, more of them and we believe are far richer in quality. The height under ordinary culture is from 18 to 20 inches, requiring no brush. The pods are giant, often containing 10 large peas, thick, meaty and rich and of good lasting quality for market purposes. The pea is of the largest size imaginable and of delicious flavor; when fit for the table it is deep green and presents a rich appetizing appearance. We know that this magnificent Pea will be hailed with delight by all market gardeners and city planters to whom we heartily recommend same. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Edible Podded Pea Mammoth Melting Sugar

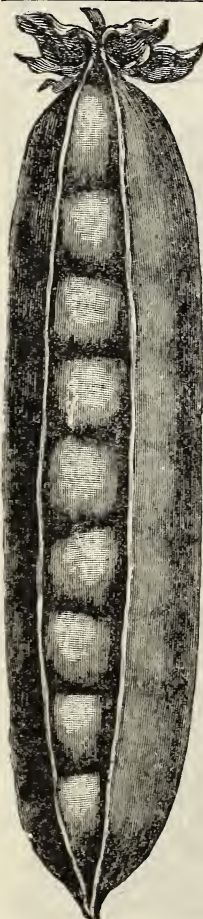

This variety is far superior to all others of the edible class of garden peas, not only in size of pods but also in delicious quality. The large pods are sweet, brittle and tender and have none of the tough lining found in so many of the ordinary kinds. The pods are used the same as snap or string beans and will also make excellent pickles. The vines grow about four feet tall and are very productive. Full grown pods measure five inches long and are so tender and brittle that they snap like glass; they have no strings. The sweetness and tenderness of this edible-podded pea is unsurpassed. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Everbearing

A fine second-early or main crop Pea which combines quality and yield and will continue bearing a long time if the pods are kept picked. It has a remarkable habit, sometimes forming as many as six stalks which accounts for its great yields. The pods are of good size and contain from eight to ten large peas which are of remarkable fine quality. Pkt. 7c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

INOCULATE
THIS SEED WITH
NOD-O-GEN

See page 1

DWARF TELEPHONE

MAM. MELTING SUGAR

PEPPER

Harris Earliest

The earliest of all, being earlier than Neapolitan. Plants are very uniform in growth dwarf and compact, rarely over 18 inches tall. It is a very heavy bearer and as the plants can be set close together a very large crop can be grown on a small space. The fruits are of good size, $3\frac{1}{2}$ in. long by $2\frac{1}{2}$ in. in diameter. Flesh is thick and very mild and sweet. If you want Peppers early and lots of them plant Harris Earliest. Pkt. 10c.; $\frac{1}{2}$ oz. 30c.; oz. 50c.

Early Giant

By far the largest early Pepper grown. The fruits will average as large as Ruby Giant but are ready to pick much sooner than that variety, the shape is very much like Chinese Giant. Plants grow rather dwarf and compact and are much more productive than most of the large fruited peppers, many plants bearing 12 of the immense peppers at one time. It ripens right after Harris Earliest, which is the earliest pepper grown, fruits average 5 inches long by $3\frac{1}{2}$ inches in diameter, of a deep glossy green color turning to bright crimson when matured. The flesh is thick, sweet and of pleasant flavor. Probably one of the most profitable varieties to grow for market. Pkt. 12c.; $\frac{1}{2}$ oz. 35c.; oz. 60c.

EARLY GIANT

HARRIS EARLIEST

GOLDEN QUEEN

World Beater

The very best extra large pepper being a cross of Chinese Giant and Ruby King, having the longer form and earliness of the latter with the size of the former. Fruits are of immense size, 4 to 5 inches long by $3\frac{1}{2}$ to 4 inches in diameter; flesh is very thick and so mild and sweet that it may be eaten like an apple. When ripe they are bright red in color and present such a fine appearance that they sell readily on all markets. Exceedingly productive and a good shipper. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

WORLD BEATER

Golden Queen

Golden Queen is the Best of all Yellow Peppers. It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches are not uncommon. A single plant sometimes carries Twenty Large Peppers at the same time. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 50c.

Long Red Cayenne

This is the pepper so popular for seasoning and pickling. The peppers are long and slim, bright red when ripe and have a hot pungent flavor. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.

"The Best is Cheapest"

Jung's seeds cost more but they are also worth much more. Our seeds are grown either by ourselves or by growers recognized as the best and will produce a crop that will be worth much more than that grown from common or cheap seeds. It is poor economy to use seeds which have only their cheapness to commend them. It always pays big to sow the best seeds.

PRIVATE STOCK

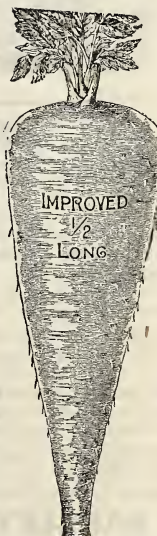

PARSNIPS

Jung's Private Stock

This is a highly improved type of the Half Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulders, well rounded, gradually tapering to the base, so that they can be easily dug and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness and especially fine flavored, cooking tender, sweet and rich. Pkt. 8c.; oz. 15c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.10.

Improved Half Long

This variety is an improvement on the old Hollow Crown forming roots thicker and shorter than that variety and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.; lb. 90c.

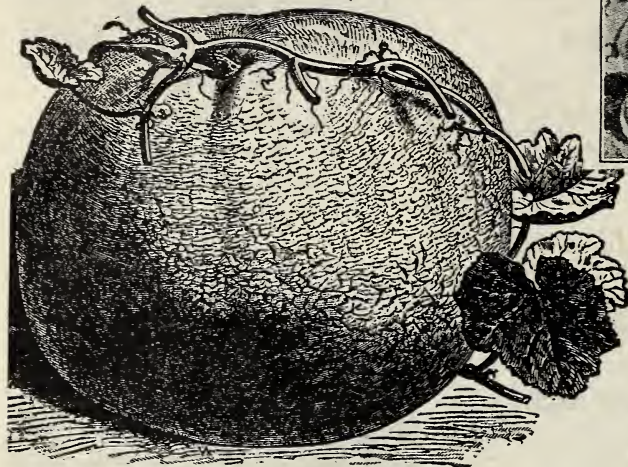

E. Francisco, Oelwein, Iowa.—I must thank you for prompt delivery and tell you again that your seeds are the best to be had; all your seeds grew well and I tell people I get what I buy at JUNG'S.

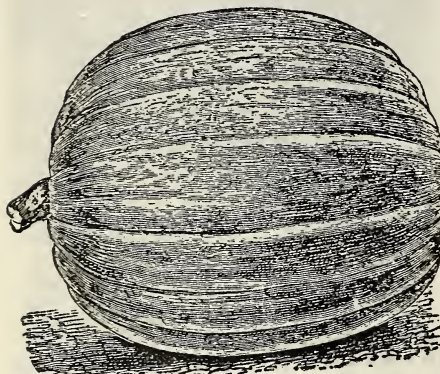

PUMPKINS

Luxury Pie

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary and deep golden in color. An excellent keeper for winter use. If you want some delicious pies for Thanksgiving day plant **LUXURY PIE**. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

TRUE MAMMOTH

BIG TOM

HERBS

ANISE. Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

SAGE. Sow in rich ground and thin out the plants to 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

DILL. This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

SWEET MAJORAM. The leaves and end shoots are esteemed for seasoning in summer and also dried for winter use. Pkt. 5c.

SUMMER SAVORY. The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5c.

THYME. The leaves are used for seasoning. Pkt. 5c.

PARSLEY-Turnip-Rooted

This variety, the roots of which resemble a small parsnip, is used in flavoring soups, stews, etc. For winter use store the roots same as turnips; as easy to grow as carrots. Pkt. 5c.; oz. 10c.

True Mammoth

The Largest Pumpkin in Cultivation

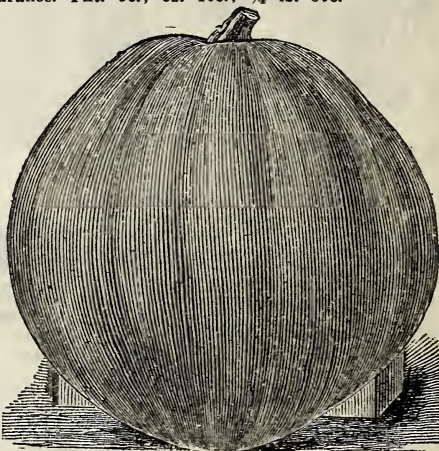

This is a true Mammoth Pumpkin. Fruits grow to enormous size; specimens have been grown weighing 100 pounds and over. The skin is a light yellow russet color; flesh very thick, bright yellow, fine grained sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

Quaker Pie

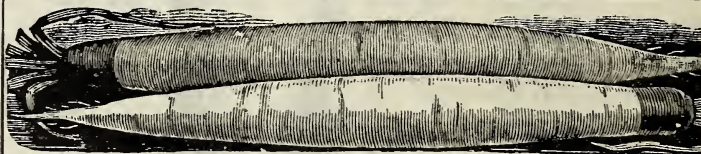

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained; of a beautiful golden yellow color; in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich cream buff giving it a handsome appearance. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

Big Tom

Also known as Connecticut Field. Vines are of strong, vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter, round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed with thick, rich orange yellow flesh. It is the hardiest of all pumpkins and is good for pies. This variety is grown extensively for stock feeding and is generally planted with the corn. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

QUAKER PIE

SALSIFY

SALSIFY-Mammoth Sandwich Island

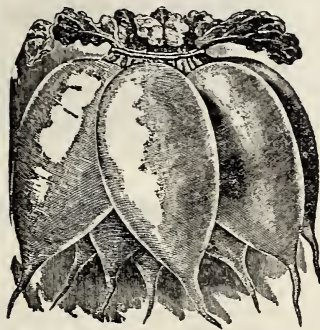

One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed whether boiled with butter or other suitable sauces, or sliced and fried or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in the spring produces large fine roots that may remain in the ground or may be dug and stored in sand or earth in November thus keeping plump and sweet to be used as desired during the winter. Mild and delicious in flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

RADISHES

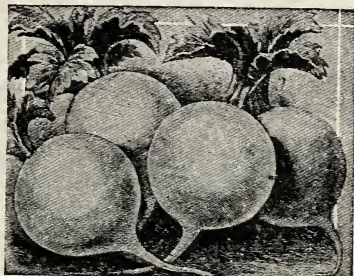

We take much pride in our select stocks of Radish seed. It is grown from carefully selected roots and will produce Radishes of mild flavor and with less leaves than the seed usually offered.

Extra Early White Delicious

A splendid new olive-shaped radish, pure white in color. Very early as it has produced radishes fit for pulling in 18 days after sowing the seed. It has a small top, is solid and crisp, of fine flavor, in fact, a first-class radish in every respect. Size and shape are well shown in illustration. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

EX. EARLY WHITE DELICIOUS

EARLY HAILSTONE

FRENCH BREAKFAST

Select Early White Icicle

Long, slender, crisp, tender, mild and of purest white. Unexcelled as a money maker. An entirely distinct variety from Europe and derives its name from the almost transparent whiteness of the roots. It produces slender, pure white Radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about 4 inches long and are ready for use in about 25 days after sowing. It is a very desirable variety for the home garden and market gardeners will find it a money maker. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

David P. Clemmerson, Bangor, Wis.—Have bought seed from you the last 14 years and found everything just as you describe,

PERFECTION EXTRA EARLY

Perfection Extra Early

The most attractive white-tipped Radish. This variety is bound to become the most popular of the white-tipped varieties as it combines handsome appearance quality and extreme earliness. The white tips extend nearly half way up the roots and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

Special Offer No. 8

To have a continuous supply of the finest Radishes plant the following:

Early Hailstone Jung's Rapid Red
Perfection Ex. Early White Icicle

Crimson Giant Globe

1 Pkt. of each for 25c.

1 Oz. of each for 55c.

French Breakfast

An early medium sized radish, olive shaped, very crisp and tender; of a beautiful bright, scarlet color tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and the beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 75c.

SELECT WHITE ICICLE

JUNG'S RAPID RED

Jung's Rapid Red

This we find to be the quickest maturing of all, Radishes having been grown in the short period of 18 days from the sowing of the seed, fit for the table. However, its earliness is not its only good feature as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices then plant "JUNG'S RAPID RED" Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

Early Hailstone

The earliest and quickest growing WHITE RADISH in cultivation. It is ready for use from 15 to 18 days after sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.25.

Earliest Scarlet Globe

A fine bright red Radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 20 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in Radish. The shape is well shown in the illustration. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 80c.

EARLIEST SCARLET GLOBE

RADISHES—Continued

Crimson Giant Globe

This new variety is suitable for both forcing and growing outdoors. It is a fine shaped bright red Radish, growing quickly to large size (see illustration.) The Radish is a deep globe in shape; it measures 2 inches in depth and 1½ inches in diameter. Skin is thin and tender and of a deep crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. It is sure to become a leading variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

Wood's Early Frame

This is one of the earliest long varieties. It is of a beautiful scarlet color shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long Radishes. Very much used for growing under glass. You will be delighted with this variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

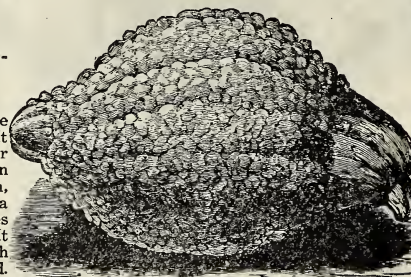

Chinese Rose Winter Radish

This is a large and fine shaped Radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin, flesh pure white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally lb. 90c. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

Mrs. Henry Good, Manor, Sask., Can.—I would like to say that in all the years of gardening I have never succeeded in growing such radish as I had last year from your seed.

SQUASH**Mammoth Summer Crookneck**

This magnificent strain is equally as early as the common small-fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a creamy yellow color, is dry and of the most agreeable flavor. A most profitable variety to grow for market as it grows rapidly and is of superior quality. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

GOLDEN HUBBARD SQUASH.

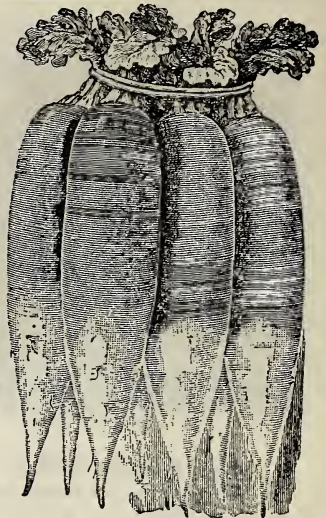

The Great Banana Squash

RIPENS EARLY, ENORMOUSLY PRODUCTIVE, FINEST QUALITY GOOD KEEPER

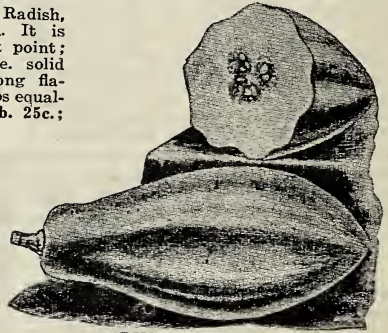

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard. It is even better quality, more prolific and earlier in ripening. The color is grayish green, shell soft so that it can be cut with a knife. It grows from 18 to 30 inches long and 6 to 8 inches in diameter. It is very prolific and a shy seeder which accounts for the high price of seed. Flesh is of deep orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth and of the most delicious flavor. Pkt. 8c.; oz. 20c.; ¼ lb. 50c.

T. R. Eppe, St. Ansgar, Iowa.—We enclose order for more of your wonderful garden seeds; we have bought from you for the 3rd year and had fine gardens.

For more fine Squash see page 33.

WOOD'S EARLY FRAME

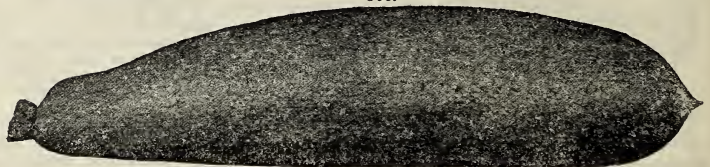

BUSH FORDHOOK

Bush Fordhook

The most desirable Squash for either summer or winter use. It is of a true bush type and can be grown much closer than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear-shaped, 7 to 9 inches long, slightly ridged, a smooth, thin yellow skin. Flesh is very thick, and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proved to be one of the hardiest and most dependable squash for all localities. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.35.

Golden Hubbard

An elegant Winter Squash. Flesh a deep golden yellow, much richer in color than Hubbard; fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness, combined with its sweet rich flavor, attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 8c.; oz. 12c.; ¼ lb. 30c.

BANANA SQUASH

BEST OF ALL LETTUCE

Jung's "Best of All" Lettuce

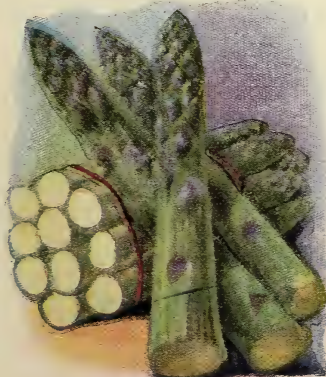

A fitting companion to our famous "All Cream" Lettuce which it resembles very much except that it does not have the pink or brown edges on the leaves. It can be relied upon to give you lettuce that you will relish whether sown early in the spring or during the summer as it is unsurpassed as a heat resister. The leaves are of a handsome green, beautifully crumpled and are crisp, tender and sweet at all times. Pkt. 7c.; oz. 15c.; ¼ lb. 45c.

Golden Giant or Bagley Carrot

This fine carrot combines large size, handsome appearance and superior quality. Planted in rich mellow soil they will grow to weigh 3 to 4 lbs. and although of such large size they are of the finest quality, tender and free from core and stringiness. They are of a deep orange color, show no green around the top and always command top prices. A very profitable market variety. Pkt. 8c.; oz. 15c.; ¼ lb. 50c.; lb. \$1.75.

GOLDEN GIANT CARROT

WASHINGTON ASPARAGUS

Jung's Earliest Tree Tomato

Jung's Earliest Tree Tomato

This splendid tomato is well suited for small gardens as the plants grow upright and do not require much room. Plants grow stiffly erect until they become overloaded with fruit. The tomatoes are of large size, always smooth and solid; very meaty and have no hard core. This seed is of our own growing and is sure to be early. Pkt. 8c.; ½ oz. 25c.; oz. 40c.

Masterpiece Wax Beans

Early Masterpiece Wax Bush Bean

The earliest and heaviest yielding wax bean. Although we are offering a very choice list of beans we believe that Masterpiece beats them all. Bushes grow very vigorous and are free from rust and disease and bear an immense load of the long handsome pods. Pods are bright yellow, 6 to 8 in. long, thick, meaty and absolutely stringless. A very profitable variety for market gardeners. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 70c.

Bountiful Green Pod Bush Bean

A fine green-podded bush bean that is both extra early and an enormous yielder. Pods 6 to 8 in. long, flat, thick, meaty and free from strings and toughness. Ready to use in 6 weeks after planting. One of the best green pod varieties. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

Golden Plume Celery

This is a fine new celery that we can recommend without reserve. It is fully a week earlier than Golden Self Blanching, is similar in color and flavor but is superior to it as this variety blanches more easily, is more blight-resistant. It has been especially selected for large, solid hearts. Specimen stalks have been grown 2 ft. tall and 4¼ in. thick. Has been blanched in the remarkably short period of 5 days. Select Seed: Pkt. 12c.; ½ oz. 60c.; oz. \$1.00; ¼ lb. \$3.25.

GOLDEN PLUME

BOUNTIFUL BUSH BEANS

The Great Washington ASPARAGUS

This new Asparagus has taken the country by storm as it is rust-proof and produces bigger stalks and larger crops than any other variety. This variety is the result of many years work by the U. S. Dept. of Agriculture and fortunate indeed is the gardener who will get started with it as it will surely displace all other varieties. The stalks grow to a very large size, yet they remain so crisp and tender that they may be eaten raw. We have some very choice strong roots of our own growing but advise early orders. 25 for 65c.; 50 for \$1.25; 100 for \$2.00; 1000 for \$12.50. Price of seed: Pkt. 8c.; oz. 25c.; ¼ lb. 50c.

CABBAGE

The cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain enough seed to produce 500 plants.

Select Early Jersey Wakefield

The standard pointed-headed Cabbage throughout the United States. The heads are uniformly hard and solid and are pyramidal in form, generally pointed at the end with few outside leaves. The outside leaves are usually thick and heavy and it is thereby enabled to withstand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 65c.

EARLY JERSEY WAKEFIELD

ALLHEAD EARLY

SUREHEAD

DANISH BALLHEAD

Allhead Early

This is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and tenderness are marked features. It is suitable for growth in spring and early summer or for use as a winter sort. The heads grow so compact that fully one thousand more heads than is usual with large cabbage can be grown to the acre. Seeds sown in July and plants set in August will produce good heads for wintering. It is a money maker for gardeners. Pkt. 5c.; ½ oz. 15c.; oz. 25c. ¼ lb. 65c.

Surehead

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear in using words of praise too high for its merits. It forms large, hard, solid flattened heads, uniform in shape and color and of handsome appearance. It has a very short stem and is a compact grower. It is as natural for this cabbage to form a head as to form leaves and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain. Pkt. 5c.; ½ oz. 12c.; oz. 20c.; ¼ lb. 60c.

Danish Ballhead

A Grand Hard Headed Cabbage. This type of winter cabbage has become very popular of late years on account of its UNEQUALLED KEEPING QUALITIES as well as for the great SOLIDITY and WEIGHT of the heads. It is strong and vigorous in growth and produces large, round, compact heads, exceedingly hard solid weighing when trimmed fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauer kraut etc., it is unequalled being crisp, tender and sweet. It seems to grow well withstanding hot, dry weather and does not rot from the effects of wet seasons, neither do the heads burst. Pkt. 8c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 75c.

GOLDEN ACRE

Extra Early Golden Acre

A wonderfully fine, extra early, round headed cabbage being ready for cutting ahead of Jersey Wakefield. The heads are of good size, very round, solid and every one just alike. Plants grow very compact and may be set close together. Plant this cabbage for market and it will prove to be your "golden acre" as your crop will be ready to cut while prices are high. Pkt. 12c.; ½ oz. 30c.; oz. 50c.; ¼ lb. \$1.50.

Special Offer No. 2

For a good supply of fine cabbage plant the following varieties:

Early Jersey Wakefield
Allhead Early
Surehead
Danish Ballhead
1 Pkt. of each for 25c.
½ Oz. of each for 60c.

Mrs. Peter Danner, Astoria, Ill.—Your garden seeds are just splendid, the carrots and parsnips were the best we ever had, the Golden Acre Cabbage cannot be beat, not Jung's All Cream Lettuce. All my garden was highly praised by people passing by, and will say you treat us fine.

For more fine Cabbage and Cabbage Plants see page 8.

To kill cabbage worms use "Evergreen Insecticide"—see page 1.

Disease Resistant Ballhead

This variety has proved to be very resistant to the cabbage disease known as "yellows" which destroys the crop in many sections. A splendid variety for shipping as the heads are solid as a rock, also an unusually good keeper. If you grow cabbage for shipping or want something that will keep through the winter, plant this variety. Pkt. 12c.; ½ oz. 25c.; 1 oz. 45c.; ¼ lb. \$1.45.

DISEASE RESISTANT BALLHEAD

BORECOLE or KALE

BORECOLE or KALE

Dwarf Curled

Useful for furnishing greens or boiling, during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c.; oz. 10c.

BRUSSELS SPROUTS

BRUSSELS SPROUTS

Long Island Improved

The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5c.; oz. 20c.

CAULIFLOWER

Pedigree Early Snowball

For earliness and reliability to produce a head of good size and rich, white curly appearance it is unexcelled. It forms snow white heads, six to ten inches in diameter, of good quality. The heads are so solid compact and deep, they will outweigh those of any other strain. There is a great difference in the strain of this variety offered but our stock is the very best. Pkt. 15c.; ¼ oz. 75c.; ½ oz. \$1.40. oz. \$2.25.

PEDIGREE SNOWBALL

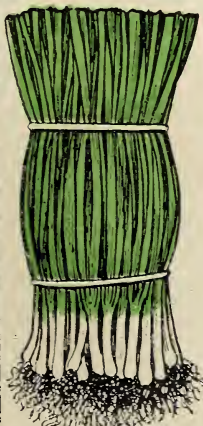

Dry Weather or Danish Giant

Especially adapted to resist drought. Reaches perfection when ordinary sorts fail. Preeminently the best early variety for market gardeners in sections which are not especially adapted for cauliflower. Plants are of vigorous growth, producing heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower but is particularly adapted to dry situations and to resisting the effect of drought. It also does well in wet or moist situations, producing heads equal to the best. Pkt. 12c.; ¼ oz. 75c.; ½ oz. \$1.25; oz. \$2.00.

DRY WEATHER

Mrs. J. C. Amarine, Boulder, Mont.—Have used your seeds now for 15 years; everything grows fine and I have sent you lots of customers.

ONION PLANTS

MOSS CURLED PARSLEY

PARSLEY Moss Curled

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt. 5c.; oz. 10c.

L. A. DeNarcy, Lincoln Me.—I had the best looking garden in the whole neighborhood last year due entirely to planting your seeds.

CELERY CABBAGE

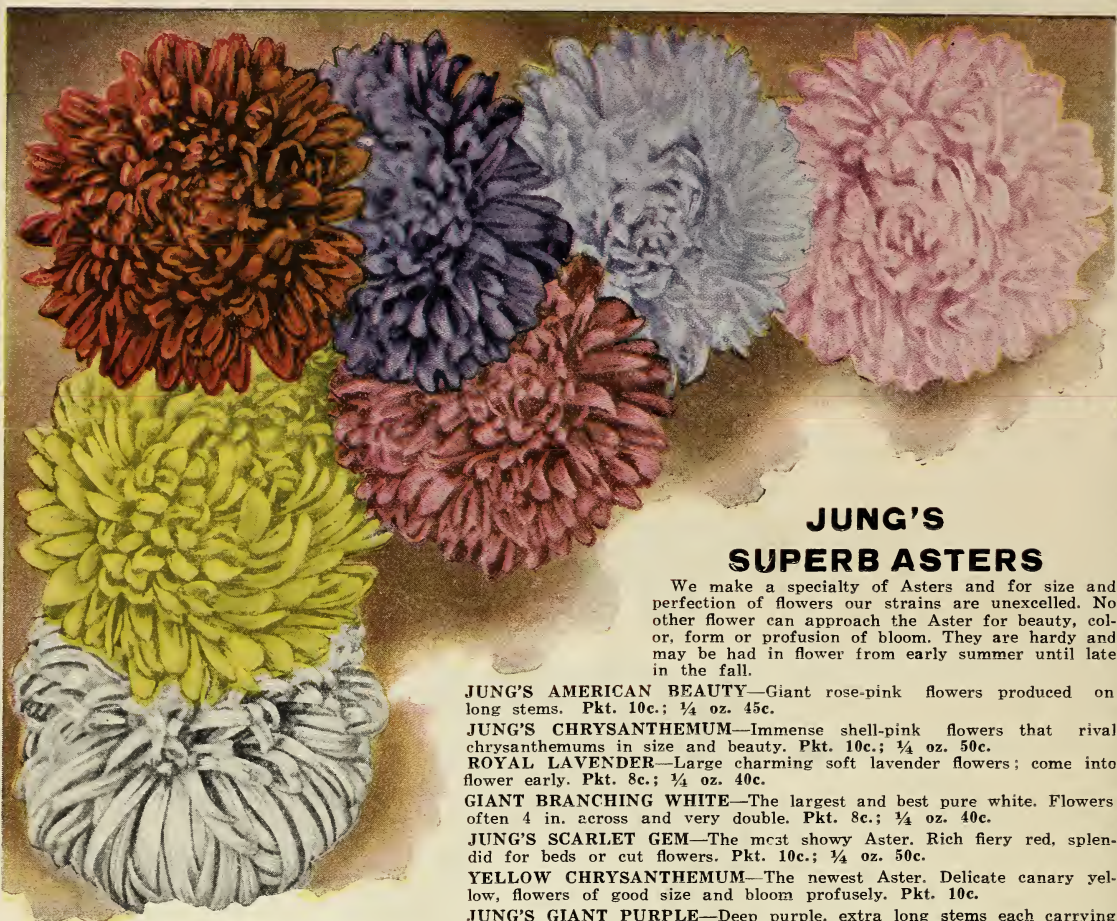

Until recently this new vegetable was unknown but as its good quality became known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly and as the weather gets colder it heads up nicely, producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads or cooked as cabbage or greens. Pkt. 8c.; ½ oz. 12c.; oz. 20c.

CELERY CABBAGE

BERMUDA ONION PLANTS

Most of our customers have eaten the large sweet Bermuda Onions that are shipped North from Texas during the early spring months and usually sold at high prices. You can raise these in your own garden as easily as you grow radishes by using Bermuda Onion plants. You can use them as green onions or allow them to grow to their full size; you can have nice large onions by July. Our plants are field grown and very hardy, they are easily set out and sure to produce onions. Try them once and you will want some every year. Put up in bundles of 200 and 500 plants; no less than 200 can be sold. Prices postpaid: 200 for 50c.; 500 for \$1.00; 1000 for \$1.75. Not prepaid: Crate of 6000 for \$5.75.

Jung's Giant Fancy Mixed Asters

This is the highest grade of mixed Asters it is possible to produce. It contains all of the colors shown above and is made up of only giant flowered varieties. Most seedsmen do not put out such a mixture as the seed costs too much but as we grow our own seed, it is possible for us to do this. Many of these flowers will be 5 in. across and are borne on stems 2 to 3 ft. long. Pkt. 10c.; 3 pkts. 20c.; $\frac{1}{4}$ oz. 45c.

JUNG'S SUPERB ASTERS

We make a specialty of Asters and for size and perfection of flowers our strains are unexcelled. No other flower can approach the Aster for beauty, color, form or profusion of bloom. They are hardy and may be had in flower from early summer until late in the fall.

JUNG'S AMERICAN BEAUTY—Giant rose-pink flowers produced on long stems. Pkt. 10c.; $\frac{1}{4}$ oz. 45c.

JUNG'S CHRYSANTHEMUM—Immense shell-pink flowers that rival chrysanthemums in size and beauty. Pkt. 10c.; $\frac{1}{4}$ oz. 50c.

ROYAL LAVENDER—Large charming soft lavender flowers; come into flower early. Pkt. 8c.; $\frac{1}{4}$ oz. 40c.

GIANT BRANCHING WHITE—The largest and best pure white. Flowers often 4 in. across and very double. Pkt. 8c.; $\frac{1}{4}$ oz. 40c.

JUNG'S SCARLET GEM—The most showy Aster. Rich fiery red, splendid for beds or cut flowers. Pkt. 10c.; $\frac{1}{4}$ oz. 50c.

YELLOW CHRYSANTHEMUM—The newest Aster. Delicate canary yellow, flowers of good size and bloom profusely. Pkt. 10c.

JUNG'S GIANT PURPLE—Deep purple, extra long stems each carrying one of the giant flowers. The best purple to be had. Pkt. 8c.; $\frac{1}{4}$ oz. 40c.

JUNG'S EARLY INNOCENCE—The earliest Aster, blossoms in July and produce a large number of fine flowers to each plant. All colors mixed. Pkt. 8c.; $\frac{1}{4}$ oz. 35c.

SPECIAL ASTER OFFER: One Pkt. of each of the above Eight Superb Asters for 50c.

From no other seedsmen can such a grand assortment of ASTERS be had for such a small price. These packets are regular full sized and contain only the choicest seed. With each collection we send FREE INSTRUCTIONS on how to grow the large fancy flowers.

7 Pkts. Giant Spencer Sweet Pea Collection 25 Cts.

These new Sweet Peas are of enormous size, often 2 in. across and are borne on stems 10 to 15 in. long. They are very much superior to the ordinary kinds and in order that you may have them in profusion we will send you the following 7 pkts. for only 25c.:

ASTA OHN—Charming Lavender	MRS. ROUTZAHN—Salmon Pink
FIERY CROSS—Fiery Red	ROYAL PURPLE—Deep Purple
KING WHITE—Pure White	WARRIOR—Rich Maroon
ELFRIDA PEARSON—Deep Rich Pink	

Giant Spencer Mixed Sweet Peas

The finest mixture of Sweet Peas to be had, it contains all the colors shown above besides many others and is made up of only the largest flowering Spencer varieties, all dull and undesirable colors have been omitted. If you want a fine display of Giant Sweet Peas sow this mixture. Pkt. 7c.; oz. 25c.; $\frac{1}{4}$ lb. 50c.; lb. \$1.50.

"Nod-O-Gen" will give you more and larger Sweet Peas if applied to the seed. Per bottle 25c.

JUNG'S SUPER GIANT GLADIOLI

Select Gorgeous Gladioli

There is no bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Culture instructions will be sent with each order.

AMERICAN BEAUTY—The same glowing shade as the American Beauty Rose. Large flowers nearly all open at the same time. Each 15c.; doz. \$1.25; 100 for \$9.75.

CRIMSON GLOW—A wonderful flower. Long graceful spikes showing 6 to 8 giant blooms open at the same time. Its color is an intense crimson scarlet, very brilliant. Each 15c.; doz. \$1.50; 100 for \$8.50.

EVELYN KIRTLAND—A glorious "glad", flowers are a beautiful pink overlaid with orange. Brilliant scarlet blotches on lower petals. Flowers very large with ruffled edges. Each 12c.; doz. \$1.00; 100 for \$7.50.

HENRY FORD—Large clear deep purple flowers shading into deeper tones near the center. The best purple. Each 25c.; doz. \$2.50; 100 for \$16.00.

GOLD—This wonderful yellow Glad is by far the best pure golden yellow. Very large flowers and 18 to 20 on each stalk. Each 20c.; doz. \$2.00; 100 for \$15.00.

MARY PICKFORD—Sweet and beautiful as "Mary" herself. Soft, creamy white with sulphur yellow throat. Blooms early and many flowers open at same time. Each 15c.; doz. \$1.50; 100 for \$7.50.

MRS. DR. NORTON—Large white flowers with pink edges, lower petals have a yellow blotch. Extra fine large flowers of unusual beauty. Each 12c.; doz. \$1.25; 100 for \$8.50.

ROSE GLORY—A magnificent rose-pink with ruffled petals that are edged with white. Large flowers, well arranged and wonderfully showy. The best rose-pink. Each 20c.; doz. \$2.00; 100 for \$15.00.

ROSES OF ASHES—Soft tones of old rose fading to ashes of roses on the outer petals. Flowers are of large size, finely fluted and ruffled and wonderful in form and color. Spikes 4 to 5 ft. tall and many flowers 5 in. across. Each 15c.; doz. \$1.50; 100 for \$12.00.

WHITE GIANT—A pure glistening white without a blemish. Flowers are very large and very much resemble an Easter Lily. A grand white. Each 15c.; doz. \$1.50; 100 for \$10.75.

Special Gladioli Offer No. 1

The above 10 varieties represent the best to be had in Gladioli
 1 Bulb of each for \$1.00 5 Bulbs of each for \$4.25
 These are strong bulbs, sure to bloom, each wrapped separately

Jung's Super Giant Gladioli

This is without any exception the finest mixture of Gladioli, it has been put up for those who wish to have the best to be had. No matter what price you pay you cannot get anything better. It is made up of only the very best giant flowering varieties and includes all colors such as white, yellow, shell-pink, rose, fiery-red, coral-pink, orange, purple and many others. Many of them will grow 4 to 5 feet tall and produce flowers 5 inches and more across. The mixture is carefully put up so that if you would order a dozen bulbs no two would be alike; these are all strong select bulbs and we will replace free of charge any that fail to blossom. If you wish a real surprise in Gladioli plant this select mixture. 6 for 45c.; 12 for 85c.; 50 for \$3.00; 100 for \$5.75 postpaid.

ANNA EBERIUS—A beautiful dark velvety purple-rose. Wonderful spikes of large well arranged flowers. Must be seen to be appreciated. Each 12c.; doz. \$1.25; 100 for \$8.50.

E. J. SHAYLOR—One of the best frilled or ruffled rose-pink glads. Grows tall and has many of the beautiful ruffled flowers open at the same time. Each 10c., doz. 80c., 100 for \$6.50.

GOLDEN MEASURE—A giant flowered deep golden yellow, conceded to be one of the best glads ever introduced. Flowers are very large, very ruffled and produced on spikes 4 to 5 ft. tall. Very fine. Each 15c.; doz. \$1.50; 100 for \$9.50.

JOE COLEMAN—Rich bright red with beautifully ruffled petals. Flowers are large and produced on long straight spikes. Very satisfactory. Each 10c.; doz. 75c.; 100 for \$7.50.

MRS. FRANCIS KING—Bright orange scarlet, flowers often 5 in. in diameter and produced on spikes 4 ft. long, 12 to 18 flowers on each spike. Very showy and fine for cut flowers. Each 8c.; doz. 60c.; 100 for \$3.75.

MRS. FRANK PENDLETON—One of the most beautiful glads. Flowers are enormous and their color is a lovely salmon pink with deep red blotches in the throat. Be sure to order it. Each 10c.; doz. 75c.; 100 for \$4.50.

LE MARECHAL FOCH—A superb variety, the best delicate shell pink ever developed. Single flowers 5 in. across and produced on long straight spikes. Very early. Each 8c.; doz. 60c.; 100 for \$3.75.

PRINCE OF WALES—Very large flowers of bright coral pink, a color that must be seen to be appreciated. Produces a tall spike and blooms very early. You will be more than pleased with it. Each 8c.; doz. 60c.; 100 for \$4.25.

Special Gladioli Offer No. 2

The 8 varieties listed above are all fancy large flowering "Glads" and are sure to please
 1 Strong Bulb of Each (8 in all) for 50c
 5 Strong Bulbs of Each (40 in all) for \$2.00

CUCUMBERS

JUNG'S FAIRFIELD GIANT

EARLIEST OF ALL

Jung's Fairfield Giant

The darkest green cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from 6 to 8 inches in length or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet and crisp and of the finest flavor. As shown in the illustration the fruits are very long and slim, which together with their deep green color will make them bring the top prices on all markets. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

EARLY FORTUNE

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich dark green in color; this color does not fade when shipped a long distance. As a pickling variety EARLY FORTUNE IS ONE OF THE BEST VARIETIES as the fruits are so uniform. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Early Fortune

CHICAGO PICKLING

Chicago Pickling

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruits if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when pickled. Quality excellent. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Davis Perfect

A cucumber which for shape, quality, color and forcing indoors or growing outside is unexcelled. The type is perfectly fixed and has an ideal shape, slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers, the fruit resembles the hothouse product so closely that dealers cannot detect the difference. The most nearly perfect Cucumber yet introduced. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

DILL

This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

Earliest of All

By planting this variety you can have cucumbers ready to use when most others are only in blossom. Not only is it extra early but it also produces fruits of fine quality and is very productive. Excellent for slicing or pickling and will continue in bearing a long time if fruits are kept picked. Pkt. 8c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

Special Offer No. 3

These five splendid cucumbers will supply you with an abundance of cucumbers for pickling and slicing:

Jung's Fairfield Giant
Davis Perfect
Chicago Pickling
White Wonder—See page 10
Early Fortune
1 Pkt. of each for 25c.
1 Oz. of each for 60c.

Fordhook Famous

The longest white spine, finest flavored of all Cucumbers. This is the handsomest of all long green cucumbers, always straight and well formed; they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth with heavy foliage and set the extra large fruits freely throughout the season. The cucumbers are smooth and regular in form, averaging 12 to 14 inches in length and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

For other select Cucumbers see page 10.

Rid your cucumbers of striped bugs with "Evergreen" see page 1.

DAVIS PERFECT

FORDHOOK FAMOUS

LETTUCE

Extra Select Grand Rapids

A well known forcing variety. It makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

Earliest Wayahead

This is the quickest growing and most attractive extreme-early Lettuce producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners as the early heads always bring the best price. Its quality is unsurpassed; the heads are very solid, have weighed 6 oz. when trimmed. The interior of the heads is blanched to a beautiful creamy color while the leaves are tender, juicy and sweet flavored. The quality of this variety is unequaled among the early sorts. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 45c.

New Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which curving strongly into the center acts like a truss making it impossible for the leaves to open outward and expose the center which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer. The heads are of good size. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.

Select Big Boston

Extra Select Strain for Critical Planters. This market variety is very popular for outdoor culture and is also in demand as a compact, large heading sort for cold frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge; they are bright light green, the head slightly tinged with reddish brown. The inner leaves blanch to an attractive greenish white, tinged with light yellow. It heads up under cold weather conditions better than any other variety and is grown very extensively in the south for shipping north in the winter. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

Mrs. E. W. Harrington, Orange, Mass.—I plant your seed with fine results, especially All Cream Lettuce, have supplied my neighbors and all pronounce it the best ever. It is very large and crisp, one leaf measuring $10\frac{3}{4}$ inches across.

Mrs. Emma Barndt, Norristown Pa.—Am sending you my orders for the 8th year, there is none better than All Cream Lettuce and your Beans are wonderful.

WATER MELON

Extra Early Sugar Lump

This melon is well described by its name as it is about the earliest and sweetest water melon in cultivation. The plants are hardy and vigorous and produce melons more numerous than most varieties. Fruits are nearly round and will average 10 to 15 lbs. each. The flesh is scarlet, free from stringiness, very sweet and fairly melts in your mouth. Especially valuable for earliest marketing and Northern localities where seasons are short. Pkt. 7c.; oz. 12c. $\frac{1}{4}$ lb. 35c.

JUNG'S ALL CREAM

Jung's All Cream

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer leaves turn outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 8c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

Special Offer No. 5

In order to have a long supply of crisp, tender Lettuce plant the following varieties and make a sowing once each week.

Earliest Wayahead
Select Big Boston
Jung's All Cream
New Iceberg

1 Pkt. of each 25c. 1 Oz. of each 65c.

Pleasure in Gardening!

THE GREATEST JOY IN GARDENING consists in being able to go right out into your garden and pick the choicest the season affords, fresh crisp with all the good qualities nature puts into vegetables. Garden making is not difficult if you follow the simple instructions which we send free with every order of 25c or more.

Mrs. L. W. Palmer Wheatland, N. D.—I have one of the nicest gardens I ever had, all from JUNG'S SEED.

More fine varieties of Lettuce offered on page 12.

EXTRA EARLY SUGAR LUMP

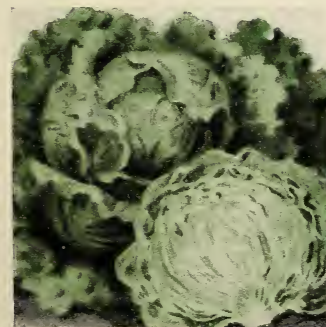

SELECT GRAND RAPIDS

EARLIEST WAYAHEAD

NEW ICEBERG

SELECT BIG BOSTON

Mrs. Mary Schultz, Minnesota Lake, Minn. Was well pleased with all the plants and seeds from you last year and advertised your house among all the neighbors who asked where I got my seeds.

MOLTEN FIRE

SUMMER AZALEA

Mrs. John Ingram, Canterbury Sta., Canada.—I would not do without your seeds; this is my 10th year of using them and they never fail if they get half show.

Christmas Kochia

Annual Chrysanthemums

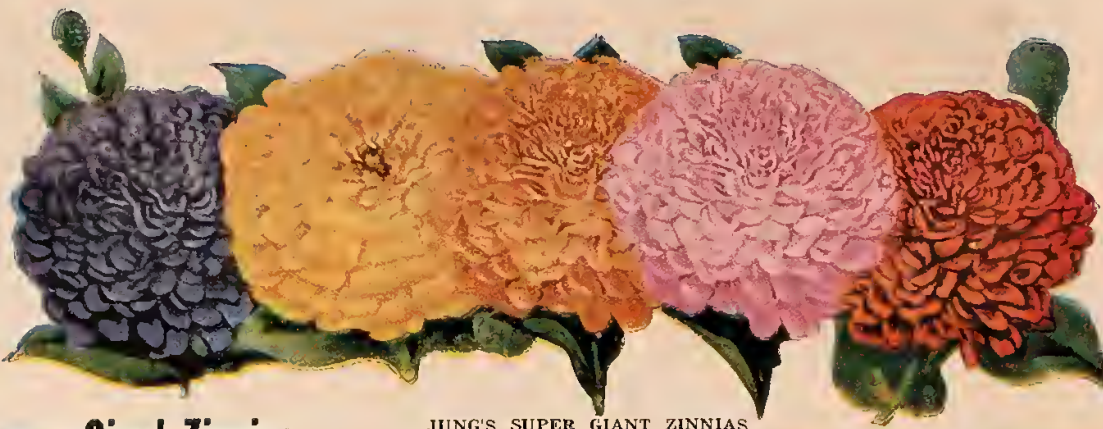

Evening Primrose

MOLTEN FIRE

Tricolor

A wonderfully fine ornamental plant that is sure to attract attention wherever grown on account of its brilliant color. Plants grow rapidly and have bronze colored foliage until the plants attain a height of about 2 ft. when the tips of the branches open up like gigantic poinsettias taking on a bright scarlet and gold color. Pkt. 10c.; 3 pkts. 20c.

Jung's Super Giant Zinnias

JUNG'S SUPER GIANT ZINNIAS

Our sales on the truly Giant flowered Zinnias are increasing every year. People who saw them in flower in our fields were amazed at the giant size of the flowers and brilliant colors. The plants make a strong growth and form compact bushes 2 to 3 ft. tall; the flowers are borne on stiff stems well above the foliage. For a wealth of flowers plant them in rich soil, give frequent cultivations and lots of water and you will be surprised at the results. Flowers are often 5 to 6 inches across. They will be a glory to behold from early summer until frost.

CANARY BIRD—A lovely shade of primrose or lemon, very large flowers and holds its color for a long time. Pkt. 15c.

EXQUISITE—One of the most pleasing as regards form and size. Light rose with deep rose center. Pkt. 12c.

DREAM—A very attractive and desirable shade. Light lavender changing to purple. Pkt. 12c.

METEOR—A rich, deep glowing red and the darkest of all red shades. Flowers very large and produced in abundance. Pkt. 15c.

ORIOLE—Well worthy of the beautiful bird for which it was named. Immense, orange and gold bicolor flowers but changing as the flowers grow older. Pkt. 15c.

POLAR BEAR—Decidedly the best pure white Zinnia. For size, color and free blooming it stands supreme. Pkt. 15c.

Special Offer: 1 Pkt. of each of these 6 Grand Zinnias for 50c

Super Giant Mixed Zinnias

This is one of the finest mixtures of Zinnia seed to be had. It contains seed of all of those shown above besides many other colors. If you want glorious color around your house from early summer until frost plant some of these Zinnias. As they are produced on long stout stems they will make excellent bouquets for living up any room. Pkt. 10c.; 3 pkts. 25c.

The Grand Regal Lily

Although still new it is fast becoming the most popular lily. It is one of the hardiest lilies and produces the most glorious blossoms. Grows 3 to 5 ft. tall and produces from 5 to 8 of the handsome blossoms on each stalk. The flowers are white, slightly tinged with pink; with a beautiful glow of canary yellow at the center of trumpet. Its perfume is exquisite and sweet, very much like Jasmine. Perfectly hardy and after once planted will come up year after year. Price of blooming size bulbs: Each 30c.; 3 for 75c.; doz. \$2.85.

REGAL LILY

Summer Azalea or Satin Flower

An easy growing annual that rivals the Azalea for beauty of its fine rose-like blossoms. Seed may be sown in the garden and by June they are a mass of blossoms completely hiding the foliage. Blossoms shiny like satin, deep rose colored and remain in blossom a long time. Pkt. 7c.; 2 pkts. 10c.

Christmas Kochia

A great improvement on the old variety as this new strain retains its beautiful color until late in the winter while the old variety dried up in September. The bushes are a mass of dense live green in summer while after frost it turns to rosy claret-red and is highly ornamental after all other plants and shrubs are dead and the effect of this color against the snow is certainly a beautiful sight. The plants grow 3 to 4 feet high and very dense and symmetrical from the start. Pkt. 7c.; 2 pkts. 10c.

Fancy Mixed Annual Chrysanthemums

Easily grown annuals that produce some of the finest color combinations known in flowers. May be started indoors or sown out in the garden and are as easily grown as poppies. As the flowers are borne on long stems they make excellent bouquets and will keep for a long time in water. Pkt. 7c.; 2 pkts. 10c.; 1/2 oz. 25c.

Mrs. T. C. Johnson, Ogden, Ill.—I had 25 Cumberland Raspberry plants from you last year and they did so well we are sending for 50 more. Your seeds all did well for us and are superior to seeds bought elsewhere, the asters were the most beautiful ones I ever raised.

Evening Primrose

Very handsome and interesting annuals. Plants grow 2 ft. tall and bloom profusely from July until Sept. The flowers remain closed during the heat of the day but upon the approach of evening you can enjoy a thrill by sitting in the garden and watching them open. Finest mixed colors. Pkt. 7c.; 2 pkts. 10c.

GARDEN PEAS

Our PEAS are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. We advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

Little Marvel

A New Extra Early Dwarf Pea

The vines are of dwarf even growth, averaging fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven large, deep green peas. The pods are ready for the table as early as the American Wonder while the peas are larger and the vines produce a heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 60c.

EARLY EXCELSIOR

Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect but superior to it in the following particulars: First: The vines are more dense and sturdy. Second: The peas and pods are decidedly larger measuring from $3\frac{1}{2}$ to 4 inches in length and contain from 6 to 8 large peas of delicious quality and is a much surer cropper. It is also very early; the past three seasons it was ready for use in 45 days after sowing. One of the most valuable EARLY PEAS surpassing in earliness, yield and quality. Pkt 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 60c.

LITTLE MARVEL

"LORD LEICESTER" The Giant Pea

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about five feet in height, with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Little Gem

One of the most popular extra early dwarf peas. The demand for Little Gem increases every year which is a sure indication that it is giving satisfaction. The vines grow 14 to 16 inches all and require no brush and are literally covered with pods. Pods contain from 6 to 8 peas of fine quality. A great favorite for home and market gardens. You will not be disappointed if you plant our "Gems". Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

Special Offer No. 7

If you wish to have a continuous supply of sweet luscious Peas plant the following:

Little Marvel	Little Gem	Lord Leicester
Jung's Honey Sweet		Early Excelsior
1 Pkt. of each for 30c	1 Pt. of each for \$1.50	
$\frac{1}{2}$ Pt. of each for 95c	1 Qt. of each for \$2.80	

MORE DELICIOUS PEAS ON PAGE 18

LORD LEICESTER

LITTLE GEM

JUNG'S HONEY SWEET

SPINACH

Princess Juliana

This is a new type of "Long Standing" Spinach that is very slow in running to seed. It has given the best satisfaction wherever tried out and will become one of the most popular varieties. The leaves are of good size, very dark green, well crumpled and of thick substance and fine and tender when cooked. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.

KING OF DENMARK

King of Denmark

A remarkable new Spinach that is far superior to all of the older kinds. Its great advantage is that it will stand 2 weeks longer before running to seed than any other variety. It also grows larger and will outyield all other varieties. The leaves are large, deep green and crumpled in appearance; it is ready to use as early as any other kind. For productiveness and quality it is unequalled. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.; lb. 60c.

VICTORIA

PRINCESS JULIANA

Victoria

This is a handsome variety, the leaves being of an exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark green leaves are wrinkled like a savory cabbage and are of the finest quality. It produces nearly twice the bulk of crop as the ordinary sort and will remain in prime condition for a very long time. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 50c.

Harry Dirrim, Villisca, Iowa—
Your seeds have proved to be such wonderful quality and so true to description.

Mrs Wm. Paynter, Kinistino, Can.—
Your seeds have proved to be such wonderful quality and so true to description

NEW DELICIOUS

Improved Hubbard

This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow; fine grained, very dry, sweet and rich flavored; keeps perfectly thruout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

IMPROVED HUBBARD

Three Splendid Squash

New Delicious

For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor. Excellent for Fall as well as for Winter use, keeping until late in the Spring. Fruits are of medium size, usually weighing from 5 to 10 pounds. The rind is dark green mottled in lighter shades. The flesh is dark orange, very fine grained and thick. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

Table Queen

A squash that will suit the most exacting critic. Unexcelled for either baking or pies. If you want something in extra fine "eats" cut one of the squash in half, put in a lump of butter and bake, this serves one person amply. It ripens early, will keep all winter and is so productive that a few hills will produce enough for an average family. Pkt. 8c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

For more splendid summer and winter Squash see page 22

Rid your squash of bugs with "Evergreen"—see page 1

TABLE QUEEN

Plant Food for House Plants, Lawn & Garden

PLANT PEP

Makes 'em Grow

This is a highly concentrated and well balanced fertilizer for pot or house plants, roses, ferns and also for outdoor flowers and shrubs. It increases the foliage and improves the color and size of blossoms. Odorless and harmless. PLANT PEP is sure to bring forth healthy plants and lots of flowers. 2 oz. pkt. makes 5 gal. 15c.; 8 oz. can makes 20 gal. 50c.

GIBSON

Gibson

This is considered to be one of the best main crop varieties. In the big strawberry sections more Gibsons are planted than any other, it out-yields and out-sells all other berries on the market. The plants are extra strong growers and bear for a long time thus making a heavy yield. The berries are very large, of a beautiful red color and finest quality. We know you will not be disappointed with Gibson. We have some wonderful extra strong plants. Price 25 for 50c.; 50 for 80c.; 100 for \$1.25; 1000 for \$8.50.

Jung's Special Strawberry Offer

If you want the best to be had in Strawberries plant the following:

Mastadon Everbearing "Cooper" The Giant
Jung's Wonderbearing Gibson

25 of each (100 in all) for \$2.75

50 of each (200 in all) for \$4.75

100 of each (400 in all) for \$8.25

Postpaid

"COOPER" The Giant Strawberry

The Wonder Among Strawberries. Immense Yields. Finest Quality. The Largest Berries of All

The Cooper makes an extra large plant and a wonderful root growth thus enabling it to resist drought. It is one of the most remarkable yielders as the remarkable strength of the plant gives it power to carry every berry to maturity. There are a good number of fruit stems to each plant and these are literally loaded with berries. When you take into consideration that Cooper berries are 2 to 3 times the size of ordinary varieties you can have some idea of its enormous yield. The berries are bright red, of the best quality and the most delicious flavor. Cooper is unequalled for size, quality and yield. Price 25 for 75c.; 50 for \$1.25; 100 for \$2.25.

Hardy Strawberry Plants

GUARANTEE—We guarantee all plants to reach you in good condition and will replace free of charge any damaged plants but complaints must be filed within 10 days after receipt of plants.

Perfected Mastadon

The Giant Everbearing Strawberry

(See Back Cover)

The greatest Strawberry ever introduced. Will produce just as large a crop of berries in the summer and fall as ordinary varieties do in June. It produces large deep rooted plants that carry immense loads of the giant sized luscious berries. By planting this variety this spring you can have a large crop of fine berries this fall and unlike most other Everbearers they will give you just as large a crop next spring as any spring bearing variety. We have the genuine true stock but advise early orders. Guaranteed to give satisfaction. 25 for \$1.25 50 for \$2.00; 100 for \$3.75, postpaid.

JUNG'S WONDERBEARING

Jung's Wonderbearing

A strawberry that will delight all growers who want a variety which combines fine quality and great productiveness. These plants are very vigorous growers and seem to succeed almost anywhere; they grow upright and carry the fruit well from the soil; it is medium early in ripening. The berries are of large size, some specimens 2 inches in diameter, of extra fine quality and handsome appearance. We offer strong plants of our own growing: 25 for 60c.; 50 for 90c.; 100 for \$1.35.

"COOPER"
THE GIANT STRAWBERRY

New Giant Victory Raspberry

This new variety is a seedling of Cuthbert and resembles it very much but for several seasons has produced twice as many berries bush for bush. It produces very large berries and has proved to be very hardy. Produces larger berries than most red varieties and also grows strong healthy bushes. 6 for 50c.; 12 for 80c.; 100 for \$4.75.

LATHAM RASPBERRIES

Latham Raspberry

The Giant Red Raspberry

By far the best raspberry to be had and stands unsurpassed for vigor and hardiness, size and handsome appearance of berries. Has made the remarkable yield of 5430 qts. per acre. Hardy even as far North as Canada. The ability of Latham to yield so heavily, together with the large size and fine appearance of the berries make it unquestionably the most profitable variety for either the home or market garden. Many plants will bear fruit the first year they are set out. Price of strong disease-free plants: 6 for 75c.; 12 for \$1.25; 25 for \$2.25; 100 for \$7.00; 1000 for \$35.00.

All of our raspberry plants have had double inspection by our State Inspector and are free from Mosaic and all other dangerous plant diseases and insects.

ST. REGIS EVERBEARING

St. Regis Everbearing Raspberry

Bears from July to Oct.

A wonderful raspberry that will give you a fine crop of berries from July until hard frosts in the fall; will produce a nice crop the first season if planted in good soil. Berries are bright crimson in color, large size, firm and sweet. Canes are vigorous growers and well covered with heavy green foliage. St. Regis is a heavy bearer in the regular berry season and besides will give you a crop in the fall when fresh berries are always welcome. Price of strong disease-free plants: 6 or 50c.; 12 for 85c.; 25 for \$1.50; 100 for \$4.00; 1000 for \$19.50.

Berry Collection

If you want the best Berries to be had try the following:

- 25 Mastadon Everbg. Strawberries
- 25 Gibson Strawberries
- 12 Latham Raspberries
- 12 Giant Cumberland Raspberries
- 12 St. Regis Everbg. Raspberries

At catalog prices these amount to \$4.60 but as a special offer we will send the above all charges prepaid for only \$3.95.

Giant Cumberland Black Raspberry

The largest black raspberry grown. This is offered with the full assurance that it is the most desirable variety, because of its immense size, fine quality and great productiveness. It is a wonder in size of berries and vigor of growth and is as hardy as any variety grown. Fruit is jet black and of extra fine quality. Every garden should have some of the fine berries. Black raspberries can be easily grown and make a profitable crop to grow for market. 6 for 40c.; 12 for 75c.; 50 for \$2.00; 100 for \$3.75.

The Great Concord Grape

The best known and most widely grown grape in cultivation. It is hardy and succeeds everywhere. Bunches are large and compact, fruit large and purplish black. It's easy to grow grapes and everyone should set out a few plants. Price of strong, well rooted plants 3 for 40c.; 12 for \$1.50.

A great part of growing a profitable crop of berries depends on properly setting out and caring for the crop. Unless the right care is given the best plants will not produce a satisfactory crop. To assist you in every way we have prepared a set of complete, cultural instructions for small fruits and will send same free with every order for plants.

CUMBERLAND RASPBERRIES

CONCORD GRAPE

BETTY JUNG ASTERS

Betty Jung Asters

This new Aster outrivals anything we have seen yet in Asters and we have been growing and improving them for 17 years.

The plants are very vigorous growers and instead of producing a large number of lateral stems the entire strength seems to go toward producing from 6 to 10 long main stems, each of which is crowned with one of the mammoth flowers. The flowers are giant in size, very full and double and of very lasting quality; the type of flower is well shown in the illustration. White, Bright Rose, Shell-pink, Deep Purple and Mixed. Pkt. 15c.; 1/4 oz. 50c.. Pkt. of each color for 35c.

Chas. F. Kirt, Lake Leelanau, Mich.—Had some of your Aster seed last year and had flowers measuring 6 in. across on stems 30 in. long; they were the loveliest Asters I ever grew.

Hardy Ornamental Shrubs

We offer a list of the most popular and highly desirable ornamental shrubs and vines. They are of our own growing and are very hardy. They are all strong 2 and 3 year old field grown plants and should not be compared to small 1 year plants that are often offered at low prices. We guarantee them to reach you in good condition.

Mrs. Wm. Thompson,
Elgin, Ill. I am very
much pleased with
the shrubs from you.

AMOOR RIVER PRIVET

HYDRANGEA

Paniculata Grandiflora

This is a grand plant, very showy and attractive, lasting in bloom for months. It is very hardy, enduring the severest winters without protection. Easily transplanted and never fails to bloom the first year planted. The immense blossoms appear in July when few other shrubs are in blossom and remain in flower until destroyed by frost. The flowers are pure white, changing to pink and are borne in immense clusters. Each 40c.; 2 for \$1.00; doz. \$3.85.

In planting shrubs the tops should be severely pruned back, unless this is done perfectly good shrubs will often fail to grow. If desired we will properly trim the shrubs when we send them out, if wanted trimmed please state this on your order.

MOCK ORANGE

JAPANESE BARBERRY

Hardy Amoor River Privet

This is the well known hardy Privet and the only one suited for planting in the North. Very largely used for hedges and ornamental plantings as it can be pruned to suit your fancy, the more you prune it back the bushier it will grow. Leaves are bright, glossy green and not subject to blight. 3 for 40c.; 10 for \$1.00 100 for \$9.50.

Dwarf or Box Barberry

Where a beautiful dwarf hedge is desired along walks or edges this shrub will prove very useful. It grows 15 to 18 inches tall and each plant forms a rounded ball of very fine leaves and stems that closely resemble a Box Plant. For a beautiful dwarf hedge nothing better is to be had. Each 25c.; 3 for 65c.; doz. \$2.75.

Japanese Barberry

By far the most desirable and useful of all shrubs. Of neat, dwarf graceful appearance and handsome at all times of the year, excellent for hedges, borders for larger shrubs or grown in single specimens. Attractive deep green all summer followed by striking red berries in the fall which remain on the bushes all winter. This variety is recommended by the U. S. Government. Strong well branched plants, each 25c.; 3 for 65c.; 12 for \$2.25; 25 for \$4.00; 50 for \$7.75.

Snowberry

A valuable and desirable shrub with pink flowers which are followed by large white wax-like berries which hang on the plant through fall and most of the winter. Grows 2 to 4 feet high, very showy and succeeds almost anywhere. Of special value for planting in shady places where few other shrubs will grow. Strong bushy plants each 25c.; 3 for 70c.; 12 for \$2.40.

Early Plant Orders

We send out plants and shrubs as early in the spring as we can dig them, usually April 1 to 10th. This may seem late to customers living in the south but as the plants are in a dormant state they are sure to grow.

HYDRANGEA

Lemoine or Dwarf Mock Orange

A dwarf, vigorous and hardy shrub. It grows very rapidly and in May and June the bushes are covered with large white flowers very much like orange blossoms. Very fragrant and fine for cuttings or bouquets. This is a valuable shrub for backgrounds, grouping or specimen plants. They not only make a grand display at flowering time but they continue to please with their attractive foliage. Strong bushy plants each 30c.; 3 for 75c.; doz. \$3.00.

Golden or Variegated Wiegela

A dwarf and very useful shrub which grows 3 to 4 ft. tall. The leaves are margined creamy white and are splendid for planting among other shrubs or used as specimen plants around the house or lawn. Flowers rose colored and produced in greatest profusion. A shrub of rare beauty from early spring until late fall, sure to please. Each 30c.; 3 for 75c.; 12 for \$2.75.

WIEGELA

SPIREA**Douglassi Rose-Pink**

A beautiful shrub growing 4 to 6 ft tall, with reddish brown branches and narrow oblong foliage. Produces handsome spikes of deep rose-colored flowers in July and August. Perfectly hardy and very useful for mixing in with other shrubs or specimen plants. Each 25c.; 3 for 65c.; doz. \$2.25.

W. V. Powell, Dodgeville, Wis.—Thank you for the extra fine shrubs you sent me; they are growing fine.

SPIREA-FERN LEAVED

SPIREA**Fern Leaved or Sorbifolia**

A handsome and vigorous shrub that should be included in every planting. It has foliage like a fern or Mountain Ash and produces large spikes of pure white flowers similar to a Hydrangea during July and August. Very fine for planting with other shrubs as the fern like foliage shows up splendid. Each 30c.; 3 for 75c.; doz. \$2.75.

C. A. Hazard, Platteville, Wis.—I had such splendid success with the shrubs ordered from you last year that I am sending for more herein.

SPIREA VAN HOUTTEI

SPIREA-DOUGLASSI

SPIREA**Van Houttei or Bridal Wreath**

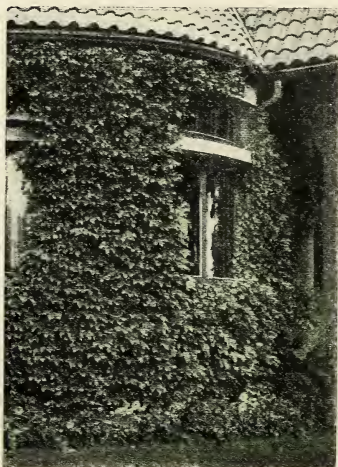

One of the best known and most useful shrubs as it succeeds everywhere. Fine for setting singly or among other shrubs, very largely used in all landscape work. It forms a round and graceful bush with drooping or arched branches which in June are completely covered with snow-white blossoms. Will fit in wherever graceful effect is desired and always gives satisfaction. Extra strong plants each 25c.; 3 for 65c.; 6 for \$1.25; 12 for \$2.25.

Engelman's Ivy or Ampelopsis

A very desirable variety as it is much harder than Boston Ivy, withstanding heat and severe cold much better. It is a type of Ivy which has been long wanted as it has shorter joints and handsome foliage and is well supplied with tendrils that cling to the walls very tight. If you wish a beautiful rapid growing vine you will not be disappointed with this variety. Each 25c.; 3 for 65c.

The Fragrant Cinnamon Vine

Cinnamon Vines are the most desirable, easiest grown climbers in the world. No words can describe their delicious fragrance. Perfectly hardy, thriving in all soils, in sun or shade, wet or dry; no insects, blight or disease of any kind will ever trouble them. Large tubers will quickly climb 30 feet or more and surround your windows and cover your porches, walks, etc., with a mass of vines, covered with pretty heart-shaped leaves, making them perfect Bowers of Beauty. They have a charm unknown to all climbers. The tops die down in the fall but grow again very rapidly in the spring, often growing 10 or more inches in a day. Plant a half-dozen under that sunny window. Extra strong tubers, each 10c.; 3 for 25c., doz. 90c.

ENGELMAN'S IVY

**SHADY SPOT LAWN GRASS**

This is a mixture carefully prepared for sowing under large trees and other heavily shaded places where ordinary grass will not thrive. Lb. 60c.; 5 lbs. \$2.75, postpaid.

FANCY WISCONSIN WHITE CLOVER

For some lawns especially in poor clay soil, it is advisable to use White Clover liberally. For renovating old lawns it is especially valuable as it will take hold where other grasses fail. Fancy Seed: ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.; 5 lbs. \$2.75, postpaid.

LAWN GRASS**Jung's Fairfield Special Mixture**

ALWAYS GROWS. ALWAYS THRIVES, HARDY DEEP VELVETY GREEN, SURE TO PLEASE

Our mixture combines the very best varieties of grasses suitable for the purpose of making a lawn beautiful in appearance, durable and lasting, which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our seed weighs as much as two quarts of other seedsmen's brands. It contains the right quantity of White Clover but no Timothy or other cheaper grass seeds. Nothing better to be had Lb. 40c.; 5 lbs. \$1.90, postpaid. Not prepaid: Lb. 40c.; 5 lbs. \$1.75; 25 lbs. \$7.25; 50 lbs. \$13.75; 100 lbs. \$26.50.

The Beautiful Persian Lilac

One of the most beautiful lilacs grown. Of slender, graceful growth, 4 to 6 ft. tall and will not spread over your lawn like common lilacs. Flower heads are very large, bright purple in color and borne in great profusion. Each 45c.; 3 for \$1.25.

PERSIAN LILAC

DUETZIA-Pride of Rochester

The most popular and also the most vigorous variety. Excellent to grow as a specimen as it will grow 5 to 6 feet tall in good soil. It has large double white flowers which are produced in great profusion along the stems. A very beautiful and useful shrub. Each 30c.; 3 for 75c.; doz. \$3.00.

DUETZIA

WIEGELA

WIEGELA Rosea

A very desirable and easily grown shrub that is gaining in popularity every year. The rose colored trumpet shaped flowers appear in wonderful abundance during June and July; forms neat plant 5 to 6 feet high. Each 30c.; 3 for 75c.; doz. \$3.00.

W. H. Price, Glenarm, Ill.—All your plants did well for us, the asparagus was fine; also the Spirea was full of flowers. Your strawberry plants all grew just fine.

Jung Shrub Collection

12 Strong 2 yr. Field Grown Shrubs for \$2.95 Postpaid.

For those who are undecided as to what shrubs to plant we have made up a collection as follows:

- 2 Hydrangea Pan. Grandiflora
- 2 Spirea Van Houttei
- 1 Golden Spirea
- 1 Golden Wiegela
- 2 Wiegela Rosea
- 1 Snowberry
- 1 Fern Leaved Spirea
- 1 Duetzia Pride of Rochester
- 1 Lemoine Mock Orange

At catalog prices these 12 shrubs would cost \$3.35 but as a special offer they will be sent to you all charges prepaid for only \$2.95.

Hardy Purple Wisteria

A rapid growing vine unsurpassed for beauty, excellent for pergolas, porches or trellises as it has a tightly clinging habit. It is very hardy and lives to a great age, doing as well in the city, under unfavorable conditions as in the country. They are especially ornamental in the early summer when the vines are covered with the large drooping blossoms. May also be grown as a bush or shrub by pruning. Strong 2 yr. old plants; each 35c.; 3 for \$1.00; 12 for \$3.50.

WISTERIA

GOLDEN LEAVED SPIREA

Rhubarb or Pie Plant

A few Rhubarb plants should be in every garden. They are excellent for pies or sauce and are ready for use at a time when no other fresh fruits can be had. Price 3 for 25c.; 12 for 85c.

Mrs. E. Hollister, Princeton, Mo.—The Mastodon Strawberry plants were so satisfactory that we are ordering 50 more plants.

Gordon Baker, Ocean Grove, Mass.—Your strawberry plants arrived and they were the best plants I ever saw, so hardy and such wonderful roots; I am real pleased and must tell you.

RHUBARB OR PIE PLANT

Mrs. L. Timming, Ottawa Lake, Mich.—The shrubs I bought of you are all growing fine.

John Schlagel, Warwick, N. Y.—The hydrangea I bought from you had 6 lovely flowers on it by midsummer, and was so surprised to see it bloom at all. All your seeds were satisfactory.

Golden Leaved Spirea

The foliage of this shrub is a bright golden yellow and in June the branches are covered with double white flowers. This is one of the finest golden-leaved shrub and excellent for planting among other shrubs as the contrast of yellow and green is very conspicuous and pleasing. Each 25c.; 3 for 65c.; 12 for \$2.35.

Jung's Northern Grown Tomato Seed

We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop that will ripen earlier, produce solidier fruit and heathier plants than seed grown further south. It is folly to use cheap tomato seed for it only takes a few ounces to plant an acre.

Jung's Wayahead THE EARLIEST OF ALL TOMATOES

First to Produce Ripe Tomatoes. Good Sized Fruit, Smooth and Solid. Bright Red Color. Fine Quality.

As its name indicates it is way ahead when it comes to early ripening of fruit, even ahead of our famous John Baer and Earliana. We know this is a strong claim to make but it is an actual fact and we know that after you give it a trial you will be more than satisfied. It is of heavy-leaf type, a sure indication of hardness and vigor, as it is free from disease. The fruits are of good size, bright scarlet color, almost round, very smooth and remarkably handsome in appearance. The flesh is solid and of the finest flavor. Although it is the first to ripen vines continue bearing for a very long time. Every tomato grower knows that the first tomatoes always bring a big price and we are confident that this variety will more than please every one who plants it. Pkt. 15c.; 2 pkts. 25c.; ½ oz. 60c.; oz. \$1.00.

Mrs. Myrtle Miller, Big Run, Pa.—Have had wonderful success with your Wayahead Tomato, had ripe ones as early as June 25th.

JOHN BAER

Giant Everbearing

A wonderful tomato that commences to ripen early and continues to bear throughout the season, the later fruit is just as large and perfect as the first. It has been tried out in all parts of the U. S. and on different soils and always proved successful. The plants root very well from the start and makes strong sturdy vines that produce a surprisingly large number of fine tomatoes from each plant. The fruits are large, solid and smooth, free from cracks and ripen up evenly to the stem; easily prepared for market on account of its perfection. Fruits are a bright glossy red, flesh is solid, contains few seeds and is of exceptionally fine flavor. Choice seed of our own growing: Pkt. 10c.; ½ oz. 25c.; oz. 45c.; ¼ lb. \$1.25.

Harry Hoffman, Streator, Ill.—Used your Wayahead Tomato seed for two years and they are wonderful.

GOLDEN DWARF CHAMPION

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, smooth fruit, fine color and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy dark green foliage. The tomatoes are always smooth, round and solid and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves as it does not require as much sugar as other varieties. Pkt. 7c.; ½ oz. 25c.; oz. 45c.

JUNG'S WAYAHEAD

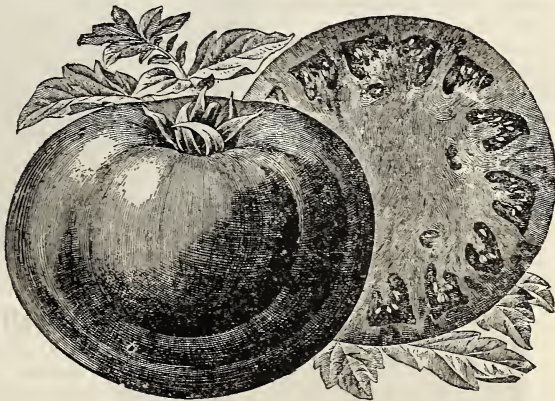

Jung's Private Stock "JOHN BAER"

We are offering seed of our own growing which for earliness, freedom from all disease, great productiveness and solidity of fruits, is unexcelled.

Here are a few reasons why you should plant this excellent variety:

1. It is one of the first to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing throughout the season.
4. The fruits ripen evenly up to the stem; no cripples, cracked, blighted or wrinkled fruit. A very good shipper, as it will not burst.
5. It is of the most brilliant red color and the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape and form exactly like the photograph.

Market gardeners, with whom earliness is a great factor will find that our northern grown seed will produce a crop that will ripen earlier produce a larger crop and more solid fruit, than seed grown further south. Plant JUNG'S JOHN BAER once and you will not be without it again. Price of our own growing. Pkt. 10c.; ½ oz. 40c.; oz. 75c.; lb. \$6.00, postpaid.

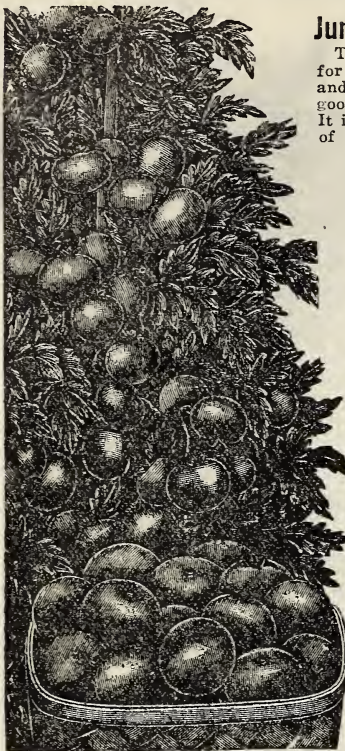

GIANT EVERBEARING

Special Offer No. 9

One pkt. of each of the following splendid Tomatoes for only 30c.

JUNG'S FAIRFIELD FIRST
JOHN BAER
GIANT EVERBEARING
HUNDREDFOLD
GOLDEN DWARF CHAMPION

John Comiskie, West Norwood, N. J.—Your Wayahead Tomato seeds are the finest I have used in 30 years.

JUNG'S FAIRFIELD FIRST

Trucker's Favorite

THE FINEST LARGE FRUITED TOMATO. Very uniform in shape and size; thick, heavy and solid; one of the largest tomatoes grown. The fruits are of a purplish red or pink color, always smooth and fleshy; They hold their size to the very last picking and ripen well to the stem. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable main crop pink Tomato Trucker's Favorite can't be beat. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 30c.; $\frac{1}{4}$ lb. 90c.

WHITE WONDER

Jung's Fairfield First Tomato

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet; fruits are all globe shaped making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor and contains but few seeds. Vines are strong and healthy, of fine flavor and contains but few seeds. Vines are strong and healthy growers. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.

Hundredfold

A remarkably fine tomato that will be sure to surprise you for quality, yield and fine smooth fruit, it commences to ripen very early and will keep on bearing until frost. Fruits will average of good size and are borne in clusters, often 12 to 15 in a bunch. Color bright red, fruits are always smooth, very solid and of the finest flavor; as it is globe shaped it is splendid for slicing. As it is so productive a dozen plants will supply enough fruit for an ordinary family. Choicest seed of our own growing. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 40c.; $\frac{1}{4}$ lb. \$1.25.

HUNDREDFOLD

New Coreless

A LARGE MAIN CROP, GLOBE SHAPED, BRIGHT RED VARIETY. Its shape is almost round, being about the same diameter each way. The depression at the stem end has been almost eliminated, making it the profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vines. All the fruits are of remarkable size, many of them are quite large—12 to 15 ounces. A good slicing variety, the seed cells being surrounded by bright red, heavy meaty and delicious flesh. Its color is bright red and the fruits ripen all over and at the same time. Always free from green cores. Every gardener should give this new Tomato a trial. Pkt. 8c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

TRUCKER'S FAVORITE

White Wonder

A wonderful tomato having creamy-white skin and flesh. The fruit is free of the usual acids and can therefore be enjoyed by persons who cannot eat red tomatoes on account of the acids they contain. The fruits are very firm and when cut open show a firm flesh. As a tomato for slicing or salads it is unsurpassed. Be the first one to grow this new tomato and surprise your neighbors. We offer you choice seed of our own growing. Pkt. 10c.; 3 pkts. 20c.

NEW CORELESS

FANCY MIXED PRESERVING

Fancy Mixed Preserving Tomatoes

An interesting packet comprising a mixture of the different small fruited varieties such as Red and Yellow Pear, Plum, Peach and Cherry. These varieties are all of unusually sweet rich flavor and excellent for preserves. May also be dried in the sun and packed in sugar thus making an excellent substitute for figs. Pkt. 7c.; 2 pkts. 10c.

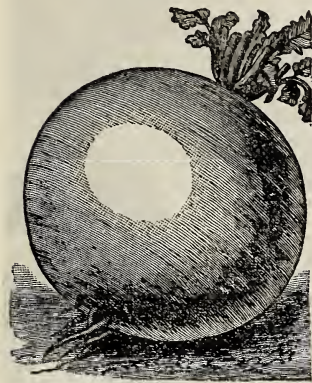

EXTRA EARLY WHITE MILAN

TURNIPS

Extra Early White Milan

A very valuable sort largely used by market gardeners for first or extra early use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00

GOLDEN BALL

Golden Ball

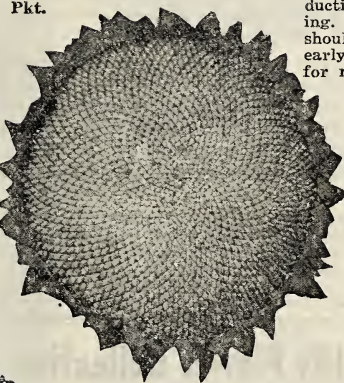

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth and very fine in appearance. Flesh is a rich yellow color tender and mild in flavor; in fact we consider it the best turnip for table use. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Purple Top Strap Leaf

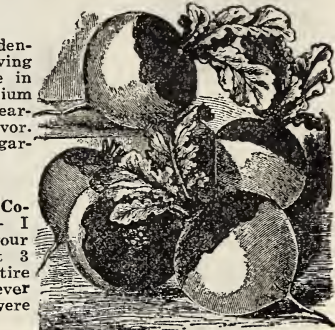

The most popular sort. A general favorite and more largely grown than any other Turnip. Rather flat and of medium size. The color is purple above the ground, white below; flesh white, fine grained and tender; leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills and will form good sized bulbs in seven or eight weeks. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

P. T. STRAP LEAF

SUNFLOWER

PURPLE TOP WHITE GLOBE

Purple Top White Globe

This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter being of perfect globe form; the upper portion is of rich, purplish red and the lower half creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper and being so productive is one of the best to grow for stock feeding. The plants being of such large, strong growth should be thinned more severely than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 65c.

SUNFLOWER

Mammoth Russian

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright lustrous plumage and strong healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Oz. 5c.; $\frac{1}{2}$ lb. 20c.; lb. 30c.; 5 lb. \$1.00.

RUTA BAGAS

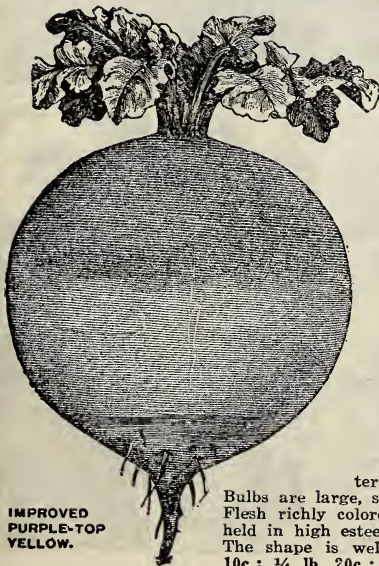

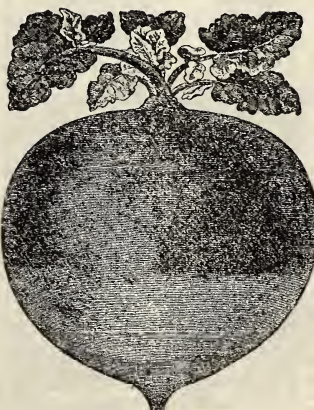

Perfect Model

This grand variety is a highly improved Ruta Baga and is giving satisfaction wherever grown. It is of fine quality and keeps perfectly all winter. A heavy yielder, flesh deep orange colored, sweet and fine grained excellent for table use. It is globe shaped, yellow skin with purple top and very short neck. An excellent variety to grow for market as they present such a handsome appearance that they will sell readily. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 70c.

Improved Purple Top Yellow

A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer.

Bulbs are large, smooth, round and solid with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 65c.

JUNG'S AMERICAN BEAUTY

Jung's American Beauty

This grand Aster is in a class by itself in fact we consider it the most beautiful of all Asters. Its beautiful form is well shown in the illustration. It is of the most beautiful color known in Asters being a delicate sea-shell pink. Its flowers are truly gigantic in size and closely resemble chrysanthemums, hence name. Well grown flowers measure five inches across and being borne on long stiff stems makes it invaluable for bouquets and cut flowers. Pkt. 8c.; $\frac{1}{4}$ oz. 35c.

YELLOW CHRYSANTHEMUM

THE NEWEST ASTER

Yellow Chrysanthemum

The rarest and newest Aster being a delicate canary yellow, a new color that will be welcomed by every Aster lover. The flowers are of good size, remarkably full and double with centers well covered. The plants are of the branching type, vigorous growers and many will produce from 15 to 24 fancy flowers on long stems suitable for fancy cut flowers. Flowers are produced so numerous that a plant looks like a gold dome. A truly superb Aster. Pkt. 10c.; 3 pkts. 25c.

Elma Zimprich, Davenport, N. Dak.—Have bought flower seed from you 3 years and am very much pleased with your seeds and had one of the largest and finest beds of asters last fall until late in October.

Jung's Superb Asters UNEXCELLED FOR SIZE AND BEAUTY OF FLOWERS

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very hardy, easily grown and may be had in bloom from early summer until hard frosts. We are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Jung's Scarlet Gem

The most attractive of all Asters, being a brilliant red. The flowers are large and full and are borne on a tall robust plant. Most effective for either beds or bouquets as their bright color makes them showy no matter where they may be placed. We know all of our customers will be delighted with it. Pkt 8c.; $\frac{1}{4}$ oz. 40c.

JUNG'S SCARLET GEM

Mrs. Edward Manchac, Milwaukee, Wis.—Have raised JUNG'S QUALITY aster seed for 2 years and must say they are wonderful and hosts of flower lovers praise and admire them.

Mrs. Marcus Zimmer, Schoharie, N. Y.—From your seed of Superb Asters I had the most wonderful flowers I had ever seen raised by an amateur.

RUFFLED GIANTS

JUNG'S CHRYSANTHEMUM

THE MOST BEAUTIFUL ASTER

Jung's Chrysanthemum

The petals of this grand new Aster are almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 46 inches tall, well supplied with heavy foliage and is a prolific bloomer. The immense fluffy flowers are borne on stems from 18 to 24 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over 4 inches across. We offer same in White, Shell-pink, Rose, Lavender and Purple... Pkt. 10c.; 1 pkt. of each color for 49c.

JUNG'S INNOCENCE

Jung's Early Innocence

Many people want Asters that come in blossom very early and we recommend these in every respect as they come fully two weeks earlier than most other sorts. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, Pink, Lavender, Purple and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 35c.; 1 pkt. of each color for 20c.

Jung's Ruffled Giants

Everyone is sure to admire these beautiful giant flowered Asters. The immense flowers are 5 to 6 in. across and rival Chrysanthemums for bouquets as they are borne on long stems and will last 10 days to 2 weeks if given fresh water. White, Lilac, Rosy Red, Cream, Lavender, Purple and Mixed. Pkt. 12c.; 1 Pkt. of each color for 50c.

Jung's International Mixed ASTERS

This splendid mixture contains every color known in Asters and includes early, medium and late varieties, thus giving you flowers throughout the season. It is not grown in mixture but carefully made up from the different kinds so as to get the right proportion of each color. If you want a fine lot of Asters at a low price sow this fine mixture. Pkt. 7c.; $\frac{1}{4}$ oz. 25c.; oz. \$1.00.

INTERNATIONAL MIXED

BALSAM-Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well-branched erect bushes about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose scarlet, crimson, purple lilac and violet. This variety is distinctly Camellia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 15c.

BABY GOLDEN GLOW

Mrs. John Armes, Tiptop, Va.—All my garden seed last year were from you and were the best I ever had.

COCKSCOMB-Giant Prize Mixed

Wonderfully showy annuals producing crimson and yellow flowers or combs of immense size. Very easy to grow. Cut when partially open and dry in shady place and they make excellent winter bouquets. Pkt. 10c.; 3 pkts. 20c.; $\frac{1}{4}$ oz. 25c.

COCKSCOMB

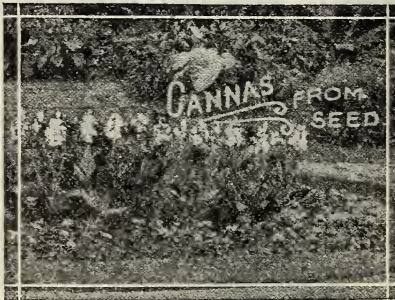

BALSAM

BABY GOLDEN GLOW

A most charming annual growing about 15 to 18 inches high, bearing scores of bright yellow flowers. Seeds should be started indoors; the plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and profusion. Pkt. 5c.; 3 pkts. 10c.

CANNAS-Crozy's Hybrids

Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high in all brilliant colors. Cannas are easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hot bed. Seeds sown in March or April produce a brilliant bed by July. Pkt. 8c.; 3 pkts. 20c.

CANDYTUFT-Little Prince

This is a dainty and distinct Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 20c.

CANDYTUFT

BUTTERFLY PLANT

BUTTERFLY PLANT

GIANT FLOWERED MIXED

Wonderful showy plants having leaves like a fern and blossoms like an orchid. The plants grow $1\frac{1}{2}$ to 2 ft. tall and are literally covered with the exquisite butterfly like blossoms of almost every known shade and color. These flowers are of lasting substance and a plant in bloom makes a truly beautiful sight. They are easy to grow in the garden and will also make beautiful pot plants for winter flowering. Pkt. 15c.; 2 pkts. 25c.

CARNATION

CARNATIONS

GIANT MARGUERITE MIXED

These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors including white, blush, deep pink, salmon, scarlet, maroon and many variegated flowers. Most of them have lovely fringed petals. One great merit of these Carnations is that they begin to flower in about 13 weeks time from seed sown in the spring. Pkt. 10c.; 3 pkts. 20c.

CHINESE WOOLFLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height, branching freely, each shoot bearing a beautiful ball of wool in pink, yellow and scarlet. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage makes the plant look like an immense bouquet set in the ground. They continue to grow with a richness of color all summer and fall until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are very much used for winter decoration. Pkt. 10c.; 3 pkts. 20c.

CARDINAL CLIMBER

One of the most beautiful climbing annuals we know of and should be grown by every lover of vines or climbers. The foliage is like a palm leaf, rich glossy green with fringed edges against which the brilliant scarlet flowers, about one inch across show off beautifully. In a warm sunny location and rich soil it grows 20 feet in height. It is of rapid growth, free from insects and a beautiful vine for porches or trellises. Pkt. 10c.; 3 pkts. 20c.

CHINESE WOOLFLOWER

BLUE LACE FLOWER

A beautiful and interesting annual which seems to have been lost sight of in the last few years. It blooms most profusely from July till November, plants grow about 18 inches high and have as many as 50 flowers open at one time, color an exquisite pale lavender. Pkt. 8c.; 2 pkts. 15c.

CENTAUREA**GIANT IMPERIAL MIXED**

Well known flowers and are among the most attractive and graceful annuals. Our seed will produce very large double flowers of graceful form and delicious fragrance. Having long stems they are very desirable for cut flowers and will last a long time when placed in water. Our seed includes all colors. Pkt. 7c.; 2 pkts. 10c.

CENTAUREA

COSMOS-Giant Early Flowering Mixed

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers, with their deep broad petals rise from a cloud of fine feathery foliage. They are of compact, bushy growth about four feet high with flowers fully as large as the old variety. Flowers are of various shades, ranging from pure white to purplish crimson. Pkt. 5c.; 3 pkts. 10c.; $\frac{1}{2}$ oz. 20c.

CALIFORNIA POPPIES-Fancy Mixed

Very handsome, quick growing annuals, with fine cut foliage and bright poppy-like blossoms. Nothing can excel it for brightness and it blooms continually from June to October. Colors orange, yellow, crimson and maroon. Very easy to grow. Pkt. 5c.; 3 pkts. 10c.

BLUE LACE FLOWER

DIANTHUS**FAIRFIELD FINEST MIXED**

These hardy annuals may be ranked among the fairest gems of our flowers as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 7c.; 2 pkts. 12c.; $\frac{1}{2}$ oz. 20c.

CALIFORNIA POPPY

AFRICAN DAISY

Plants, of very neat branching habit, grow about twelve to fifteen inches high and are exceedingly profuse in flowering. A bed in full bloom is a magnificent sight. Seed may be started under glass or sown in the open ground. New colors in all shades from pure white to deep orange. Many are beautifully rayed or zoned. Certainly a great acquisition and a magnificent new garden favorite. Pkt. 7c.; 2 pkts. 10c.

DIANTHUS

Dahlias from Seed

DAHLIAS-Jung's Fancy Mixed

The Dahlia still holds its place as "king" of all outdoor autumn flowers and they may be grown to the greatest perfection from seed, blooming the first summer. As easy to grow from the seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frosts when the bulbs can be taken up and stored until spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt. 10c.; 3 pkts. 20c.

HOLLYHOCKS-Everblooming Annual Mixed

This old but favorite flower may now be had in flower the first season. The diversity of form and color of our selection will afford you many surprises. Some plants will produce dense, double flowers, others will be semi-double while some are single with double centers. The flowers are unusually large, some measuring 5 inches across. In colors there is also a great variety, some richly brilliant, others dainty and elegant, ranging from black, maroon, crimson, rose, pink to white. Pkt. 7c.; 2 pkts. 10c.

HOLLYHOCK

LARKSPUR-Giant Annual Mixed

Well known annuals of great beauty and noted for the richness of their colors—particularly the blue. Our mixture includes white, pink, rose, light and dark blue and violet. Our strain is a great improvement over the old varieties, more of the flowers being double and all of them of larger size. They bloom very freely and produce large spikes of long keeping flowers. Sow seed early in the spring and they will commence to bloom in July. Pkt. 7c.; 2 pkts. 10c.

LARKSPUR

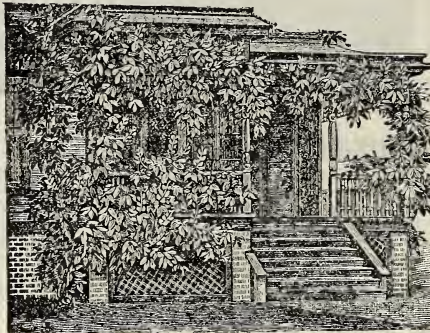

EVERLASTING FLOWERS

EVERLASTING FLOWERS

GIANT PRIZE MIXED

These everlasting flowers should be grown in every flower garden and for this reason we have placed them in this list. The plants grow about 2 feet high and produce the beautiful flowers like a half-open rose in great profusion. They make a very pretty bed and if picked will last all winter; excellent for Christmas and New Year decorations. Our seed includes all colors. Easy to grow. Pkt 7c.; 2 pkts. 10c.

JAPANESE KUDZU VINE

JAPANESE KUDZU VINE

One of the fastest climbers having beautiful flowers like a wistaria but larger in size and with better clusters. The foliage is very luxuriant and where quick shade is wanted this plant will prove of great value as it seems to thrive everywhere. It is perfectly hardy and will increase in size and beauty year after year. Pkt. 10c.; 3 pkts. 20c. Price of plants: 3 for 40c.; 6 for 75c.; 12 for \$1.25.

GAILLARDIA

GAILLARDIA-Finest Annual Mixed

One of the most showy annuals and greatly admired for their fine form and rich blending of colors in orange, brown, bronze, maroon and crimson. Many of the flowers are 4 inches across and being produced on long stems are excellent for bouquets. They blossom from July until frost. Easy to grow. Pkt. 5c.; 3 pkts 10c.

FOUR O'CLOCK

FOUR O'CLOCK-Finest Mixed

No flower makes a prettier border than the old-fashioned Four O'Clock. Plant grows to a height of two feet and blooms in early morning and evening that rival the choicest garden flowers. It is one of the most brilliant and showy plants that can be grown with little or no trouble. Pkt. 7c.; 2 pkts. 10c.

MARIGOLD-Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its easy culture and most beautiful flowers. The hardy plants of neat branching habit grow from 15 to 20 inches high and are exceedingly profuse in flowering. The extra large, round double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded together so as to appear lacinated. Pkt. 7c.; 2 pkts. 10c.

MARIGOLD

MIGNONETTE-Bismark

One of the grandest mignonettes ever introduced. It is remarkable for size, color, fragrance and profusion of blooms. Flower spikes are of giant size, measuring 6 to 8 in. long and fiery red in color. Very showy as the bright flowers contrast effectively against the deep green foliage. Pkt. 5c.; 2 pkts. 15c.

FINEST MIXED—A fine mixture, grows rapidly and produces fine spikes of blossoms during the cool weather of spring and fall. Make a second sowing in August to furnish fall flowers. Pkt. 5c.; 3 pkts. 10c.; $\frac{1}{4}$ oz. 15c.

MORNING GLORIES-Giant. Jap. Mixed

The robust vines attain a height of from 15 to 20 feet. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 15c.

NASTURTIUMS**BRILLIANT BEAUTIES DWARF MIXED**

The plants are of vigorous growth, erect habit and beautiful rounded form. They are of quick growth, begin to bloom early in the summer and continue to bloom until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. Pkt. 5c.; oz. 20c.

JUNG'S GIANT CLIMBING

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, window boxes or brush planting, nor surpass them in freedom and profusion of bloom. On good soil they grow 8 ft. tall. Our mixture includes a wonderful diversity of colors, some are solid while others are beautifully mottled and striped. Pkt. 5c.; oz. 20c.

MIGNONETTE

JAP. MORNING GLORY

BRILLIANT BEAUTIES

Jung's Giant Fancy Mixed PANSIES

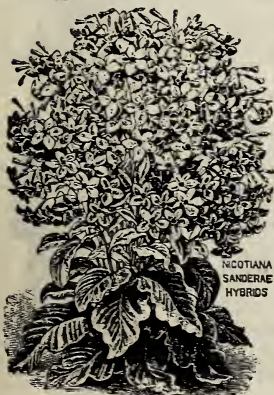

This "Fancy Mixture" contains seeds of the largest, richest and handsomest pansies known to the horticultural world. The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy deep green foliage. The colors are rich and varied such as white, cream, yellow, deep orange, mahogany, claret, reddish bronze, rose. All are distinctly blotched. The compact rounded plants are of sturdy habit and bear gigantic flowers profusely and continuously. Pkt. 20c.; $\frac{1}{4}$ oz. 75c.

JUNG'S GIANT FANCY

NICOTIANA**SANDERAE HYBRIDS**

These flower from early summer until late in autumn. Their beauty is beyond description, flowers being purple, dark red, snow-white, violet, salmon, pink, crimson and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 5c.; 3 pkts. 10c.

NICOTIANA
SANDERAE
HYBRIDS

GIANT MASTERPIECE

PANSIES-Large Flowered Mixed

This is a popular large flowering type just what you want for a pretty bed. The plants make a strong growth and flower freely. This mixture comprises many beautiful varieties and we know you will be delighted with it. Pkt. 5c.; $\frac{1}{4}$ oz. 25c.

PANSY-Giant Masterpiece

This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character, the petals being of a rich velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings combined with the ruffled character of the petals makes the Masterpiece one of the finest Pansies ever developed. Pkt. 20c.; 3 pkts. 50c.

Mrs. B. Meade, Elkhorn, Wis.
—My asters from your seed surely were marvelous.

STOCKS

STOCKS

JUNG'S FANCY DOUBLE MIXED

One of the best known and most popular annuals, of easy culture and suitable for pot plants as well as the garden. The plants grow to a height of 2 feet and produce long spikes of double flowers, many of them 2 inches across. Colors include white, rose, blue crimson and yellow. Our seed is a superb select strain. Pkt. 10c.; 3 pkts. 20c.

SWEET WILLIAM

HARDY ANNUAL MIXED

The old favorite Sweet William as all know does not flower until the second year but this new strain will begin to bloom in 50 to 60 days from seed sown in the spring and will continue to blossom all summer. The flowers or heads are of large size, very fragrant and of various colors, white crimson, rose-pink, etc., many of which are edged with white. Splendid for beds or borders. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 15c.

SWEET WILLIAM, HARDY ANNUAL.

SALVIA BONFIRE

SNAPDRAGON

JUNG'S GIANT FLOWERING MIXED

These flowers were great favorites in old gardens but our giant flowered strain is such a great improvement that anyone would hardly recognize them as the same flower. The bushes grow about 18 inches tall and produce splendid spikes of blossoms in all shades of red, rose, salmon, yellow and white. Very easy to grow and should be in every garden. If carefully lifted and potted in the fall they will bloom in the house during the winter. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 20c.

SNAPDRAGON

VERBENAS

FAIRFIELD FAMOUS MIXED

We offer you a truly flowered mixture of these beautiful annuals. The trusses measure 9 to 12 inches in circumference and the individual florets on well grown plants measure one inch across. They bloom freely, are vigorous in growth and contain beautiful new colors and shades. A mass of bloom from July until heavy frosts. Pkt. 8c.; $\frac{1}{4}$ oz. 25c.

VERBENAS

SUNFLOWER

CHRYSANTHEMUM FLOWERED

Grows seven feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt. 7c.; 2 pkts. 10c.

ZINNIA'S-Jung's Fancy Double Mixed

Our strain of these beautiful giant flowered annuals is unsurpassed. The flowers are of gigantic size, when well grown will measure 4 to 5 inches in diameter. Flowers have a wide range of color from creamy white through all shades of yellow, salmon, pink, rose and crimson. Plants grow three feet in height and form large bushes which bloom until killed by hard frosts. Pkt. 8c.; 2 pkts. 15c.; $\frac{1}{4}$ oz. 25c.

Mrs. O. J. Hohenfeldt, Porterfield, Wis.—I have had very good results from the seed I bought from you the last 2 years, the flowers were most beautiful and I lay it all to the seed from JUNG'S.

FANCY DOUBLE ZINNIA'S

SUNFLOWER

PETUNIAS

BRILLIANT BEAUTIES

If you wish to have a bed of flowers that will be a source of delight from early summer until late in the fall sow some of these beautiful Petunias. The plants grow bushy and compact and are excellent for beds, borders or window boxes. The plants commence to blossom when only a few inches high and are a mass of bright color until killed by heavy frosts. Our mixture is carefully made up of only live bright colors. Very easy to grow. Pkt. 10c.; 3 pkts. 20c.; $\frac{1}{4}$ oz. 40c.

DEFIANCE PETUNIA

PETUNIA-Defiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion and in many the throat is darker than the outer portion of the petals imparting a rich velvety effect. Some of the colors are rich and gorgeous while others are of lovely delicate shades. Pkt. 25c.; 3 pkts. 50c.

BRILLIANT BEAUTIES

PORTULACA-Finest Mixed

A great favorite for bedding, edging and rock work; also splendid for window boxes. Will grow and bloom in hot, dry locations where almost any other plant would die. Blooms profusely from early summer until autumn. For brilliant color a bed of these easy growing flowers is a sight to behold. Our mixture includes all the finest colors. Pkt. 7c.; 2 pkts. 10c.

PORTULACA

POPPIES

DOUBLE FEATHERBALL MIXED

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe-formation with gracefully fringed petals. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of fine color ranges from the most gorgeous shades down to pure white. They are of the easiest culture. Pkt. 7c.; 2 pks. 10c.; $\frac{1}{4}$ oz. 15c.

ICELAND POPPIES

ICELAND POPPIES FINEST MIXED

Hardy perennials that bloom the first season. The fragrant, elegant satin-like flowers are produced from June until October on stems 12 inches long and are excellent for cut flowers as they last fully a week. Our seed includes the most beautiful colors. Pkt. 7c.; 2 pkts. 10c.

DWARF PHLOX

NANA COMPACTA MIXED

This splendid race of dwarf annual Phloxes cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact six to eight inches high, forming dense masses of bloom all summer. The colors include pure white, deep and showy red, rose with white eye and many other shades. Pkt. 10c.; 3 pkts 20c.; $\frac{1}{4}$ oz. 25c.

FEATHERBALL POPPIES

PHLOX DRUMMONDII

PHLOX DRUMMONDII-Grand Mixed

This superb strain is notable not only for variety and brilliancy of colors but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-cent piece. The colors range from pure white to deepest red or crimson while the clear eye of some of the flowers is peculiarly marked. For a mass of splendid colors no flower will give a more satisfactory return for so little cost. No garden should be without these most beautiful of all dwarf growing annuals. Pkt. 7c.; 2 pkts. 10c.; $\frac{1}{4}$ oz. 20c.

DWARF PHLOX

KING WHITE

Giant Spencer Mixed Sweet Peas

The finest mixture of Sweet Peas to be had. It has been made with extra care from the finest large flowering Spencer varieties and in such quantities as to produce a well balanced and fine proportioned color effect. All dull and undesirable colors have been omitted making this the finest mixture it is possible to produce. If you want a fine display of Giant Sweet Peas sow this seed. Pkt. 7c.; oz. 25c.; ¼ lb. 50c

Dwarf or Cupid Spencer Mixed Sweet Peas

Many people wish to grow Sweet Peas but do not care to bother with putting up a trellis or support. By planting this new strain you can grow fine large flowers without supports as the plants grow but 15 to 18 in. tall and will delight you with their abundance of fine large flowers for a long time. Our strain is made up of fancy large flowering strains and will give splendid results. May also be sown in pots for winter blooming. Pkt. 10c.; oz. 35c.

H. M. Barney, Arlington, Mass.—When we send orders from a city where seed houses are high class as in Boston to you in far away Wisconsin it speaks volumes for JUNG'S.

Giant Spencer Sweet Peas.

These new Sweet Peas are of enormous size, which with their charming colors and waved and fluted appearance entitles them to be put in a class by themselves. Some of the flowers grown on our farm measured 2½ inches across. The plants are vigorous in growth and should stand at least 18 inches apart.

ASTA OHN—Both standards and wings of flowers are a soft charming lavender. Flowers are beautifully waved and fluted. Pkt. 7c.; oz. 25c.

ELFRIDA PEARSON—Flowers of extra large size and a deep rich pink color; often four flowers to a stem. Pkt. 7c.; oz. 25c.

FIERY CROSS—Giant sized blossoms of fiery-red color which glisten in bright sunlight. Flowers are beautifully waved and borne three and four on long stems. Pkt. 7c.; oz. 25c.

KING WHITE—The grandest of all white Sweet Peas, remarkable for its glistening whiteness and large size. Pkt. 7c.; oz. 30c.

MRS. ROUTZAHN—A beautiful Sweet Pea, soft, salmon-pink, shading towards apricot and rose at the edges. Flowers of largest size and beautifully waved. Pkt. 7c.; oz. 25c.

ROYAL PURPLE—A beautiful rich deep purple and the best in its class. Flowers of large size borne on long stems and produced in great profusion. Pkt. 7c.; oz. 25c.

WARRIOR—Beautiful rich maroon flowers of large size and true waved or fluted style. Very vigorous growers. Pkt. 7c.; oz. 25c.

SPECIAL OFFER—1 oz. of each of above 7 Grand Sweet Peas—\$1.35
1 Pkt. of each of the above Sweet Peas for 25c.

"CUPID"
SWEET PEA.

SWEET ALYSSUM—Little Gem

Free flowering handsome annuals for beds, edgings, etc. This variety is very dwarf and blooms profusely forming a solid mass of pure snowy whiteness throughout the summer. Excellent for either beds, borders or edgings; try it once and you will always want it. Pkt. 7c.; 2 pkts. 10c.; ¼ oz. 25c.

GYPSOPHILA or BABY'S BREATH

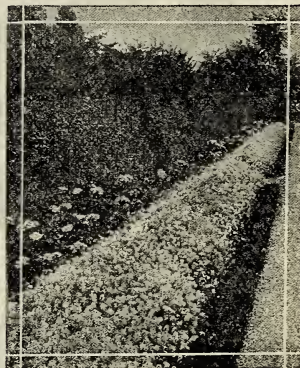

These hardy annuals produce feathery sprays of tiny, pure white, star-like flowers that are highly esteemed as cut flowers as they lend a most graceful effect when combined in bouquets of Asters, Sweet Peas or other flowers. Successive plantings should be made if you wish a supply throughout the season. Pkt. 7c.; 2 pkts. 10c.; ¼ oz. 20c.

Mrs. L. F. Reynolds, Powers Lake, No. Dak.—My Sweet Peas raised from your collection of seed last year were truly wonders, the finest I have ever raised.

GLADIOLI

Jung's Supreme Mixed

Many of our customers want a choice assortment of Gladioli at nominal expense and we have therefore made up this very choice mixture of different types and colors. This is not made up of odds and ends but is carefully blended for a complete range of colors and all large flowering varieties. Our sales on this mixture are increasing every year and we do not hesitate to recommend it in every way. 6 for 25c.; 12 for 45c.; 50 for \$1.25; 100 for \$2.00. Guaranteed to bloom the first season.

SWEET ALYSSUM

SUPREME MIXED

GYPSOPHILA

Jung's Seed Potatoes

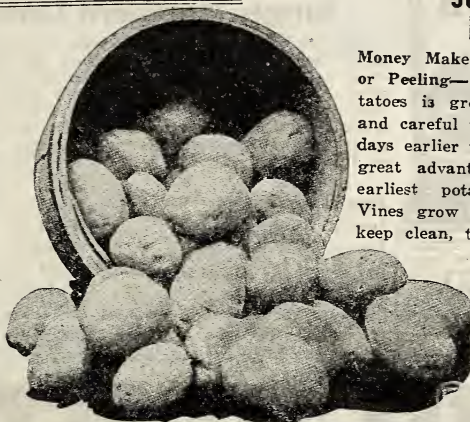

There is no longer any doubt about the superiority of Northern Grown Seed Potatoes. They are full of life and by planting our seed you are assured of early maturity, increased yield and vigorous growth. Tests conducted by experiment stations in different states have all proved that northern grown potatoes invariably produce the largest crops. Seed Potatoes are scarce and for this reason we advise early orders. Prices subject to change.

TIME OF SHIPPING SEED POTATOES

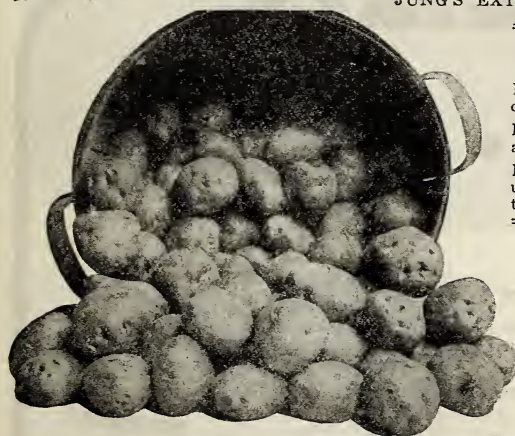

We start shipping out seed potatoes as soon as safe from frost, usually March 25th. However we can ship sooner if you wish to take the chance of having them frozen while in transit. If the time of shipment is left to our judgment we will ship when we consider it safe and if they should then freeze have your agent mark this on your freight or express bill and we will refill the order or refund for the damage. Always state whether you wish shipment to go by freight or express. Freight takes a little longer but for shipments of 100 lbs. or more the charges are only about one-half as much as express.

Jung's Extra Early White

It is a most excellent early variety, maturing good size tubers seven weeks from time of planting. It has also the remarkable characteristic of producing very few, if any, small potatoes, all the tubers being of marketable size. The vines make short upright growth, so that the hills may be only a short distance apart. The flesh is pure white, with a clear smooth skin, and in quality they are excellent, always cooking dry and mealy. They are splendid keepers and taking it all in all it is a first class sort and worth the attention of all potato growers. Not prepaid: Pk. 65c.; bu. \$2.00; 10 bu. \$19.25.

JUNG'S EXTRA EARLY WHITE

JUNG'S HARVEST KING

Jung's Harvest King

A Money Maker Main Crop Potato. We take great pleasure in offering our friends this grand Potato and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound white tubers which are of excellent quality for cooking or baking. Harvest King will bring the highest price on all markets. We offer an unusually nice stock of our own growing which is clean and healthy having been treated for both scab and blight. Not prepaid: Pk. 60c.; Bu. \$1.75; 10 bu. \$17.00.

Dr. A. J. Thieler, Detroit, Mich.—I had very good results with your seed potatoes last year.

RED RIVER EARLY OHIO

JUNG'S SPECIAL STOCK Red River Early Ohio

Money Makers—First Early—No Waste in Cooking or Peeling—Easy to Dig. Our stock of these potatoes is grown in the famous Red River Valley and careful tests have proved them to be fully ten days earlier than the common grown stock, this is a great advantage if you grow for market as the earliest potatoes always bring the best prices. Vines grow upright and are easy to cultivate and keep clean, tubers are set in a compact bunch and are easy to dig. Skin light pink in color, flesh is pure white and of the best cooking quality. Our stock will give you an increase in yield far beyond your expectations. Not prepaid: Pk. 65c.; bu. \$1.90; 10 bu. \$18.75. Second size: bu. \$1.75.

What Customers Say about Our Seed Potatoes:

H. Fletcher, Rumney Depot, N. H.—Potatoes and garden seeds purchased from you were entirely satisfactory.

F. F. Stover, Union, Iowa.—Used your Extra Early White Potatoes and had a very fine crop.

Mrs. M. Bayer, Benton Harbor, Mich.—The early potatoes you sent us last year were so satisfactory that we are ordering them all of that variety this year.

Jung's White Bonanza

A new potato that promises to surpass anything we have yet seen in potatoes. It combines finest appearance, great yield and superb cooking qualities. In appearance it somewhat resembles a Rural but is ripe and ready to dig when that variety is still green. This alone will prove it is of great value as ripe, well matured potatoes always bring top prices. The size and shape are well shown in the illustration. A remarkable thing is the uniform size of the tubers, no overgrown or small ones at all. We advise early orders. Not prepaid: Pk. 60c.; bu. \$1.90; 10 bu. \$18.25.

JUNG'S WHITE BONANZA

Special Potato Offer

In order that you may try out a number of our good potatoes at a reasonable price we have made up a collection of the following:

JUNG'S EXTRA EARLY WHITE

JUNG'S HARVEST KING

JUNG'S WHITE BONANZA

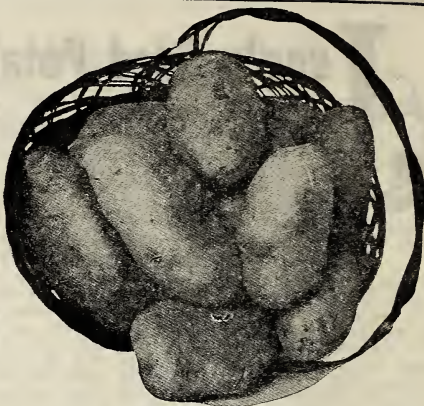

1 Pk. of each for \$1.65

1 Bu. of each for \$5.65

This price is for select stock, each variety packed separately.

Jung's Improved Russet Potato

Anyone at all acquainted with Potatoes knows that for the finest quality the Russet Potato is unexcelled, in fact they always bring a higher price on the market than any other variety. A basket of these potatoes with their finely netted russet skins certainly present a handsome appearance which with their fine eating and keeping qualities cannot fail to make them popular. Our stock is limited and we advise early orders. Not prepaid: Pk. 65c.; bu. \$2.25.

IMPROVED RU'SET

Mrs. G. S. Radley, Owen, Wis.—I had fine luck with your seeds last year, the potato eyes did just fine.

B. R. Potter, Ithaca, N. Y.—Had very good luck with JUNG'S potato eyes last year.

Jung's Northern Grown Potato Eyes

Many of our customers who wish to get some of our pure bred seed potatoes but do not feel like paying the freight or express charges on a small quantity can now try them out at small expense by planting our select Potato eyes. These eyes are cut from select potatoes, they will keep for a long time and we guarantee them to reach you in good condition. In this way you can try out our potatoes at very small expense as we pay all postage charges. We can supply our select hand cut eyes as follows:

	100	200	500
Jung's Extra Early White	\$1.10	\$2.00	\$4.65
Jung's White Bonanza	\$1.00	\$1.75	\$4.00
Jung's Harvest King	\$1.00	\$1.65	\$3.90
Red River Early Ohio	\$1.00	\$1.90	\$4.35
Improved Russet	\$1.10	\$1.90	\$4.50

50 eyes of each of the above varieties for \$2.50

100 eyes of each of the above varieties for \$4.50

INOCULATE WITH NOD-O-GEN

WITH
NOD-O-GEN

(BELOW)
NOT
INOCULATED

For Legume Crops

The cheapest and easiest way of improving crops and soil.

The Legume crops when not inoculated rob the soil; inoculated with the right bacteria, they feed the soil, grow more vigorously and contain a higher percentage of valuable feed proteins.

Nod-O-Gen Easiest and Surest Form of Inoculation

Nod-O-Gen is a scientific pure culture of root nodule bacteria, prepared on special food jelly in bottles with patent stoppers which permit the bacteria to live and breathe and maintain their vigor. Each culture contains plenty of bacteria to increase the quantity of seed marked on the bottle. The cost per acre is very small.

Moreover Nod-O-Gen is easiest inoculation to use, requiring no equipment or experience. Takes only a few minutes. Complete directions on every bottle. Results are sure.

Jung's Heavy Yielding Seed Oats

IOWA OATS

We make a Specialty of Pedigree Seed Oats. This is not oats that is bought on the open market, given a fancy name and then sold at a good price. Our Oats is grown from the best Pedigree stock on clean land and can be relied upon to give the best satisfaction.

"Iowa"

Extra Early.

Wonderful Yields.

The past 3 years the superior qualities of early oats were very noticeable as they produced much heavier grain and larger yields than the later varieties due wholly to the fact that they ripen before severe heat or rust strikes them. The Iowa ripens as early as barley in fact can be cut and

shocked while the common oats are still green. They grow a stiff straw and are noted for their ability to stand up on rich ground, every bundle seems to be a mass of heads. Has a yield record of 80 bu. per acre. The kernels are medium sized, pure white color and have a very thin hull, this accounts for their heavy weight as they seem to be all meat. We have a very nice lot of this seed. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 45c.; bu. \$1.00 2½ bu. \$2.40; 10 bu. \$9.25; 25 bu. \$23.00. Bags free.

Jung's Bumper Crop-Wis. No. 5

A Pedigree Oats originated at the Wis. Experiment Station at the same time as Wis. Ped. No. 1 but entirely different in character. Wis. Ped. No. 5 has a very thick, white kernel, medium in length, heavy and very attractive; in fact the finest looking oats we have; big fat kernels fairly bursting with life and energy. It grows a strong rank straw and is especially adapted for heavy clay soils. Has made splendid yield records. Why sow common or scrub oats when you can buy our pure pedigree oats at such reasonable prices. You will get more than enough extra yield to pay for the seed and then have it to sow every year. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 45c.; bu. \$1.10; 2½ bu. \$2.50; 10 bu. \$9.75; 25 bu. \$23.50. Bags free.

James BeDell, Port Byron, N. Y.—The seed oats from you last year were very satisfactory.

Wis. Pedigree Barley

The Barley That Always Wins First Premium at All the Grain Shows

It has been thoroughly tested at the Wisconsin Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will outyield all others, has stiffest straw and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other and it will pay any farmer handsomely to sow this barley. Under normal conditions the kernels are bright and white, making it most attractive. Our seed of this barley was grown on the famous soil of Dodge Co., which produces the best quality of Barley in the world. It is free from all foul weeds and sure to produce a wonderful crop. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 50c.; bu. \$1.45; 10 bu. \$13.75. Bags free.

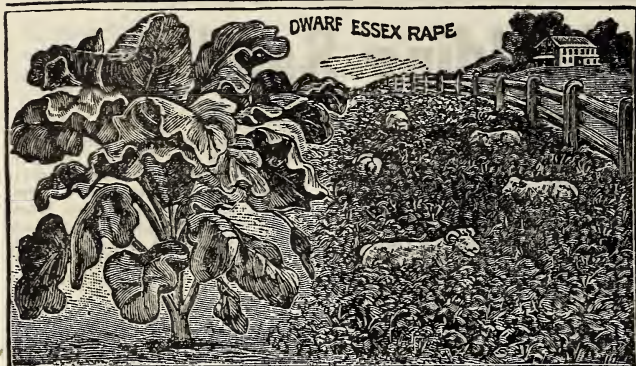

Japanese Buckwheat

By far the best and most productive variety. Produces the most flour and is excellent to use for a crop when late seasons change your planting plans. Seed sown in July has made a crop of over 40 bushels per acre. Color of grain is a dark brown, almost black. Lb. 25c.; 3 lbs. 50c., postpaid; not prepaid: Pk. 60c.; bu. \$1.75; 2½ bu. \$4.20.

WIS. PED. BARLEY

BUMPER CROP OATS

Genuine Dwarf Essex Rape

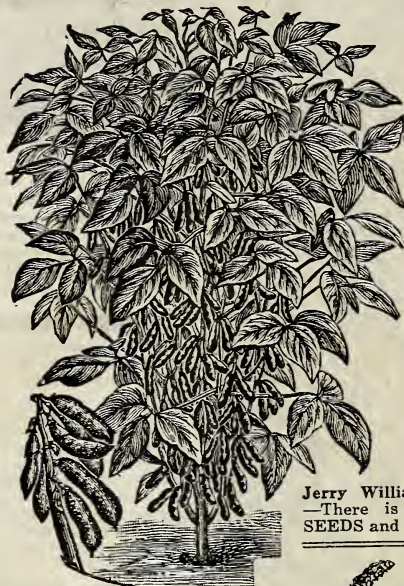

The greatest of all forage plants. It is ideal for sheep pasture and is now largely sown for cattle and hogs. It furnishes an immense amount of green feed on a small area and its nutritive value is equal to any other green feed. It is ready for pasturing in 6 weeks from the time of sowing and furnishes excellent feed throughout the summer and fall. Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Rape should be sown in drills at the rate of three pounds to the acre, or broadcast, using four to six pounds to the acre, all through the summer months, so as to furnish a successive crop of sheep and hog feed. Some firms ask more for their Rape Seed than we do, but, we handle the VERY BEST SEED which is always sure to give satisfaction. Lb. 25c.; 3 lbs. 60c., postpaid. Not prepaid: 5 lbs. 80c.; 10 lbs. \$1.50; 25 lbs. \$2.90; 100 lbs. \$9.80.

Manchu Soy Beans

Inoculate with "Nod-O-Gen"

Great for Silage; Equal to Clover for Hay

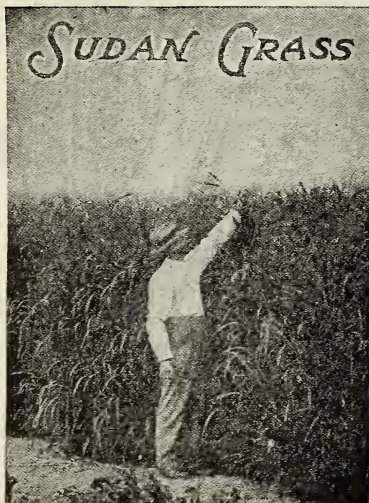

Soy Beans have a double value as they are great for feed and also nitrogen gatherers, making the soil richer wherever they are grown. They can be sown broadcast for hay or sown in rows and cultivated if wanted for the beans. Soy Beans are much richer in protein than oil meal or bran and can be used to good advantage in making a balanced ration when ground with oats or barley. For ensilage they may be sown in rows or also planted with the corn as the corn binder will cut them very nicely. They are a tender plant and should be planted about the same time as corn. Probably the best all around variety as it makes a good growth about 30 inches tall and is excellent for ensilage. Lb. 25c.; 3 lbs. 50c., postpaid; not prepaid: Pk. 90c.; bu. \$2.90. Bags free.

Soy Beans

You no doubt can buy seeds at lower prices than ours but we wish to state that we know if you want the best quality you will find our prices very reasonable. We try at all times to produce the best seeds it is possible to get and such seeds are always the cheapest in the end.

Jerry Williams, Rapid City, S. D.
—There is no seed like JUNG'S SEEDS and I don't mean "Maybe".

Sudan Grass

The Wonderful New Forage Plant

Sudan Grass, although comparatively a new plant is becoming very popular. It is far more valuable for hay than millet or any of the sorghums as it is just as easy to grow and will produce more and better hay. It makes a heavy yield, 3 to 5 tons of cured hay per acre, usually two cuttings per season can be made for if cut before the seed ripens it will grow again like alfalfa. The hay is of excellent quality and all kinds of stock eat it readily. An excellent crop to sow after early peas, as it can be sown as late as July 10th and still make a crop. Sow broadcast like oats, 20 to 25 lbs. per acre, any time from May 20 to July 10th. Try some, we know you will like it. Lb. 30c.; 3 lbs. 65c., postpaid. Not prepaid: 10 lbs. \$1.30 50 lbs. \$4.00; 100 lbs. \$7.00. Bags free.

Japanese Millet

Japanese Millet is one of the most remarkable forage plants we have; remarkable for its marvelous luxuriant growth, often growing six feet tall; remarkable for the immense amount of hay it produces from each acre; and remarkable for its feeding value. It is adapted to all climates, does well on low ground; makes more hay than any other Millet and requires less seed per acre. Sow in May for best results, 15 to 20 pounds per acre. If desired for hay cut just before it heads out. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 70c.; bu. \$2.50. Bags free.

German Millet

The German Millet grows very rank, generally three to four feet high and is one of the best varieties for hay, being sweet, palatable and milk producing. The hay may seem coarse, yet it is very tender if cut at the right time, which is when in full bloom and cows, horses and other farm stock are all exceedingly fond of it. We offer genuine Southern grown seed which produces a much better quality hay than the common stock of seed. Lb. 25c.; 3 lbs. 60c., postpaid. Not prepaid: Pk. 75c.; bu. \$2.60. Bags free.

GERMAN MILLET

Jung's Pedigree Fire-Dried Seed Corn

We make a specialty of Wis. Grown Seed Corn. Our stocks receive expert supervision and are bred up for earliness, vigor and heavy yields. We select our breeding ears from the most ideal stalks while the corn is standing according to the characteristic of each variety; these are then planted one row from each ear and detasseled and our fields are then planted from this select seed. By this method we have bred up our stocks to a very high degree of perfection. The superior qualities of Wis. Grown Seed Corn is no longer questioned, for vigor and big yields it is unexcelled.

The past fall was very unfavorable for saving seed corn as corn contained so much moisture that it took much artificial drying to dry it out. We were fortunate in getting our seed corn in early and having it thoroughly cured before severe cold set in; the quality and germination is very good.

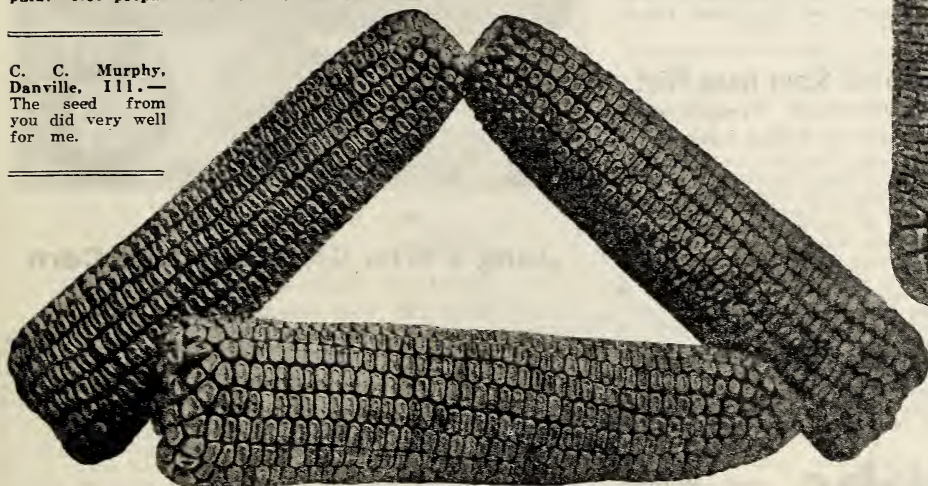

Good Wis. Seed Corn is not plentiful and if you have not already secured your seed corn it will be well to secure it at once. We furnish bags free. Prices subject to change.

Wis- No. 25 Extra Early Yellow Dent

This variety was developed by the Wis. Agr. Exp. Assn., the idea being to produce a very early maturing corn suitable for the northern counties of Wis., Minn., and Mich. It was bred from a cross of Wis. No. 8 with a very early variety which Prof. Delwiche secured from Northern Mich. That it is a success is well proved by the excellent showing it has already made in the many northern counties of Wis. In appearance it is similar to Wis.

No. 8 but matures about one week earlier. On the branch of the Wis. Exp. Station at Spooner, Wis., a remarkable yield of over 80 bu. per acre was made. If you wish a very early ripening corn do not fail to plant Wis. No. 25. We have an unusually fine stock of this Corn which is of our own growing and tests 97 per cent. Lb. 35c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.75; bu. \$6.25.

C. C. Murphy,
Danville, Ill.—
The seed from
you did very well
for me.

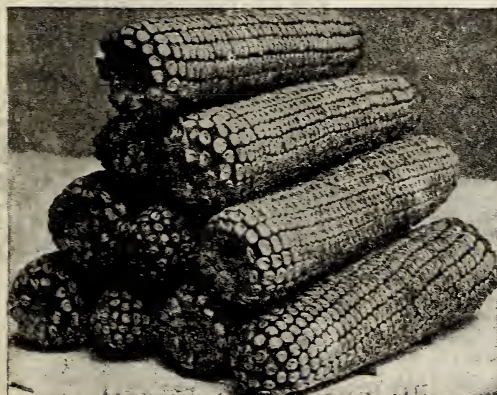

GOLDEN GLOW—WIS. NO. 12

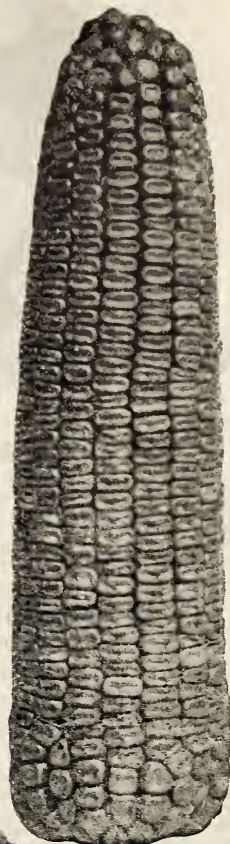

Golden Glow—Wis. No. 12

The Most Popular Corn in Wisconsin

A new early yellow dent for Central Wisconsin and similar latitudes. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a popular variety for general culture. It matures as far north as Central Wisconsin and yields big crops of large-sized ears. Golden Glow is

COLD RESISTANT GOLDEN GLOW

WIS. NO. 25

Can you afford to plant Seed Corn of doubtful quality when it costs only about \$1.00 per acre to use Jung's Select Seed Corn that is tested and will grow?

a pure golden yellow dent corn, most attractive in color and appearance. Ears are fairly large, averaging about eight inches in length, symmetrical in shape, slightly tapering at the outer ends and are very free from a tendency to flintiness; stalks are large and strong with abundant foliage making it a desirable fodder or silo variety. This is strictly a Wisconsin bred variety and was brought out by Prof. R. A. Moore, his idea being to produce an early variety with large ears and deep kernels and he succeeded well. It is a heavy yielder. Our seed is all grown here and is extra fine, tests 94 per cent. Lb. 30c.; 3 lbs. 75c., postpaid. Not prepaid: Pk. \$1.50; bu. \$5.25.

Cold Resistant Golden Glow

A new variety of corn that will prove to be of great value as it was bred to resist cold unfavorable weather which we so often have at planting time. Compared to most other varieties of corn it can be planted almost two weeks earlier as it will grow even in cool weather. If frosts get it, it seems to start right up again. However its frost resisting quality is not its only good feature as it is fully as good a yielder as one of the best silage varieties for central and upper Wisconsin—Golden Glow and if anything a little earlier. It is sin for it is unusually vigorous and produces a good, large, leafy stalk. The Wis. Experiment Station worked on this corn ten years and tested it out thoroughly in different sections before sending it out. The seed we offer is of our own growing and of very fine quality. Germination 96. Lb. 25c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.60; bu. \$5.50.

JUNG'S PEDIGREE FIRE-DRIED SEED CORN-Continued

Silver King-Wis. No. 7

The Leading White Dent Corn in Wisconsin

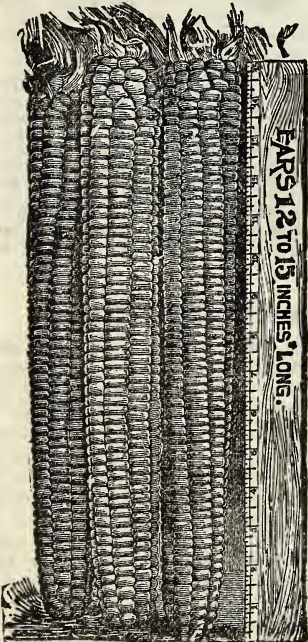

Silver King leads the list today of all-around good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana as well as for Wisconsin. Ears are just the right length, averaging 8 to 10 inches, always filled out clear to the tips and are very uniform, in size and type. The corn is pure snow-white in color, with good long kernels set compactly in straight rows. It is a strong grower, early enough to mature as far north as south-central Wisconsin, and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage, making it a very desirable silo or fodder variety. It has a decided double ear characteristic, one reason for its large yield records. Our seed this year is as fine a lot of Silver King as we ever had. All grown here in Dodge Co., well ripened and germinates 97 per cent. Lb. 30c.; 3 lbs. 75c., postpaid. Not prepaid: Pk. \$1.60; bu. \$5.75.

SEED CORN SHIPPED ON APPROVAL

All of our seed corn is carefully tested for germination before sent out. Order your seed corn and after it arrives test it in any way you wish within 10 days after you receive it. If it is not satisfactory in every way return it at our expense and your money will be refunded. Could anything be more fair?

Wis. No. 15-Improved Smut Nose Flint Extra Early Enormously Productive Ears Often Over 15 Inches Long

This variety was developed, improved and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than any other flint corn and also has a stronger stalk, being especially well adapted to Wisconsin conditions. A peculiar characteristic is that instead of each kernel producing one stalk and many short suckers like most flints, this variety often produces 3 and 4 stalks from each kernel, each of which have a well developed ear, no short suckers at all. The ears are long, often 14 inches, and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 feet tall and make excellent fodder. This also, makes an excellent corn to plant for "hogging down" as it matures so early. We have an excellent lot of seed of our own growing which tests 96 per cent germination. Lb. 30c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.70; bu. \$6.00.

Fritz Hellmuth ausen, Swiss, Mo.—We, like your seeds very much, everything came up fine.

No. 1 Wis. White FIELD PEAS

Richest Food Known for Hogs
Excellent for hay or green feed

Field Peas should be more generally grown, as you can produce pork at a low cost by sowing a few acres of these peas. A good way to raise a bunch of excellent hogs is to sow some field peas and plant a few acres of our Smut Nose Flint Corn. When the peas are fairly ripe, turn your shoats into them which will give them a fine start and when the peas are gone let them into the corn as it will be ripe by that time. Field Peas also make excellent hay when sown with oats, also splendid when cut green and fed to milch cows. Our seed is extra fine and we offer it at a price so that any farmer can afford to sow a few acres. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. \$1.10; bu. \$3.60; 2½ bu. \$8.75.

WIS. GIANT ENSILAGE

Jung's Wis. Giant Ensilage Corn Tall Leafy Stalks—Giant Sized Ears Will Fill Your Silo with Less Acres

Here is the corn for Wis. silos. Why plant southern ensilage corn that only produces stalks and leaves of little feeding value when you might just as well plant a corn that will give you the above and besides a very large developed ear that will make ensilage having real feeding value. This is a yellow dent corn and grows a very strong leafy stalk, 10 to 12 ft. on good soil, and produces ears larger than any Wis. Pedigree variety; it matures as early as Silver King and never fails to make the finest ensilage as the stalks are very leafy and juicy. It not only is the best ensilage corn for Wis. but is also very good as a general corn crop producing the most bushels per acre; the ears are so large that it does not take many to fill your basket. We have an unusually fine stock of this corn, germinating 93 per cent. Order early if you wish to make sure of some of this great corn. Lb. 30c.; 3 lbs. 70c., postpaid. Not prepaid: Pk. \$1.25; bu. \$4.25; 2½ bu. \$10.25.

Field Peas

MEDIUM OR RED CLOVER

Alsike Clover

Inoculate this seed with Nod-O-Gen—page 52

The advantage of Alsike over Red Clover is its true perennial character and great hardiness. It will adapt itself to extremes of either wet or drought and will flourish on soils where red clover would not grow; it is also more leafy and does not have heavy stalks and for this reason makes a much finer hay especially when sown with Timothy. It is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is very hardy and seldom winter-kills. Alsike is the only clover that will thrive and not kill out on low places. Fancy Pine Tree Seed: Lb. 45c; 3 lbs. \$1.25, postpaid; not prepaid: Pk. \$4.95; bu. \$18.25. Bags free.

ALSIKE CLOVER

"Pine Tree" Timothy

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. The largest crops of hay are raised on rich land. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds, WILL NOT ALL GROW. "Pine Tree" Seed: Lb. 25c; 3 lbs. 70c., postpaid; not prepaid: Pk. 90c; bu. \$2.85.

"Pine Tree" Red Top

A suitable grass for moist, rich soils where it thrives most luxuriantly. It is a good variety to sow with Timothy or Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close for if it is allowed to grow up to seed cattle dislike it. On good soil it grows about four feet high. Lb. 35c; 3 lbs. \$1.00, postpaid; not prepaid: 10 lbs. \$2.00; 50 lbs. \$9.00; 100 lbs. \$17.50.

RED TOP

Fancy Recleaned Clover Seed

Clover is without any question the most popular and widely grown crop for hay, pasture and also for building up or enriching the soil. This season the price of the seed is very reasonable and every farmer should sow clover liberally. In sowing clover seed nothing is more important than that the seed be pure and free from foul weeds. Beware of imported clover, it may be cheaper in price but it is not suited for our climate and often contains many foul weeds. You can rely on Jung's Clover being pure and suitable to our climate. Sow clover with all your small grain, the fertility it adds to your land will more than pay the cost of the seed. Prices subject to market changes.

Medium or Red Clover

Inoculate this seed with Nod-O-Gen—page 52

We have an unusually fine stock of Medium Clover Seed. It is bright, pure, of high germination and free from foul weeds. This is the standard Red Clover and a dependable all-around variety for farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed or plowed under to add fertility to the soil. It pays always to buy the best grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade, it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it but from the fact that one's land is liable to become infested with weed seeds. Sow GOOD CLOVER SEED and plenty of it. Fancy Pine Tree Seed: Lb. 50c; 3 lbs. \$1.45, postpaid; not prepaid: Pk. \$5.25; bu. \$21.00; 2½ bu. \$51.25.

Mammoth Clover

Inoculate this seed with Nod-O-Gen—page 52

This is well known for its enormous yields and is largely used as a fertilizer to plow under green. It is very hardy and hardly ever freezes out. Also excellent for pasture as it produces so much forage. It produces very large crops of hay, 3 to 5 tons per acre. As a fertilizer to plow under green it has no equal, also excellent to sow with small grain for fall pasture, using from 4 to 6 lbs. per acre. Pine Tree Seed: Lb. 50c; 3 lbs. \$1.45, postpaid; not prepaid: Pk. \$5.85; bu. \$22.00. Bags free.

"PINE TREE" SEEDS

We handle the famous "Pine Tree" Clover, Timothy and other Grass Seeds. This brand is nationally advertised and for quality and purity they are unexcelled.

PINE TREE TIMOTHY

A SECOND CUTTING OF ALFALFA

ALFALFA THE COMING HAY CROP FOR AMERICA

A clover-like leguminous plant of great importance as a hay crop; nutritious and rich in protein elements. It grows from 2 to 5 feet high and roots 8 to 12 ft. deep. It needs one season to become established; after that it yields enormous crops annually for years. Two to six cuttings per season, aggregating three to eight tons of cured hay are harvested, according to conditions and locality. It does well on all good, rich soils, except heavy clay, if it is well drained. It is a perennial plant lasting many years under good treatment. It should be grown by every farmer and dairyman. We offer only **DRY LAND SEED**. Dry Land Alfalfa is much to be preferred to seed grown under irrigation as the Dry Land Seed produces a much heavier and more vigorous plant. Insist on having **DRY LAND SEED**.

"Dry Land" Hardy Dakota No. 12

We have an unusually nice stock of this seed grown in the Black Hills region of So. Dak. This seed is very plump, bright in color and free from fowl weeds. This strain is now being sold in Wis. in large quantities as it has proved to be very hardy; it is just as good and hardy as Montana seed. This seed is very scarce this year. Lb. 40c.; 3 lbs. \$1.25, postpaid. Not prepaid: Pk. \$4.75; bu. \$18.25; 2½ bu. \$44.50. Bags free.

Canadian Super Hardy Alfalfa

This is probably one of the most hardy strains of Alfalfa, the seed we offer was grown in Ontario, Canada and should, therefore, survive any Wisconsin winters. Its one great merit is the fact that it has a spreading root system instead of a long straight tap root like common varieties, this enables it to withstand heavy freezing without injury. You will find this strain to compare very favorably with the regular Grimm and it does not cost as much. We quote from the Agricultural college, Guelph, Ont., Canada. A large number of tests in past years have proved that common Alfalfa would not live long in Ontario. Variegated Alfalfas, such as Grimm and Ontario Variegated, however proved very hardy. In one experiment at the college hay has been cut 3 times a year for eleven years without re-seeding. The average yield of hay per acre was slightly over four tons each season. We offer Ontario, Canada grown seed: Lb. 45c.; 3 lbs. \$1.30 postpaid. Not prepaid: Pk. \$5.75 bu. \$22.25; 2½ bu. \$54.50. Bags free.

BLACKFOOT GRIMM

CANADIAN SUPER-HARDY

Certified "Blackfoot" Grimm Alfalfa

This is probably the hardest and most popular Alfalfa. It was brought to Minn. by a German farmer named Grimm in 1857 and the seed we offer can be traced back to the original stock. Grimm Alfalfa can be distinguished from other varieties by its blossoms, which are yellow, blue green, etc., instead of all purple and by its branching root system. The great hardness of Grimm Alfalfa is no longer questioned as under farm conditions and carefully conducted trials of the University of Wisconsin it has proved to be the hardest variety known. We offer genuine "Blackfoot" No. 1 seed, of high germination and absolutely free from fowl weeds. In ½ bu. \$12.50; bu. \$24.50. Put up only in ½ bu. and bu. sealed bags.

You Should Grow Alfalfa

It contains as much protein as wheat bran.

It does not exhaust but enriches the soil.

It produces from three to eight tons of hay to the acre.

One acre will pasture 20 hogs for 6 months.

Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA can not be successfully grown.

GRUNDY CO. SWEET CLOVER

SWEET CLOVER THE GREAT SOIL BUILDER

Sweet Clover belongs to the family of leguminous plants and adds greatly to the fertility of the soil on which it is grown. Sweet Clover will grow and make a crop on soil where other clovers and grasses would perish and makes a very good hay for cattle, also excellent pasture for hogs, being the first to start in the spring and the last to be killed by frost in the fall. It is coming into popular favor more every year as its good qualities are being recognized. As the price of the seed is very reasonable every farmer should sow some.

Dwarf or Grundy County

This is a special strain of White Blossom Sweet Clover; it is earlier, more dwarf and much more leafy than the common variety. In fact it is so leafy and looks so much like alfalfa that it might be called a white blossomed alfalfa. On account of its earliness and quick growth the leafiness and fine quality of hay produced it will prove much more desirable than the common variety. We have some very nice seed that we offer at a reasonable price. Lb. 35c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$2.40; bu. \$7.00; 2½ bu. \$16.75. Bags free.

Fancy White Blossom

A very popular and widely used variety for pasture and soil enriching largely sown for all purposes. Fancy Seed: Lb. 30c.; 3 lbs. 65c., postpaid. Not prepaid: Pk. \$2.00; bu. \$6.75. Bags free.

Yellow Blossom

This is the large strain of Yellow Sweet Clover very similar to White Blossom, except for color of flowers. Some farmers like it better for pasture as they say it says green longer. Fancy Seed: Lb. 30c.; 3 lbs. 70c., postpaid. Not prepaid: Pk. \$2.20; bu. \$7.00. Bags free.

**EASY TO GROW
SURE TO BLOSSOM**

Hardy Perennial Plants.

**PLANT ONCE AND HAVE
FLOWERS FOR YEARS**

Aquilegia

Delphinium

Foxglove

Giant Shasta Daisy

Coreopsis

Gaillardia

Canterbury Bells

Stokesia

The planting of perennials or flowers that live from year to year is becoming very popular as you plant them once and will then be assured of having their bright cheerful blossoms from early spring until late fall every year. We are offering a select list of popular hardy varieties that are easy to grow and sure to please. Instructions on growing perennials will be sent free with every order if requested.

Price of strong plants of any variety listed below: Each 20c.; 3 for 55c.; 6 for \$1.00; doz. \$1.95, postpaid.

AQUILEGIA or COLUMBINE—Beautiful flowers in many shades and colors, all with long graceful spurs on the flowers. They remain in blossom a long time and are long lived. Very easy to grow. Mixed colors only.

ACHILLEA—This charming white flower is beautiful in borders and especially good for cutting. Blossoms throughout the hottest part of summer.

CANTERBURY BELLS—These stately hardy biennials are profusely covered with large, bell-shaped flowers. They grow 2 to 3 ft. tall and make a brilliant show in a garden, among shrubbery or in a border. Mixed colors only.

COREOPSIS—One of the most useful Hardy Plants, will produce a profusion of flowers for bouquets from June until September if kept picked. Flowers bright yellow and borne on long stems.

DELPHINIUM—These graceful flowers rank among the fairest gems of our perennial flower gardens. In color they may be compared to a clear blue sky, in fact they are the finest shade of blue to be had in flowers. Well established plants will produce a large number of flower spikes. Invaluable for cutting and very graceful for bouquets. Grows 3 to 5 ft. tall and increases in size from year to year.

GIANT SHASTA DAISY—You will be delighted with our plants as they produce immense white flowers on long stems and remain in blossom for a long time. Will grow 3 ft. tall in good soil.

FOX GLOVE or DIGITALIS—For stately beauty in the garden or among other shrubs or plants the Fox Glove stands supreme. Produces tall spikes of delicate colored flowers. A biennial but renews itself from self sown seed.

GAILLARDIA—A very desirable hardy plant as they seem to thrive in sunny positions and produce flowers from spring until fall. Excellent for beds or borders and invaluable for cut flowers. The best flower for hot sunny spaces.

LUPINUS—These beautiful hardy plants produce tufts of soft green foliage from which arise in continuous succession the stately spikes of sweet pea-shaped flowers. Spikes of bloom a foot long are produced on stems three feet high. Mixed colors in pink, blue and white.

PLATYCODON—A gorgeous flower for summer blossoms. Large sky-blue flowers which burst from buds that look like balloons. Very hardy and easy to grow.

CHINESE LANTERN PLANT—A magnificent ornamental plant producing plants which bear a large number of the bright colored "lanterns". Branches containing the lanterns may also be cut and dried for winter decorations as they retain their bright red color for a long time. May be used for pot plants but as they are hardy may also be left outside over winter.

STOKESIA or HARDY ASTER—A most beautiful and hardy plant that will succeed in any open sunny position. Plants grow 2 to 3 ft. high, bearing freely from July to October its handsome lavender-blue flowers which measure 4 to 5 inches across.

Lupinus

Platycodon
